## Lycan Lover S.K. Yule

Lately, the only thing breathing spice into Karen's ordinary existence is erotic dreams of a sexy green-eyed man. After years of loneliness, Anthony Wolfson finds his mate, Karen Samson. The problem; he's werewolf, she's human. His instincts scream to claim her. His need to protect urges him to woo her. Fate has another plan for them involving a young, cocky werewolf and a dark alley.

## From Reader Review Lycan Lover for online ebook

### Angel says

An OK read however editing errors made it annoying.

---

### Madhellenena says

I am a big fan of PNR but this short story had nothing except (average) sex scenes. I get the "recognise your mate from scent" thing, it makes sense in the context, but insta-love? All the rest was boring - no pack, contradictions (H explains that part of being a lycan is about protecting and yet the h is almost raped by a gang of lycans that admit she is a mate) and absolutely no background story.

In short order, I was terribly dissapointed. I gave it two stars because I only give one star to books I really hated.

---

### Kathryn says

The first half of this short story is incredibly hot, including one of my favorite erotic scenes ever. The second half is weaker and one of the main characters becomes annoying. This probably deserves 3 stars but I am being generous considering the first scene I mentioned.

---

### Carolyn F. says

#### part of anthology Shifter Seduction Boxed Set

Here's pretty much the basics of this story. I love you, I love you too, hot sex. I've never felt love like this before, me either, hot sex. Repeat. \*\*

The Amazon link to purchase this book is wrong....please see the above link and fix the information on the page.

On a personal note: I look forward to this book.

---

### Laurie Garrison says

Just what I needed to read on the fourth of July an excellent short story about a sexy alpha werewolf. This

---

short erotic ebook, is hot and spicy with a bit of scary thrown into the mix. I don't want to give out too much of this short story, but I have to say, Karen learns quick when a werewolf says don't run you better not unless your prepared for the consequences (it makes for some sizzling hot sex up against a brick wall though;).

few spoilers

At a pre-Halloween party Karen feels like someone is watching her. She has been having dreams of this sexy, dominant and very possessive man with green eyes that insists on her obedience. She wants to leave the party. When she gets up she hears someone say "excuse me" she finds this drop dead gorgeous man wanting to dance. While dancing she notices he doesn't have on a costume, when she ask where it is. He says "I have my own built-in, I can use whenever I want".

Anthony knows Karen is his mate. He learns after her ex she swore off men, so he just watched her from afar until the right moment to claim her. On this night he has to step in to save his mate.

---

### **N.L. Riviezzo says**

While I wish this story had been longer, I enjoyed this different take on werewolves. I thought the world and the characters were surprising well developed given the shortness of the story. I think they would be even better if it had been longer. Looking forward to reading Lycan Lust.

---

### **Scubasubiker says**

Wow. I will Definately read more by S.K. Yule. She can really write true unconditional love. This was a short story about a lycan who finally finds his mate in a human woman. Not an original concept , but what was, was how much care he took not to scare her and let her come to terms with everything in her own time. It wasn't your typical He-man "your mine, I can't control myself" wearwolf story. Not that I mind that of course....I do like my girls to get ravished! But it was a nice refreshing change of pace from the typical werewolf's mate tale.

---

### **Rachel says**

This is a short story about a human woman named Karen who's unlucky in love and whose been dreaming of green eyed passionate lover for months, after her friends talk her into donning an costume and joining them at a Halloween party, she will either come face to face with her dream lover, or will be faced with the worst nightmare of her life.

This story-line had potential but I felt that the writing was choppy and the events taking place were slapped together in a rush, the dialogue between the hero and heroine was on the cusp of being trite and the male hero talked more like a teenage girl than any Alpha male I've heard.

While the initial meeting of Karen and her Dream Man Anthony had tinges of heat, for this reader the lack of story flow and choppy dialogue caused any spark to die out at an extremely slow pace.

### **Emoon says**

Awesome! It was enjoyable read, really!

Next book otw.....

---

### **Angel says**

Couldn't get into this book for the life of me. I tried but the story was just to unbelievable. I thought at first I was taking the book to literal but then I realized no its the female charchter who I'm having such a hard time relating to so I couldnt even finish the book, and for those who know me that is saying an awful lot

---

### **Tamara says**

Lycan Lover was a little too "instant love"- man (wolf) + woman + danger = love. I like more of a plot leading up to a couple getting together. In Lycan Lover Anthony meets her face to face for the first time at a party, leave her alone (but follows her home) and end up screwing her against the wall in an alley half-way home. Jeese man, have a little class!

Then wham, bam, she is turning and they are forever lovers.

The sex was hot, but I wanted more story.

---

### **Icy says**

This book started out amazing, funny even and then "I love you" was said and the end. Just like that. I know this was supposed to be a short story but there was nothing to this at all. I was on the verge of really getting into this story and it ended. You don't know who either of the characters are or really what's happening or going to happen, then nothing happens and it ends.

---

### **Aimie says**

This short story was an enjoyable read.. I wanted more, but I loved the characters and enjoyed where the story went.

---

### **Dena says**

Wow what can I say. This story grabs your attention because is ladies have a hard time finding that perfect man. Here is Karen spending Halloween in a bar with her girlfriends and here come perfection. Anthony has been waiting a long time for Karen but he bided his time until another Lycan came. I thought this story was

---

very realistic of how we achieve to get our significant others. We always want what we cannot have.

---
