Irene says

A Sabrina book from my childhood that I actually remember and would even be funny today. Its short- read it for a laugh.

Shannen says

It's been years and years since I've read these books but I'm surprised not only by how much I still enjoy them but how many tidbits of real history and mythology are sprinkled in them. It seems like a lot of them are pretty well written despite rotating authors and a few continuity errors (this is book 19 and it says Mr. Kraft has been dating Hilda on and off for some time; in book 31 (which I read about a week ago) he is dating Zelda)

TheTravelingPanda says

It was a good idea to include Irish folklore into the Sabrina series however I thought it was not very well used. Besides the usual leprechaun story there was nothing else.

Sella Malin says

I used to love this T.V. show, along with the books.. now I don't care for both much anymore.

Undela Uneeb says

awesome book

Lauren says

I loved all of the Sabrina tales full of magic. Every story was a different adventure and some new and exciting challenge to overcome. These books made me want to have magical powers too but the ending results were hilarious.
