## **Dragos Goes to Washington** Thea Harrison

Dragos Cuelebre, Lord of the Wyr, needs to throw a party without maiming anyone. That isn't exactly as easy as it might sound.

After the destructive events of the last eighteen months, the Elder Races are heading to Washington D.C. to foster peace with humankind. Not known for his diplomacy skills, Dragos must rely on his mate Pia to help navigate a battlefield of words and polite smiles rather than claws. With Dragos's mating instinct riding close to the surface, his temper is more volatile than ever and the threat of violence hovers in the air.

Then the human spouse of a prominent politician winds up murdered and Dragos and Pia must race against time to hunt down those behind it before they are held responsible for the crime. (40,000 words; 174 pages)

For fans of DRAGON BOUND and LORD'S FALL, the latest novella in the Elder Races holds passion, peril, political intrigue, and revelations that will change Dragos and Pia's lives forever.

DRAGOS GOES TO WASHINGTON is the first part of a three-story series about Dragos, Pia, and their son Liam. Each story stands alone, but fans might want to read all three in order as they will be released: DRAGOS GOES TO WASHINGTON, PIA DOES HOLLYWOOD, and LIAM TAKES MANHATTAN.

## From Reader Review Dragos Goes to Washington for online ebook

### AH says

About 3.5 stars, rounded up to 4.

Oh, Dragos, you sexy thing....

**Dragos Goes to Washington** is definitely for people who just can't get enough of Dragos and Pia. It's hot and steamy with lots of *pow* (you need to read the book for that one). Dragos is the Ultimate Alpha Male, especially when he is in a mating frenzy. Of course there is that pesky trip to Washington, where the Elder Races are supposed to do a little face time with the humans.

One of the nice things about this book is that we get to see Liam for a short time. I also loved Pia and Dragos together. While Dragos is a little too possessive for my tastes, I can see the appeal.

There are 3 short novellas planned for the next few months. They are **Dragos Goes to Washington, Pia Does Hollywood**, and **Liam Takes Manhattan**. I felt that this book could be read on its own just to get a taste for the author's writing style. Of course, the series is best enjoyed when read in order.

*Thank you to NetGalley and the publisher for a review copy of this book.*

### Melindeeloo says

Dragos has no use for human politics, and when you are a Dragon it's hard not to just eat your pesky rivals to shut them up, but recent events are stirring up tensions between human and Wyr, so Dragos and Pia head to Washington D.C. to try to smooth things over.

This was a decent little short story with not enough Liam, but plenty of Dragos and Pia and plenty of sexy times - twice mated but the mating heat is still going strong with these two. There is a mystery and half, and a just enough set up to open things up for the next short, Pia Does Hollywood.

No empezó muy diferente de las otras, y tiene sus momentos simpáticos,

*"You diddle here, I suck there. Or maybe you suck, and I diddle. Or both. Couple of pats, and ten or fifteen thrusts. 'Oh baby, you're so good, I can't take it,' \*pow\*, et cetera, 'let's go raid the fridge.'"*

*"Ten or \*fifteen\* thrusts?"*

*"Well, you know, I never really counted them up. I'm usually too preoccupied with my own pow to keep track of what you're up to."*

*"Your pow," he growled. "I think you're mistaken."*

*"About what?"*

*"That's \*pows\*. Plural," he told her. "You're too preoccupied with your multiple pows to keep track of*

*what I'm doing.*

... pero después cuando te encuentras saltando de largo las páginas de sexo, sabes que la cosa anda mal.

Y es como si a este tipo le pusieras un switch en el cerebro reptiloide después que ella comenta que desea tener otro bebé, y entra a nivel cavernícola. Y niquiera deja que alguien la ayude a bajar del auto y le molesta que los otros hombres se le acerquen. O sea eso de mega-macho-estoy-en-celo aléjense-de-mi-hembra no funciona. No señor, eso es de sicopatas-mega-controladores-peguenle-un-tiro-en-las-bolas-hagan-el-favor.

**¿Qué fue de esa Pia que se probó literalmente mano a mano en combate con todos los centinelas del demesne?** Desapareció del mapa.

