When I first found this book it was by accident and could not believe what I had in my hands. I've seen the live show and the on screen movie version with Donny Osmond, and this is a book based on them.

Where do I start? A really feel the musical coming through and at points was singing it in my head instead of just reading it. I did notice a lot wording that I felt was different than the show but it has been so long that I could be mistaken.

The are is hilarious. There is a lot of blonds and redheads living in Ancient Egypt. I didn't realize that was a colour combo during the reign of the Pharaohs. There is also a real modern sort of twist to the art that really pulled it away from when the story takes place. It made the whole thing feel kinda spoofy.

A good, funny read for fans.

The lyrics to the musical, but unfortunately, no soundtrack CD is included with the book. Still, interesting to read the lyrics and Quentin Blake's cartoon illustrations in watercolor and ink are very good, however anachronistic--Potiphar's wife has a telephone and a magazine; Pharaoh has an electric lamp by his very Western looking bed; Pharaoh dressed in a western style suit, etc.

I love this musical, so it was great to find an easy piano book with the songs from the musical. I enjoyed playing them all. However, my complaint would be that some of the songs were truncated too much. I wish they would have allowed the full song.

This is quite a sweet little book. Tim Rice and Andrew Lloyd Webber takes the songs from the music, pares them down a bit and uses them to create a simple, amusing narrative to read. As a big reader of Roald Dahl's books when I was younger, the instantly recognisable artwork of Quentin Blake is fantastic, although they make me think this was first published when Jason Donovan was Joseph on the stage as the character in the book does bare an uncanny resemblance to the Aussie singer! This didn't take long to read, but was enjoyable and brought a smile to my face - lovely.

It's hard to present a truthful opinion of this work because it has been so overdone normally when I hear a Joseph song come on I just groan. But approaching the songs as if hearing them for the first time, they are really good. The harmonies are beautiful, there are songs from a huge variety of genres and the story itself is strong and pretty faithful to the bible story. The songs in the book are presented in a simplified manner making them accessible to piano players of varying ability. On the whole it's a very nice musical with some great hits and even hearing it for the 168th time still doesn't quite remove all the charm when you heard it the first time.

Who wouldn't love an Andrew Lloyd Webber / Quentin Blake collab? Perfect pairing; includes the complete libretto.

This story recollects the well-known tale of Joseph, son of Jacob, who was forced into slavery by his brothers but ended up becoming an important member of the Pharaoh's royal household. There is also a modern twist - Joseph's multicoloured coat and the flamboyant clothing worn by the rich and powerful. It is an inspiring story that values hope and ambition amidst the harsh realities of life.

The book is about 40 pages long. The complexity and length of the story, in addition to the RE element to it, would best suit Year 4 or Year 5.

The illustrations are by Quentin Blake, who is well-known for his work on Roald Dahl's books.

After reading this, my son wanted to watch the musical while following along in the book. We also loved the illustrations. Reminded us of our Roald Dahl phase.

I could not find the original book on goodreads.com, so I will be writing this review about the book, Joseph

and His Coat of Many Colors. This book was fantastic! I love how the author creates beautiful stories just based on bible tales! The most shocking part of this book was when his brothers threw him into the pit and tore up his coat. They drenched it in a goat's blood and pretended that Joseph had been killed. But that is not the worst part. Once they threw him into the pit, they sold him as a slave! Nothing could make me do something like that to my own sibling.

Suitable for just about any age, and very fun to perform. I first did so when I was all of 7 as a narrator, and Joseph has been a (sometimes rather guilty) love of mine ever since.
