## From Reader Review Wrecked for online ebook

### Siobhan Davis says

A fantastic friends to lovers romance full to the brim with love, laughter, angst, pain, longing, and heartfelt emotions.

Cole has shut himself off to all those closest to him in the aftermath of a tragedy. Blaming himself for the death of his partner, he believes he deserves to suffer and disregards all the plans he had made for his future. His biggest goal had been to return to his hometown and win the hand of the girl he has always loved, but he accepts that that will never be, as he feels he isn't good enough or worthy enough of her anymore.

Pipe West has always been in love with her big brothers bestie, Cole. They had an easy going relationship until she came of age and realized her feelings ran deep. But he had a job and a life far away so she has been pining in silence. When he returns, he is a shell of his former self, and she is determined to help him in any way she can.

Characterization was superb in this book and I felt all of Cole's devastation and grief and all of Pipe's soul-deep longing for the one guy who has always seemed out of her reach. This was an angst-filled read that also had it's fair share of sweet and sexy times.

I did feel like the inner monologue was very repetitive at times (especially Cole's) and I did skim over parts that I felt were redundant. Sometimes, the plot got lost in all the sex, and the stalker plot line was a bit weak and cliché. This is the main reason why this is a 4-star, not 5-star read.

It was well written, and I loved the family-n-friends dynamic, and I'm intrigued about the other couples and will definitely pick up their books at some point.

All in all, this was a really great read, and one I wouldn't hesitate to recommend.

This review will appear on my blog in due course - <http://myyanabookobsession.com>

Didn't like this as much as the first two. It got tedious for me waiting for them to get together. Cole isn't as alpha as I hoped.. he was kinda dumb dumb not to notice that Piper was into him (and he's supposed to be a former cop)

Piper is finally living on her own and she's more than ready to prove to everyone that she's perfectly capable of living on her own even if her overbearing brother appoints her long-time crush as her new babysitter and that she may have to keep a secret or two.

Cole owes Piper's brother big time. After the accident that lost him job as a policeman and left him scarred, Deke was the one to give him a new direction so looking after his hot baby sister is the least he can do.

If only Piper would stop waving her hot little body and beautiful smile in front of his scarred face, everything will be fine.

God, I just loved these characters. Piper is sassy and fierce and when she decides that Cole is what she wants, she makes damn sure she'll get him. She's sweet and maybe a little naïve but it never became irritating and she's got a healthy dose of saucy minx. Cole has his hands full trying to ignore Piper in her tiny shorts and seeing him fumble over his hormones and being led around by his dick was just delicious. When his control finally snapped and his filthy mouth finally came out to play, the chemistry was on fire! He stubbornly held onto his feelings of guilt after the accident and wouldn't allow anyone to get close but Piper was sweet and patient and pretty soon the cracks in Cole's armour started to show.

Wrecked was a super entertaining book. It had everything from insanely hot sexual tension, angst, sweetness, action and some really heart-felt tenderness. Absolutely recommended if you're looking for a bit of escapism and a scarred alpha trying to find his way again.

After an accident takes the life of his partner Cole Black is left with a serious case of survivor's guilt and riddled with insurmountable regret. Even though the accident wasn't his fault Cole still feels responsible, and is struggling to make peace with all of it. The accident not only stole the life of his friend, but it also left him with injuries that have taken him out of the line of duty. So with nothing left for him in the city, he moves home to Miami to work for his friend Deacon at his security firm. He is more than appreciative for the job offer, and so, when Deacon asks him for a little favor, he feels obligated to help him out. Not realizing that this little favor could actually benefit him too...

Piper West is more than ready to be free from her overbearing brother and friends, and is quite excited about the opportunity to be able to finally live on her own in her cottage. She wants to prove to all of them that she no longer needs looking after, and is more than capable of handling things on her own. Their constant monitoring has left her feeling smothered and in great need of a breath of fresh air. But she soon realizes that her plan to be free maybe a little harder than she anticipated, because her big brother isn't quite ready to cut the apron strings, and has hired a friend to secretly keep tabs on her. And this friend just so happens to be the man she has crushed on for years...

To say that I was thrilled for the opportunity to return to this series, is a complete understatement, I have been dying to read Piper's story for some time now!! With each new installment to this series Ms. Gray has managed to not only provide me with one amazing literary escape, but also reaffirm my belief that she is truly a gifted storyteller. If you have not read this series yet, I must tell you that you are missing out on some truly amazing reading, and the opportunity to meet some uniquely crafted characters that are sure to leave an indelible impression on your heart.

