[Siren Allure ManLove: Erotic Alternative Fairy Tale Romance, M/M, shape-shifters, public exhibition, sex in shifted form, HEA]

Some fairy tales don't have actual fairies... And never one that looks part monkey, complete with tail. But that's what a Grogoch is, and their magic is nearly limitless.

Cuidighteach soaks up attention like a sponge. Securing the attention he craves, he trades magic for sex, even though people see him only as what they desire. He might appear as a busty woman or a brawny man, but only someone who loves him will see his true form.

Finbar's down on his luck. He thinks he finally has the chance at a real home after inheriting a small farm from his wicked aunt, but his dreams shatter when he sees the place. Then, a gorgeous man who happens to have a tail offers to help, and Finbar's life starts looking up.

But will Finbar be able to accept the way Cuidighteach lives his life, or will his heart get broken?

This was a very interesting read. I have to say it was very enjoyable and unexpected. Cuidighteach is a type of fairy that makes deals and craves attention which includes sex. To get the affection he so longs for, he uses his magic to help the people of the land. But in the process has fallen into a reality where he believes there will be no one to truly see him and love him. Because of the limits of magic he is seen as what others want to see but no one has been able to see his true form, which only instills his belief of never finding love.

Finbar is a man that has inherited his aunts home and land but the home is barley standing. With nothing to his name but what is standing or rather falling apart in front of him, he is at a loss of what to do. With no money and no resources available to him, he is heart broken. On one of his rounds across the land Cuidi comes across this man in despair and offers him help in exchange for affection. Finbar of course is happy to offer affection but dislikes that he has to make such a deal to be with Cuidi. Of course, Cuidi has never met a man that was so different. Never has anyone truly just wanted to be with him before. Intrigue and the realization that Finbar is seeing Cuidi for what he truly is, but still wants to be with him is something that Cuidi thought would never be possible. Has Cuidi finally found love?

Now, my thoughts. I loved Cuidi, he is so adorable. Finbar on the other hand seemed.... basic. I just didn't see a lot of depth when it came to Finbar. I don't know, I guess I thought with a scenario like this the person to change another's outlook would have more essence, more life. I didn't always understand Finbar's reactions or maybe it was more of a lack of reactions that got to me. Finbar reminded me of a robotic Labrador that went trough the motions of a what is expected of a loving dog without any emotions of his own. Wow, maybe I'm being a little too hard on Finbar. I just wanted more, wished for more. I felt like it was all about Cuidi, which I guess it was. Maybe what I was lacking is the real connection time of Cuidi and Finbar. I would have loved this story far more if time was made in the how and why they fell in love.

This is one instance in which I feel that the book should have been shorter. Not because it was long, but because there was an obvious point in which the story should have ended, where it made you feel satisfied, but it kept going. And what came after only detracted from that feeling. Had it ended where it felt natural I would have given it four stars.
