From Reader Review Soccer Smarts for Kids: 60 Skills, Strategies, and Secrets for online ebook

Becky Bartram says

Great break down of the game.

This book is a great break down of the game! I love the way it explains offense, defense and goalie positions. They explain different positions, different strategies and different skills. This would be a good read for coaches and parents alike. The kids will love the inserts of the famous players and learn a lot from the drills that are scattered throughout the book. I also liked the section for parents to help you understand how to be the best and most supportive fan for your little one!

I received this book for free in exchange Corinthian unbiased review.