Definitely one of the best series that I have had the pleasure of reading this year!! Highly recommend you make a visit to the Axle Alley Vipers series, it is sure satisfy all your reading cravings...and then some!!

### **Carol [Goodreads Addict] says**

Wrecked is the third and final book in the Axle Alley Vipers series by Sherilee Gray. This book was generously provided to me in exchange for an honest review by the author.

This book focuses on the third of the three women who own and work at West Restoration. Piper West is the youngest of the three and because of this, constantly feels like everyone is over protective of her, especially her big brother Deke. Now that both Alex and Rusty have moved out, Piper is living alone in the cottage next door to the garage. But she doesn't mind. She kind of enjoys the privacy. But her brother is having none of it. So he asks his best friend and now employee who is managing his newest business, West Security, Cole Black, to move in to the empty apartment above the garage, right next to the cottage where Piper lives.

Cole Black came back to Miami after having to leave the police force up in New York. His police career ended when he had a terrible accident, causing the death of his then partner and best friend. Cole spends his time blaming himself for the accident and barely makes it through each day with the weight he carries. His friend, Deke West, hired him to manage his new security business and see if he can turn it around. He loved this job. But what is he supposed to do when Deke asks him to move into his empty garage apartment and keep an eye on his sister? The same sister that Cole has lusted after for as long as he can remember. But ever since his accident, not only is he scarred on the inside, he is on the outside as well. Piper deserves a whole man. A man who can emotionally provide for her, love her. He is no longer capable of those things.

***“The one woman he couldn't allow himself to have, and the only woman he wanted.”***

Piper has had a thing for Cole since she was just a kid. But he never seemed to notice her that way. She thought that he just thought of her like a kid sister. But then the kiss happened. The kiss that told her he wanted her as much as she wanted him. Now, the question is, where do things go from here.

My gosh can Sherilee Gray write steam! And these two do generate plenty of it! When Cole and Piper finally get together, they have plenty of time to make up for. But still, Cole is afraid of what Rusty's brother, Deke would say if he knew what was going on. Not to mention the fact that he feels like he doesn't deserve her.

This is really a wonderful story of finally getting the chance to connect with the person you have always secretly loved. But, as Cole is working through his mental road blocks that won't allow himself to be happy, there is also a danger lurking. I loved this final book. As always, we get little glimpses into how our previous two couples are doing. And I am in love with the epilogue. What a beautiful way to wrap everything up. I am so glad to have been introduced to this author. And I have thoroughly enjoyed getting to know Alex, Rusty, and Piper, the Axel Alley Vipers, and the men who love them. I hope you'll enjoy meeting them as well.

5 - **"I'm not ready to lose this... not yet."** Stars!

The *Axle Alley Vipers* series is definitely one I am glad that I stuck with. I won't lie I wasn't sure me and the authors writing were a fit after the first book. But I was wrong and each following book in the series has been better than its predecessor.

You are given a sense of the deep and underlying attraction between Cole and Piper in the previous book in this series, but Cole Black is a man with serious demons, and although the scars on his body give visible recognition to the fact that he is a guy dealing with the aftermath of a serious accident.

*She would never get used to the haunted look behind those arctic blue eyes.*

What you don't see, and I think what makes this book so good, are the internal scars, and the massive impact they are having on a man who is used to being in control, and how he perceives the loss of that control has irrevocably changed his life. The author took Cole's survivors guilt and resulting PTSD and incorporated it into a really great romantic read.

Piper West is the curvy, sassy younger West sibling, having been molly-coddled by her older sister and brother for most of her life, she is eager to prove to them both that she is the responsible and grown up woman that is capable of taking over the reins of her own life. Cole is the man that she has had feelings for, for years, her brother's closest friend played an integral part of her teenage dreams and fantasies.

*There was not a trace of the boy she'd fallen for when she was just a teenager.*

But the man she fell for is lost under a blanket of guilt, feelings or unworthiness and a general emotional shut-down. And what follows as the book progresses is the gradual breaking down of those walls with temptation, sass and just plain old flirtation, and I adored every second of it.

**"I'm not your fucking brother."**

What was a surprise was just how deliciously dirty Cole was, once Piper got him a bit riled up, and I have to say Sherilee Gray added some absolutely stellar sexy-times between this couple. But the feels, ahh the feels, this is a book that puts you through the emotional wringer for its couple, but it was so, so worth every minute of it.

