**An Interesting Story- BRAB Online Book Club- BRAB Online Book Club**

This is Cecelia" Cece" Graves story. We met her in The Officer's Wife as the mother of Rebecca and Sarah. Her character had endured a brutal childhood, in which she gave birth to twin girls at 13 years old.

What the author has done is take her readers on an emotional journey; in which all the horrors that Cecelia endured, the secrets she kept were revealed. The story explained the pain and why she became so hard and emotionally detached.

The best part was the friendship and love that developed between her and Shane, her daughter's brother-in-law. I truly enjoyed how she developed each character and I was there with all the emotions each character experienced to get to their HEA.

I really like how there was never a boring part in the story. I really liked the way that the depth of the fearfulness of what happened to Cece that you could feel her pain. I feel like a lot of stories dont do a good job of showing the pain and the hurt that that person went through and how much it can effect their life's in the future. But this story did do show all of the pain and the hurt and the effects, and i really liked it.

For me the Officers Wife was very good. The Prostitute's Daughter is epic! Simply put, it is a extremely well crafted story with the twists and turns needed to transcend the genre. Hard to imagine anyone who reads not enjoying this one.

**Wonderful**

So much happens in the story. It grabs your heart and mind. Cece truly shows the mind set and way many abused people react the world and people around them.

This book was a gem to find. It's complex - with a lot of twists and turns (emotionally and plot wise) - but it

---

was so well put together. I like the way the relationship between CeCe and Shane progressed. It was believable and their situation warranted it. There are some hard points to cope with (once you learn the details of CeCe's background it is pretty hard to fathom) but that is the reality that some people live and for me it brought a bit of understanding. I really enjoyed this book.

I really, really enjoyed this story. I wouldn't consider it a romance, but more like a fictional romance with romantic elements. This story had a lot of emotional baggage in the persona of Cece Graves to deal with who happens to be Rebecca's mother from book 1. She was a child born of adversity, literally as her mother was a prostitute and her father was her mother's pimp. She was violated when she was 13 that resulted in a pregnancy. Geez.....if that isn't enough to deal with the drama continued and she couldn't seem to find peace for anything in the world.

Cece meets Norman's brother, Shane and he pursues her with the tenacity of ten men and he was everything a man should be to a woman in such an emotionally precarious situation as Cece has, who has never sought therapy for the things that she has seen in her lifetime. He was supportive and their journey was another hard one with moments of not knowing if they were going to make it due to Cece's inability to move past her trauma. Shane has his own demons to contend with but with Cece by his side, he feels that he can be no less courageous than she seems to be and they strengthen one another.

I can't say what happens in the story as I would ruin it, but at times some of the drama seemed over the top for one person to deal with, and it would have made me give the book four stars because it was still a very good read, I had to bump it back up because it made me catch my breath on a near sob.....twice and if a story can have me emit physical emotion, it deserves five stars because I truly connected with the characters in some way.

Thank you again to Ms. Ruvalcaba for another good story.

This novel was so captivating! I had a hard time putting it down at times. It gets really intense, too, and a bit scary. But overall, it is really a great story. The characters were really developed, and there were moments where I wanted to yell at one of the main characters because she was pretty stubborn in her ways. But eventually, love wins! This novel is an excellent read!

What a wonderful story. Cecelia Graves is a owner of a bakery. She also is a fighter trains with Her best

friend Karen who is a MMA fighter. She's also a fighter in heart.

The story is a stand alone but it should be read after The Officers Wife is the story of Rebecca, Cecelia's daughter. Rebecca works hard to become a Therapist for young children. Rebecca tries so hard to please her mom and wants a close relationship with her mom. Rebecca opens a fundraiser for women and abuse named after CeCe.

But in the prostitute daughter, it takes you back to Cecelia's childhood in Atlanta. At six years old, she sees her mom being abuse by her pimp. She was sent to foster care to foster care. From foster care she only had one friend Dot. Cecilia knew there was a better way. She finally had a good foster parent and they tried to help her. They took her to karate because she was always getting into fights. She was going to be adopted until she see her moms pimp came back.

I don't want to spoiler the story but the story keeps you going. Cecilia is a fighter, she lived a horrible life with struggling. She didn't know any better but she was afraid to trust anyone especially men. She was raped at 13 and pregnant. By the time she found out it was too late and she knew there was no other way she was going to live is to escape and runaway. She got on the bus to Tennessee. She stood in a shelter and starting working at the bakery for Ms. lee.

It's a long story. Of course, There is romance. She tries to get close with her daughter Rebecca and her husband Norman. She meets Normans older brother Shane a firefighter. Shane is tall handsome and Cecilia was attracted to him but afraid.

This story is one of its kind. A dark side but also Cecelia can do anything. I loved it, a definite a must read. I'm hoping there's a book three continuing with Karen and Brent.