La mujer siente náuseas, tiene urticaria ¿e igual esta dispuesta a tener sexo con su media-naranja? Ug. No-no-no. Eso no es nada de sexy.

Y cuando él le dice que se asustó cuando ella se desmayó, ella empieza a disculparse como consolándolo. What's wrong with you, woman? ¡Estabas enferma!

Y tal como se mencionara en otro comentario, esto se vuelve demasiado repetitivo (cof otro autor más estrujando al máximo sus libros cof)

I had not read any of the Elder Races books/novellas in some time that I liked as well as I enjoyed this one. There was mystery, sex, politics, sex, a bit of history, some small bit of tragedy and did I mention sex?.

Honestly, while I have rounded this off to a 5 Star novella it did seem to have a bit more sex than is useful for a short work like this but there was a bit of a reason for some of it and at worst I subtract half a star and it still comes back to 5 Star reading.

The worst thing about trying to write a review for a short story or novella is that you cannot say too much or you spoil the story very easily and this is true here but while this story is pretty much complete is actually the first part of a trilogy of novellas (Dragos Goes to Washington, Pia Does Hollywood, and Liam Takes

Manhattan) that will be released by years end.

So just to pique your interest a bit, murder, illness, politics, enemies all around, a bit of Sherlock Holmes and you really can't go wrong with this novella. I highly recommend you get your hands on it quick before some club footed reviewer spoils a great story (and some idiot will!).

### **Dragos and his family - STORY 4**

And honestly...every time I look at this bookcover, I want to lick it...

Besides this unquestionable fact, this book is a very nice new adventure for the Cuelebre family. Dragos as the boss of all the Elder Races goes to Washington with Pia in order to make friends with the humans. And he runs out of patience.

She crooned in his head. "Honey, I'm so proud of you for not killing anybody."  
His gaze flashed to hers, and that flat, assessing expression vanished as he laughed. Squeezing her fingers, he told her, "Week's not over yet."

There is a murder, a mystery and things will become very complicated. Who are the bad guys?

Moreover Dragos and Pia are in love and all over each other and this is always good!

He said against her fragile, pedal soft skin, "You know how this goes, don't you?"  
"In a general sort of way," she whispered unsteadily. She ran her hands up his arms and dug her fingers into his shoulders. "You diddle here, I suck there. Or maybe you suck, and I diddle. Or both. Couple of pats, and ten or fifteen thrusts. 'Oh baby, your so good, I can't take it,' pow, et cetera, 'let's go raid the fridge.'  
He felt his lips pull into a grin, and he made himself stop. Forcing some bite into his voice, he repeated, "Ten or fifteen thrusts?"  
Her body shook as she started to giggle. "Well, you know, I never really counted them. I'm usually too preoccupied with my own pow to keep track of what you're up to."

4.5 stars!

Dragos has to attend a summit in Washington involving the leaders of the Elder Races and the leaders of the United States in order to foster peace with humankind after the last 2 years of violence and unrest.

Dragos has to be diplomatic and *try* not to kill or eat anyone while attending the meetings or parties.

And on top of everything else, Pia and Dragos have to decided to try and have another baby. They're in the middle of the mating frenzy, which makes Dragos even more possessive, aggressive and dominate when around Pia.

This was a fun, fast read and a wonderful installment to the Elder Races series.

### **Ferdy says**

Meh, the story seemed to get lost in all the pointless sex scenes between Pia/Dragos, their over the top descriptions of each other and them constantly mentioning how horny and in love they were didn't help matters.

### **Beth says**

Dragos and the rest of the Wyr leaders have decided to face the rising tension between the humans and Wyr kind by meeting with the human political leaders in Washington DC. It is quickly discovered that many humans are using the discord between Wyr and human kind to enhance their political aspiration. When a political figure is found murdered, in the Dragos home, during a cocktail party, he must pull out his centuries of cunning to keep a bad situation from turning worse.

I Love, Love, Love the Elder Races series. *Dragos Goes to Washington* is a novella that focuses on my core base of favorites from this series, ie Dragos and Pia. That being said, Thea Harrison had me from the start but she then proceeded to provide a wonderfully told story that captured me immediately and held me till the end. Quick, easy and very entertaining!