*"I've waited so long for you... I need you."*

## "You have me"

This book can be read as a standalone, but the series as a whole has turned out to be an unexpected winner for me. I look forward to reading more from this author in the future.

ARC generously provided via Netgalley, and it was my absolute pleasure to provide the above honest review.

Wrecked was such a good read!

Loved Cole & Piper, both characters were entertaining, likable and very relatable.

It was heartbreaking watching Cole struggle with the emotional and body scars after the trauma he'd been through. He was convinced Piper deserved more than what he could offer. If only he could see the beautiful and loving man Piper and we could see... sigh

I loved Piper, she was passionate, funny, cute, and had the biggest heart! She would put her own desires and dreams aside to make sure the people she loved were happy.

Another thing I loved about Piper was her love for Cole, he's always been the "*one*" for her.

Over time Piper was able to show Cole that together they could get through anything, and that he too deserved happiness.

They made me swoon and cheer for them, loved their banter and passion. And their chemistry? OFF THE CHARTS! \*\*fans self\*\*

This was a beautiful and well written romance, with memorable and lovable characters. I've been a huge fan of the Axle Alley Vipers series and while each book can be read as a standalone I highly recommend them all.

This is one series I will be reading again.

Looking forward to reading more from this talented author in the near future.

*Thank you to Entangled Indulgence for the advance copy in exchange for my honest thoughts.*

AXLE ALLEY VIPERS

Crashed (Book 1) Review [HERE](#)

Revved (Book 2)

Wrecked (Book 3)

Wrecked is the third and final book of Sherilee Gray's Axle Alley Vipers series. Each book can be read as a standalone book since each focuses on a different couple. Wrecked focuses on the third and youngest woman from West Restoration.

Piper West is FINALLY on her own and she is looking forward to not having someone constantly watching over her. With both Alex and Rusty out of the house, Piper is living alone in the cottage close to their garage and looking forward to living alone. But her big brother, Deke, is not happy about her living alone and sends his best friend, Cole, to live in the apartment above the garage to keep an eye on her. Piper has had a crush on Cole for as long as she can remember, but he has never seen her as more than his best friend's little sister.

Cole Black recently moved back to Miami after having to leave the NYPD. He is still struggling with the car accident that ended his career, leaving him permanently scarred and injured and killed his partner. His best friend (and Piper's big brother) makes Cole the manager of his new security firm, West Security, hoping to help him get back on his feet and move on with his life. But Cole still feels that since his partner left behind a wife and son, he doesn't deserve to be happy in his life, especially with Piper, the girl he has loved for YEARS. So what is he supposed to do when his best friend asks him to move close to Piper and keep an eye on her? It is torture for Cole to be this close to her and not allowing himself to have her. He believes that Piper deserves a whole man that can give her the world, and Cole doesn't believe he is that man anymore.

But when ONE kiss shows them that they both want more, will Piper be able to break through Cole's internal scars and show him that he deserves to be happy and whole.

#### Emma says

Boy I love this series, the characters are amazingly flawed to the point of either wanting to knock their heads together or completely mother them.

Piper the youngest of the Axel Vipers is like a curvaceous, golden sunbeam bringing light into people's lives. Struggling with body image issues and the comparisons to the other vipers, Piper really doesn't see how beautiful she is inside and out. She constantly feels she has to prove herself to those around her. I don't know why she felt it necessary to keep her feelings locked away other than she didn't want to appear 'weak' to her loved ones :(

Cole has loved Piper for most of his life, although his status as her brother's best friend has prevented him from making his feelings known. However, Cole has a plan, make something of himself than declare his feelings to Piper and make her his for the rest of their lives. SWOON.

Unfortunately, life has other ideas. Cole ends his high-profile police career in a tragic accident. Leaving him

consumed by regret and guilt. He no longer feels worthy of Piper. Having had all his hopes and dreams ripped from him leaving him quite literally wrecked. Watching Cole's struggle to come to terms with the way his life has changed was heart wrenching.

Piper and Cole are absolutely perfect for each other, providing the love and support they both need in order to flourish as individuals and as a couple. I hated watching their struggle to actually have a relationship. Their intense chemistry they have doesn't hurt either ;)

Thank you Sherilee for providing such a wonderful extended epilogue for all of the couples featured in the series ♥♥♥

I cannot wait to see what you produce next.

