The Forgotten Ones Crystal Dawn

When Ariel's friends convince her to go out for a ladies night with them, she doesn't realize her whole life is about to change. She meets Blake, a handsome enigmatic man hiding a big secret. That's alright, because she has some secrets of her own she has no intention of sharing. The problems start when the secrets begin to come out and their lives become hopelessly entangled. Their relationship brings Ariel the attention she has hidden from for years and exposes her to an evil she never believed was real.

Will the secrets revealed, tear them apart? Or will they discover a love that will stand the test of time? Will Blake's ex-girlfriend cause him to regret meeting Ariel? Or will the men who chase Ariel, catch her, taking her from him forever?

SHIRL D LLOYD says

Exciting

I liked the story line a lot. Enjoyed the dynamics between all the main characters. Like how they work together to make life better for everyone.

Sandie says

The white wolf is back

A wonderful new twist on werewolves. Legends are long forgotten until the white wolf reappears. She is beautiful and very talented. A book to remember. Thanks Crystal Dawn

Jill says

A page turner

Hard to put down. Slightly different to other werewolf books I have read which made it more enjoyable. More story line than sexual description. I am looking forward to reading the rest of the series. Loved it.

Charlotte Leslie says

The Forgotten Ones

It is a good book but it was a little hard in getting involved in the story. It took a couple of chapters to catch your attention.

Shurnn says

Classic case of "Great Idea killed by Poor Writing"

The plot line had great bones, but the writing was just terrible - the author did not spin a single scene worth mentioning (*I do try to include a few redeeming qualities in reviews for books I do not enjoy*) I'm not even entirely sure that she tried to proof-read the text before publishing...
Names were switched in one particular scene,

Specific words were overused to the point of distraction,
There was way too much superfluous information about construction...

All of this is quite upsetting, because beneath all of this, the author had all of the elements of a nice Paranormal Romance... If she hadn't fumbled all over the place...

Dear Crystal Dawn,

If you should ever have the opportunity to release an updated and fully edited version of this book, please let me know and I will happily re-read and re-evaluate my review. It has promise; please continue writing.

Thank you,

Shurrn

Debra Roth says

Loving the White Wolf

Blake, a black alpha wolf, takes one look at Alexi, a human and falls in love. It turns out that Alexi's ancestors were white wolves. Blake bites Alexi when they make love and she bites him back. The plot is well written, the various characters are interesting, and I plan on purchasing the next in this series.

Frances Law says

A dichotomy.

I remember reading this book some years ago but I feel as though it has been updated. There are so many questions. There are cell phones but not smart phones. There's no connection such as Skype, Messenger or WhatsApp and people don't even call while overseas. Then there's talk of jump drives. Is this an American term for external hard drives or something else.

I must say that Ariel is a woman on steroids! How she does what she does is just about unbelievable! Blake should have the biggest inferiority complex going! On one hand I like it a lot but on the other I keep asking questions. Like Antonio! He never gets mentioned after she gets home! (Please note that I'm trying hard not to give out spoilers! Sometimes that's difficult!)

I think that her sons were really good, or a bit unreal, not to question her more.

Despite the questions I do want to read the next book and recommend it to lovers of paranormal, shifter books.

Tina says

Become a character

This story is amazing! I read tons of were novels, this one had me up all night. The characters are so believable, I want to become one. This is not your average romance, there is action and drama. Did I mention I want to be a character? Can't wait to get my hands on all the series.

Robin Franks says

Great read

Sooo awesome! This book starts the series off with a bang. Getting to know Ariel and Blake along with the pack and Ariel's family really makes you invested in what happens to them. This is a whole new world and makes you very impatient to read the other books in this series. I would recommend this story to any adult interested in sexy shifter stories.

Samantha says

Love this book!

Keba says

This was just...wow...

There was a part that bothered me so much but I kept reading because I just wanted to finish it: "You are a spiteful and stupid woman. She has a lot more than a little money and that's not why they want her. She is also not human anymore, she's one of us and from a lost bloodline,"

I read all of this in a monotonous tone because that was the vibe I was getting so when I got to: "I said. She made me mad and I had said too much." I got mad myself because I wasn't able to pick up that he was angry. I picked up on annoyance and boredom of the conversation but not angry. Usually I can tell what the character is feeling but I really couldn't with much of this book and that took away a lot of enjoyment for me.

The basic idea of the story is good but the writing/delivery was just bad. I finished the book because I want to keep my DNF list as short as possible but this was super close to being on there.

Latte says

This is just a hot mess. Lots of normal, minimal para. Unnecessary POV changes. The pacing is off. Too much detail on the everyday occurrences but not enough about the werewolves. We are hurried thru the pages where the main (?) plot twist of the Forgotten comes into play. What? Why? There's honestly so much rushing thru, you question why it's even the title of the book.

The entire series was found as a Freebie read in the iBooks store.

As a note, I have started the 2nd book in the series to see if any of these issues were resolved but it's pretty much the same thing. Too many characters introduced with not enough detail building the characters, relationships and scenes. The werewolf aspect feels like a contrivance to the storyline instead of being the main focus as you would expect.

It's readable. But readable isn't equating to enjoyable.

Vicki says

Blake saw her in the bar. He asked her out and she agreed to go with him. It was love at first sight. Has lots of world building and character building. Liked it so much I had to know what happened next so I bought all the rest of the series.

Dena Ellis says

Awesome

About a famous author who writes werewolf books who goes out with friends and meets her mate whose a werewolf. She ends up being a white wolf

Diane Werning says

The Forgotten Ones

Wow,if you want a great read about werewolves please read this book.There is so much action you won't want to put it down.This is my second time reading this and I forgot to review it.Now I am getting ready to re-read the second book.