I received this ARC copy of *Dragos Goes to Washington* from Teddy Harrison LLC in exchange for a honest review. This book is set for publication October 12, 2015.

## **Marta Cox says**

I love these stories about the Elder Races and without a doubt Dragos and Pia are my favourite couple .Its with heartfelt pleasure that I pick up these novellas that showcase their family life and allow the reader to glimpse just how entwined this couple really are. In such a short time they have truly been through the mill. They have mated, had a child ( the adorable Liam ) and faced death which resulted in a second mating! Yet there's still more turmoil to face and in this story we see them heading off to Washington to entertain the President no less but with enemies in high places it's about to be a very turbulent trip indeed!

Oo it's short so I can't say too much lest I ruin it for other readers. What can I say? Ok it's very much a story about the relationship this couple share and shows just how consumed they are by each other and the passion that drives them. They are not human remember so expect sex scenes that are raw and wild and yet I never doubt that tenderness exists between them. Fear not there's a very interesting story here that ramps up the tension between not only the various Elder Races but also the humans which frankly outnumber the more magical creatures. So expect not just romance but a real continuation of a journey that is still far from over. This is the first of three novellas and the second will be Pia Goes to Hollywood, closely followed by Liam Takes Manhatten . This may be a quick read but it's sexy, very entertaining with just enough suspense to have the reader guessing and of course imaginative. This couple are many things but dull just isn't one of them!

I was gifted a copy in exchange for an honest review

## **Kathleen says**

I've read everything with Dragos, Pia, and The Peanut. This novella (129 pages) was weak. In fact, I'm growing tired of established authors taking the easy road, writing filler-fan-fic from a popular series. Maybe that's why my favorite novella in this line isn't even a romance: Peanut Goes to School.

The supposedly "sexy" dialogue in this book made me cringe. The murder mystery in Washington DC was somewhat intriguing, but it was resolved too quickly. The cause of the rash was obvious to me from the first (predictable). The story doesn't end on a cliffhanger, but it does leave various political issues unresolved, especially involving Tatiana, Queen of the Light Fae. This plot line is presumably to be continued in the upcoming two novellas.

There's a lot of sex, but it felt flat and boring. There was no emotional build-up, no sizzling chemistry. Just sex and more sex, beginning in the first chapter, with awful dialogue about sex. The sex scenes in Dragon Bound felt much more original and authentic.

For me, it's not worth the money, overpriced at \$3.99. If each of the three linked novellas cost that much, the entire "book" would cost \$12.00.

Dragos Goes to Washington is a novella and the #8,5 and the 1st part of a three-story Trilogy about Dragos, Pia, and their son Liam aka Peanut...well, he now goes by Liam...growing up, he is!!!

This quick read sees the Elder Races going to Washington to promote and encourage peace with humankind.

We watch as Dragos and Pia steer around political intrigue, murder, danger.....and how they race against time to finding the bad guys before things get out of control for both sides.

Another great addition to this amazing Series. The Elder Races by Thea Harrison has definitely become one of my favourite pnr series. The world she has created just keeps getting better and better.

This Trilogy continues with Pia Does Hollywood, and Liam Takes Manhattan.

Can't wait!!

**Trouble...**there's been a lot of it in the Elder Races lately and that has been causing strife with the humans, prompting them to protest and possibly more. Dragos and Pia head off to Washington with the rest of the demesne leaders to meet with the human leaders to come up with a solution.

OMG...this is one of my favorite paranormal couples hands down! I just love Dragos and Pia and how they are together. T.H. can keep dishing out these novellas and I will be one happy camper! And I was even happier hearing what Pia and Dragos wanted to do but *really*...they could've had better timing.

And on top of everything, if you read the blurb, you know there's a murder. It adds a nice bit of drama to the story but in all honesty, I would have been happy with just what was happening with Pia and Dragos.

Events are set up for the next novella, *Pia Does Hollywood*, coming out November 17, 2015 and that finally leads to another Liam novella, *Liam Takes Manhattan*, coming out December 22, 2015. Merry Christmas to us! ;)
