From Reader Review The Steampunk Megapack: 26 Modern and Classic Steampunk Stories for online ebook

Cat. says

These stories weren't anything to do with steampunk. Weird marketing. But I've now read Lovecraft. After finishing that...I flipped through and realized this was all old-school horror. Pass.

Almustafa Couch says

An interesting exploration of the sub genre of Steampunk which went from theme such as contractualism to technological advance; and all the social consequences of these phenomena. The selection of stories was interesting and showed the flexibility of the subgenre well.

Sarah Jameson says

For the price you can not go wrong with this. Great mix of old and new worth having on my kindle .

John Culshaw says

most of the stories I wouldn't describe as steampunk, but still enjoyable and for the price you can't go wrong

Rain Blackmoore says

[I knew The Boss had to lose -- he had shown he was too arrogant, and wasn't learning from his mistakes.

Joey says

Truly more of a mixed bag of steam punk and old horror than just steam punk. I enjoyed the short stories and kept this on my kindle as a time filler when I finished a book and didn't know what to read next. A great bargain for the money, it exposed me to some new authors, stories I hadn't read from authors I knew and a few classics.
