Chosen by Fate Jacelyn Rye

Chosen. By its very essence, the word chosen is one of finality. What you've chosen becomes your destiny. Unless, by chance, fate has chosen otherwise. But choice is a double edged sword, as Will and Sarah find out when it cuts their lives into ever more hard to assemble pieces.

What was the point of hoping, planning, dreaming? What was the point of loving? It could all be taken, and for Will, it had been. Helplessly bound by his obligations, he watches the love of his life drifting slowly, irretrievably away. How can keeping his promise to Sarah, and keeping his vow to do anything to protect his family come to this? How can such love summon such pain?

As fate would have it, Sarah is asking herself that very same question. As she struggles to escape the ether ties of amnesia, she gropes the dark corners of her heart, trying to grasp something solid, something to hold. But life is forcing Sarah to seek the very answers she fears most. Can there be something even more powerful than love? Putting a thousand-piece puzzle together through her dark days of forgetfulness, Sarah slowly snaps one faintly matched memory into place after another, as a familiar picture slowly begins to emerge from the foggy past. And the more her memories creep back in, bringing with them a desire smoldering just beneath the surface of her shattered life, she begins to realize the question that has taunted her for so long, is upon her again. Will, or Adley?

Both Will and Sarah share their hopeless closeness as their choices lead them ever further apart. What they've chosen for themselves involves others, and promises made have overgrown the road behind them. If there is no going back, the only way forward is straight through the gates of fate.

As they enter, deep family secrets explode from the shadows of their pasts, secrets that cut so deeply, no one will ever be the same, no one will ever forget, and ever-lurking death will snatch its due. Neither Will nor Sarah ever had a chance to choose. Fate had chosen their path long ago. And now, fate has brought them to their final destination. Will they choose to accept it? Do they even have a choice?

“You’re going to be mine. Forever.”

“Do you promise?” She whispered.

He nodded as he leaned down to her mouth. “I promise.”

Heartfelt. Beautiful. Perfect.

#HEA Readers, you HAVE to buy this book. Have to. I will start right off with THAT. Ohmygosh. So much emotion!!! Chosen by Fate was an exquisitely written story about TRUE love finding its way.....about soulmates fighting to be together for once and for all. This entire series got deep into my heart to the point where I KNOW I will never forget these characters or their story. Jacelyn Rye nailed it!

If you haven’t read the first two books in this series, STOP READING HERE. **All three books must be read in order**, so again, **STOP reading here**.

STOP.

STOP.

“Fate would make sure it got its way one way or another.”

After THAT ending in book two, Shattered by Fate, I could NOT get my hands on this book fast enough. I’ve ALWAYS been #TeamWill, but dammit, Adley sure made it DAMN HARD to not love him as well. So again, THAT ending left me gasping, desperately wanting to know what the heck would happen next!!

Amazingly enough, this third book started right where book two ended, and as soon as I started reading, ALL the emotions I felt when reading Shattered by Fate came crashing upon me once again. I was back in that heart-stopping scene. Brilliant.

“Will or Adley? Now, the question was upon her again.”

Not leaving Colorado meant a lot of things for Sarah – whether she realized it or not – and by being in there, Fate played her game exceptionally well. We saw Sarah go back and forth in her head trying to remember what her life had once been. We saw her heartbroken more than a few times trying to analyze every emotion, every flashback, and every step she took. She was desperately trying to figure everything out; trying to make sense of all the heartache she’d been dealt. And trust me, it was A LOT. Hell, I was emotionally confused!

Thing is, Jacelyn Rye’s writing style is so amazingly fantastic that it evoked ALL types of emotions from me. My heart ached, raced, and broke for Sarah and her situation. I was anxious, nervous, LIVID (ahem, Margaret), and at times, down-right giddy and elated. I was in one hell of an emotional roller coaster and I loved every minute of it.

“What couldn’t be disputed was that her heart had come to depend on him so greatly, that Sarah half wondered if it would stop beating if she didn’t go to him and fast.”

Now, I'm keeping this review **spoiler free**, so I won't go into any of the juicy details, but just imagine having to deal with everything Sarah had gone through and on top of it all, trying to answer the most important question of all.....

Will or Adley?