Cole is a dirty talker and I love it :-p Piper is a mechanic with something to prove and Cole a former cop who has felt much loss in his life. He's been in love with Piper for a long time but held back. After some reluctant sparks catch, they burn up together and it's pretty spectacular. Cute read with depth. And a whole lot of sexy.

ARC received in exchange for an honest review.

### **Nicole P says**

The final book in the *Axel Alley Vipers* series was a nice and easy read. Piper West has been in love with her brother's best friend, Cole Black, since forever. But ever since he returned home scarred and closed off she can't get through to him. Cole lost his partner in a high speed chase and was dealing with survivor guilt. He found himself to be unworthy of anything and everything, including love or a chance at Piper.

Lots of love/hate happening with Cole being all alpha-male and Piper trying her best to move on. As usual, there were plenty of sexy times and drama on the road to a HEA.

---

### **Chris C - A Midlife Wife says**

I just love picking up romance novels that have cops in them. They are usually written as being protective, loving, kind, fierce, and all of these are exactly how this author has portrayed the main character in this new release.

Oh my gosh! This story had me from the beginning. It was emotional and extremely moving. Cole is a damaged man but his love shines through for his sweet girl - the girl he's loved since he was 17. The thing is - he doesn't believe he's worthy of love.

The author did a magnificent job getting into the mind of Cole. This story is intense with a bit of suspense and crime. Depth of emotion and hot steamy scenes where you can just feel the passion and connection between these two are throughout. You just know they will work things out.

This is a wonderful entertaining story that captivated me from the get go. Beautifully written with a lovely HEA that will leave a smile.

## Guilty Pleasures Book Reviews says

Rosalie's review posted at Guilty Pleasures Book Reviews

4.5 stars

This book truly tugged at my heart. Cole Black is a former cop who was injured on duty. This left him scarred and feeling overly self-conscious of himself. One the sexy bachelor that trolled the scene with women, living the life, he is rather reclusive now, having grown a full beard just to cover his facial scars. He has been in love forever with his best friend's sister, Piper West, and had planned to act on these feelings...right before his accident left him disfigured. Figuring that his chance with her is gone, he is enlisted by his friend to watch over Piper. This puts the two smack dab in each other's lives, for better or for worse!

I loved the give and take between these two characters. You never would have guessed that Piper was as into Cole as he was into her. Sherilee Gray was a master with words, keeping the reader entertained, and continuously doing things that brought these two closer together, even though they literally have grown up with each other. The two want each other badly, but really had to break down walls between them, and honestly around them in their own personal lives, before they could explore more than friendship boundaries. Their chemistry? SMOKING HOT. These two were on fire and Ms. Gray weaves a tale that I, as a reader, wanted to be a part of. I wanted to be Piper! I wanted to take as much as Cole wanted to give! Protective, sexy, alpha man, who wouldn't want him?! Great read!

## Amber .:★Wild Heart Reviews★:. says

I need to start off by saying that this may possibly be my favorite book cover in the *Axle Alley Vipers* series. I've loved all three of them, but *Wrecked* by Sherilee Gray just makes me have the feels. This book was highly anticipated for me. It is one of those that you wait and wait for, just hoping you'll get the ARC. For me, thank goodness, that happened.

What did I love about this book? Oh, well, just everything! Let me start going down the list. Female mechanics. Yeah, girls proving they can do what guys can do, and just as well. The car world is male dominated, and females tend to be show pieces. I'm glad to say the book plot here goes against that, even if the girls are still gorgeous! The plot in this one! You get a second chance romance, plus a bit of friends to lovers. The chemistry here is off the charts! Well thought out and planned characters. You understand exactly why they feel how they feel, without it plowing you over.

Piper and Cole; Goodness. Where do I even begin? As I stated before, you have definite chemistry. You have chemistry where one of them is fighting for them, and the other is trying to run from them. To be quite frank, I still can't pick a favorite girl out of all three in the series, but Piper might just be it. I loved her. I didn't

really love her obsession with pink, but it fit her. Cole runs a close second for my favorite hero. This man has a past, not only with Piper but in general. You get a great understanding for exactly why he does what he does. I'd call him book boyfriend material for sure.

Technical information wise, this is the third book in the *Axle Alley Viper* series. It most certainly can be read as a standalone, however I would fully recommend reading all three books in the series. It is told from an alternating third person point-of-view, with no cliffy and it does have an HEA.

Sherilee Gray has completely stolen my heart with this series and I'm sad to see the end of it. I'm positively sure this won't be my last book by her!
