Molly says

The end of a great series. I think I liked this trio of books even better than the first two sets. We get more of snarky Kelsey, one of my favorites from this series. Sami is hilarious, the perfect embarrassed teen.

Linda Park says

A great finish

Adored all of these Covenant books and the grand finale doesn't disappoint. The College must be dealt with and Brittany is back!

Tawnya L. Stone says

Loved this entire series

From Covenant College to Living Covenant and then Dying Covenant I loved them all. If you love magic these are must reads.