This book had me seriously HOOKED. For the life of me, I could NOT stop reading. Yep. It's THAT good. It was captivating, emotional, BEAUTIFUL, profound.....sigh. I can keep going all day saying how good this book was, but you really need to read it and find out for yourself. Jacelyn Rye is the queen of Historical Romance and I applaud her for this PHENOMENAL series. **FIVE BRILLIANT STARS!**

This was the perfect series ending book.

Christine Bowden says

Wow.....just wow! Brilliant!!!

I don't really know how to put into words how I'm feeling after reading this book. I'm tired because I read the whole series in about a day and a half lol. It was so good that I could not stop. There was a building anticipation throughout and I couldn't guess how everything would turn out and I loved that. There were so many twists and turns. This is an absolutely fantastic read.

Megan Crisp says

It was chosen by fate..

Wow!! just WOW!!! I've surrendered to fate and was shattered by fate, and when the stars were aligned someone was chosen by fate.. who was it? well you will have to read it to find out..

through tragedies and heartbreak, lies and deceit.....

there is only fate that gets a say in what happens.

these books have invaded my heart and soul and will forever be apart of me, when fate throws challenges your way do you give into fates choices or do you fight it? For Will and Sara fate has always been the pebble in their shoe, or fork in the road, whether it be through love and loss or evil manipulating calculating people fate had chosen their path long ago, they had surrendered to it and were shattered by it.. And only now realize who fate made the chosen one?

Grab your tissues and grit your teeth..and amazing story of fate is about to play out for you :) and on a personal note to Jacelyn thank you for these stories that have embedded themself into my heart and soul, I will be forever grateful for being able to read what's been your heart :) I do hope you continue to write about these characters, I'm not ready to say goodbye to my friends of fate..

Me Ware Wo....

FUCK I'm an emotional wreck. BUY THIS BOOK!!!!

Jacelyn gets a massive 6/5 stars for this one! She is a superstar in the writing world... she rocks my world! Her writing style, her passion for writing and the way she portrays the characters get right into the deep of your heart and mind that you are sat right beside her while she is writing you can see the picture playing out in front of your eyes. You hurt when they hurt, you break when they break and you smile when they smile. I've never had a such a deep connection with more than one character at a time before, normally in a book I'm really passionate about the main character I will connect with but in this series I connected with all bloody three of them. My head was bloody busy.

Only once has a book given me goosebumps and now Chosen by fate did the same. Goosebumps is a sure sign of a good book!

There will be many different reviews from different readers when the ending is read. #TeamAdley, #TeamWill & #TeamNeutral. One team will be hurt. I in the end was #TeamNeutral as whoever Sarah choose someone was getting their heart broken and someone was walking away with a girl who doesnt know her own mind. Both guys deserved happiness. They both loved her with all they had, but both in very different ways.

Enough of a blabbering. Just remember I LOVED THIS BOOK!!!!

This book is unbelievably AMAZING! As I read I was continuously struck by how Jacelyn was able to evoke such emotion into her writing. Her words are utter brilliance and left me with many thoughts to process. I have loved this series since chapter one of book one, and have enjoyed following these characters with every page. Yes, there have been times I have wanted to throw my e-reader and bop a few people on the head, but I wouldn't change a thing about this journey on Fate's path. I was heartbroken at times and shocked at times, completely floored as to some of the things that came out of their mouths, but it was all perfect. Jacelyn has created a book from her soul and simply shared it with all of us, praying that we would embrace it as she has. My soul has certainly been on a ride and beat faster with each loving moment or crazy train wreck she has written. I definitely had fun bouncing back and forth between TeamAdley and TeamWill, and feel Jacelyn has truly done these characters justice with her beautiful story. Many heartfelt lines will stay with me always, to rest in my heart with the lovers they surround. Please read this series, and with each page absorb the love and heartache that went into it. Knowing that you will never find a more perfect story than this one right here.

Fantastic

I loved this book so much after I read book one, that I had to purchase book two and three. I was biting my nails one minute and cheering the next. I need a book four to find out what happened to the other lead characters.

