"Tied down? Forget it. Tied up? Bring it on. "

"Celestial Soul-Mates, Book 3"

The three words that make Crystal shudder? Happily ever after. Love em and leave em smiling, that s her style.

Her dream vacation didn t include getting kidnapped by aliens, but then again, her personal abductor is six-plus feet of masculinity who responds to her come-hither look with an I m-coming glitter in his eye. Except there s something different about him other than the fact he s not of her world. He s so eager to please it s almost unnerving.

Weeks of studying Crystal from afar has only sharpened Terrian s hunger for the lusciously curved blonde. He is prepared to woo his "tanash ae" gently, but from the first touch, she is living fire in his arms. She seems to have only one tiny flaw. She s better at giving pleasure than receiving it.

No matter, he can fix that.

As sexual intensity builds, so does something Crystal s never faced before. Fear. Fear that she s sliding down a slippery slope from wanting him to needing him. Way too much. And that she must never allow to happen.

Warning: Contains bondage, voyeurism, a little two-girls-on-one-hunk action, a heroine who doesn t mind taking charge, and a sexy hero who intends to win her heart. The author is not responsible for the reader s overwhelming desire to seek out and submit to their own alien abductors. "

Llwells says

Short okay read, nothing mindboggling or fantastic but a good okay kind of time filler story.

Tamara says

interesting take on the alien abduction senerio,full review to come

Ela says

Hmmmmm, good but not as good as the previous 2.

Ellen says

Just a short novella, not brilliant because at least a quarter was just parts from The Commander's Woman and The King and I, from Crystals POV.

But for a quick satisfying read it was okay. Just don't read it off the back of an erotic romance streak.

MT931 says

Skimmed through, repeated parts from the first two books.
