Eva Sees a Ghost

Rebecca Elliott

Eva Sees a Ghost Rebecca Elliott

Is there a ghost in Treetopolis? Eva sure thinks so!

This series is part of Scholastic's early chapter book line called Branches, which is aimed at newly independent readers. With easy-to-read text, high-interest content, fast-paced plots, and illustrations on every page, these books will boost reading confidence and stamina. Branches books help readers grow!

In this second book in the series, Eva sees a ghost! Or at least, she thinks she does . . . With her friend Lucy by her side, Eva goes in search of the ghost. Eek! This owl-dorable series will appeal to girls who love stories about animals and friendship!

Pinky says

These are so cute!!!! Eva sees a ghost and no one believes her. Her entire class bands together after they, too, see the ghost and a surprising mystery is unveiled. The Branches series is PERFECT for 1-2 grade readers.

Piper says

I really love this series! I want to read them all!

AlysonK says

The book was about an owl named Eva who thought she saw a ghost. I liked going on Eva's adventure with her to see if her ghost was real. Eva is much braver than me. If I saw a ghost, I would be freaking out and running away. Eva wanted to catch the ghost and see if it was real!

Annelise Herfindahl says

I liked the surprise ending.

Nadina says

I love how adorable these books are. They don't take too long and the story is not dragged out. They are short and simple and funny. The artwork is good too.

I really enjoyed the mystery of the ghosts in this story and how eventually everyone worked together to solve the mystery.

I am not sure about Eva's classification of Sue being mean because Sue has helped Eva in both books so far.

I think for kids the first chapter is definitely useful, a review of the main character, and it also means you can read the books in any order.

A definite recommend book.

Dana says

I brought this home for my daughter and then ended up sitting down and reading it. Very cute and I'm glad because I recommend these all the time to 1st-2nd grade girls that are looking for beginner chapter books. Great first step into reading option. I love these Branches series.

Lana Jackson says

I don't like the title. Eva saw a quick flash of a white owl flying fast and doesn't really know what she saw.

Written in Diary form, Rebecca Elliott does an excellent job telling the story of Eva's daily activities with friends and what she likes and doesn't like.

Color illustrations are beautiful and expressive.

zapkode says

{My thoughts} – This book started out like the first telling all about Eva. The things she likes and dislikes and where she lives. It's always nice when the author takes the time to help remind readers of previous world building in previous books.

In this book Eva claims she's seeing a ghost after her teacher had told the class a scary story. She goes out to hunt the ghost, but had problems proving that it's real. She tries to take a picture but is so scared that the picture ends up blurry.

Eventually one night at school her class here's a loud sound on the roof. They then look out the window and come to the conclusion that the ghosts are real. She manages to get her whole class to go on a ghost hunt with her.

I like how this book takes something scary for many children and helps to show them that things aren't always as they may first appear. Eva thought she'd been seeing ghost but really it was just more owls like her. She learned that sometimes your mind and brain can play tricks on you, but it's always a good idea to keep an open mind to other interpretations.

I really like this book series. The illustrations are colorful, it's simple to read and is written in a childlike diary formation. I think any child that wants to read will easily fall in love with these books.

Ariel Cummins says

Really love this series! They are so cute, and I think they will have definite appeal to kids transitioning from beginner books to chapters. The full color art is nice, and I appreciate that Eva is a nice kid - I feel like there has been a mini-trend in kids lit to main characters who are kind of a pill.

Kelly says

The more I read of the Owl Diaries books, the more Eva the Owlet grows on me. I'm beginning to thoroughly enjoy her "voice" throughout the story, as well as the lists she makes at the start of every book. I still sometimes think the moral is a little too "on the nose" and too sweet but I think that's just the type of owl

that Eva is.

Holly Letson says

3.5*

A cute story of feeling like nobody believes you that ends in making a new friend. Quite enjoyable.

Nina says

I like this book because Eva tells what she loves and what she does not love

Vernon Area Public Library KIDS says

Color illustrations, diary-style lines, repetition, and a mystery to be solved will be perfect motivation for kids transitioning out of early readers as they gain confidence reading this easy chapter book.

Dawn says

I think I'm just cranky, but this wasn't as cute as I was hoping for. Some fun details about owls are included, but mostly it's just random drama. The illustrations are adorable, but I don't get why the owls wear shoes and hats, and I don't like that the "boy owls" all have backpacks and the "girl owls" all have purses. Also it's diary style, but then the pictures are more elaborate instead of little doodles. Lastly, having the loud thumps in the school could be a little upsetting with lockdown drills and such being common in elementary schools nowadays.

I can see why these are popular and why kids like them. I would still recommend them, because the issues I have with the books are likely not shared by their target audience.

Engel Dreizehn says

For an easy-chap read, I was very surprised by the sophisticated and creative approach of using the diary/scrapbook type narrative. The illustration reminds me of colourful arts and crafts which would interest a young reader. Big name my pick if ask "what is a good choice for early readers?"