Sabrina Devonshire says

I didn't think I could possibly like this book better than the first two, but Chosen was quite impossible to put down. I just had to know what happened. As a nature lover, I found the complex nature metaphors very beautiful and touching and they brought me deeper into the hearts of the characters. Once again, the descriptions and uses of metaphors felt very fresh. The twists and turns in this book bring all of your emotions close to the surface so keep the tissue handy. I really think this series deserves an award - it's my all-time favorite! I feel a little sad that the series ended because the author brought me in so close to these characters, they almost feel like family :)

Cassie says

My heart smiled at the end of this book. I loved the twist and turns and how the perfect amount of suspense

kept me on my toes. I laughed, I cried, I frowned, I smiled, but I also hoped for these characters. It is good to see that hope and fate are not lost after so much heartache.

Kimerin's Confessions of a Bibliophile says

I refuse to accept that Chosen by Fate is the last novel in the Fate's Path series! Just no. I need to now what happens after you know..Oh and Matty certainly has a story to tell! Wink, wink, Jacelyn! If I don't learn about his story we can no longer be friends!

Okay, so on to the story. Chosen by Fate is the novel we have all been waiting for! The question that has been haunting us all will finally be answered! Did Sarah choose Will or Adley? I myself am thrilled with the outcome, but my heart cannot rejoice until I know that the other gets what he deserves; a HEA! I loved both men, but one was able to embed himself deeper in my heart. I feel that Jacelyn diffused the love triangle perfectly. I especially loved when Sarah would remember part of her past. What a journey each character has gone through to get where they are now! I found myself feeling sympathy for each character except the red headed witch! One thing I learned is that everyone will eventually get what they deserve! I couldn't have concluded this journey any better than Jacelyn did and it was beautiful! I highly recommend this series to anyone!!

Tracey Quintin says

What a true gift this series was. It has my complete heart like no other. I held off reading when it was first released because I KNEW it would be very emotional for me...I was right!

A remarkable journey with so many twists and turns that you can't help but be on this emotional journey with the characters and truly feel what they feel. You are IN the story with them every step of the way. You feel what they feel and you can totally imagine being in every setting within the story. These characters and places are real to me and forever etched in my heart.

Jacelyn Rye is absolutely amazing with her writing and totally captivates you with her stories. Never has my heart been so wrapped up in a series before like it is with this series.

This book wraps up the story absolutely beautifully yet leaves the door open to delve into other characters lives. I hope Jacelyn does just that because I'm not ready for this series to end.

Bravo Jacelyn on making me fall so completely in love with a series. You truly are a gift to this reader!

I very highly recommend reading this series. Trust me when I say you'll fall in love!

This trilogy is a MUST READ for the summer! The plot twists just keep coming and the outcome of the story is unknown till the very last chapters of the last book. By the time I was about to finish the third book, I didn't trust that fate wasn't gonna throw yet another wrench into the storyline till the last word was read and I closed the book. Wow! Absolutely cannot wait to see if Ms. Rye writes more stories with these characters in

them. I'd love to sink my teeth into a book about Margaret. Maybe how she got to be such a conniving witch and then about the path her life takes (after this trilogy ends). I can't help it. I want so much more of this story!!!!

Charidy says

Chosen by Fate is the final book in this trilogy.

This book, as well as, the entire trilogy will keep you glued to it. You will lose sleep, you will dream about the characters when you try to sleep. At least I did.

I will try to give this a review without being a spoiler, but also do it justice.

The Author Jacelyn Rye, crafted a tale about a time in the 1940s, where mannerisms are quite a bit different, but you are instantly transported there with ease. Her attention to details, descriptions and character development will leave you wanting for very little. But that does NOT mean it was boring or a simple read. If you read the other two, you know that Sarah and Will are trying to help Sarah find her memories that she lost during a tragic accident where she lost both her parents. Also, while maintaining two engagements. This particular book you find yourself absolutely seething with disgust about certain characters, crying for what Sarah is enduring and rooting for them all to find the happiness that has been so elusive.

At times I felt myself choked with tears and other times wanting to reach into my Kindle and strangle the troublemakers.

Jacelyn also writes with such attention to detail without boring the reader, I could close my eyes and picture everything from the Creeks to the plains, to smelling the hay and Sarah's Mother's biscuits.

I would like to thank this author for writing a story that was worth every amount of lost sleep I had.... and even the dreams I had, due to falling asleep with my Kindle.

I could go on, but I do not want to be a spoiler... what I can say is BUY THIS BOOK!! You will NOT regret it. As a whole I could see this rivaling Pride & Prejudice.
