How to Let God Solve Your Problems: 12 Keys for Finding Clear Guidance in Life's Trials Charles F. Stanley

“God, how did I get in this mess!?”

Is that the cry of your heart? You may be in the midst of an emotional hurricane right now and wondering *Can anything good come out of this situation?* Or you may be stumbling through the aftermath of a physical or financial crisis, fearful that you’ll never get back on your feet.

In *How to Let God Solve Your Problems*, Dr. Charles Stanley demonstrates how God allows times of trial for a number of reasons:

To turn your attention back toward Him. To adjust your priorities. To purify and prepare you for greater service. To better form you into His image. To grant you the experience of His comfort.

Whether your hardship is the result of sin, unwise choices, or simply the consequence of living in a fallen world, God *still* has a plan for your life. He is aware of your circumstances, He has not forgotten His promises, and He will guide you through your difficulty to victory!

This was an excellent read! It wasn't necessarily a book on, "Follow these 12 keys and your life will be problem-free" but rather an exposition on how to Biblically deal with the problems we all will and DO face. There were many Biblical examples and passages used (not KJV, which I prefer) as well as solid, practical advice. I greatly enjoyed this read and copied down at least thirty quotes!

Carmen Vivian Rivera says

awesome read!!!

As in his teaching Charles Stanley brings you closer to God & gives more hunger to get to know Him better & gives you a sense of His daily presence in your life. His books are all simple & to the point that God is awesome & totally in control, always working on behalf of those who love & obey His word. Can't wait to start his next book!

A Good Read

As always, Charles Stanley's books are very timely, pertinent, and easy to apply to life. The chapters are filled with scriptural advice on how to find clear guidance from God regardless of the situation.

Great Book

This is a book that will encourage you when you face mountains of questions ... dark and discouraging places where you question if God really loves you ... it will help you know how to pray and help you get your feet back on a firm foundation as the Holy Spirit guides you through the words written here!

An inspiration, Uplifting

This is the best book I've read by Charles Stanley yet. Still there are parts I had trouble understanding due to poor grammar and sentence structure.

Stanley writes about God's timing and other ways we need to depend on God, because that is what it takes, a full dependence on God and not ourselves or others. Stanley spells that out toward the end of this book.

I put this book down during a time I gave up, yet Stanley writes "When You Are Tempted to Give Up -- Don't!" His inspiration from God got me going after I picked up the book again. This book is very spiritually uplifting.

I'm not sure the title is really indicative of the book itself. I would call it "What do you mean, my life isn't falling apart?!?" But Mr. Stanley and I don't always agree. There were a few moments when his worldview and mine clashed, but he did an admirable job of sticking to scriptural advice, with minimal editorializing.

Through Adversity You Find God

At this time in my life, I encounter adversity often. I find that many times, I look all around for answers and solutions when all I really had to do was look up. This book has taught me that the Lord is sufficient for all my needs, including solutions and answers in times of trouble. It is a glowing example that time, patience and perseverance are needed for a peaceful journey in our life.

Brent Soderstrum says

Charles Stanley sets out 12 keys to being able to hand your problems over to God. Some good points were made but more real life examples could have been used to make it more user friendly. Also a rehash of the same points-prayer, God's word and Christian friends.

Erik Dewey says

A small book helping you deal with whatever issues are in your life though God. It worked well in trying to cover all aspects of life's trials and lays out a good gameplan on what to do when they happen.

A few thoughts from me: I feel the book becomes very helpful in the middle of a trial. It is small enough that you can skim through it in the middle of your suffering to get the help you need. It is quite a bit repetitious, but that does help reinforce the lessons. I don't think it is quite as useful if you aren't in the middle of a trial, though. You'll nod and agree with whats being read but you may not remember it when the time comes.

Overall it does what it sets out to do and does it quickly and well.

Kathy Jackson says

This is an excellent, well written book on how to develop a deeper dependence on God so He will help you through the trails of your life. The advice, examples and writing are simple to follow. It is a small book - doesn't take long to read it and while I know most of my friends don't like religious books, I find them fascinating.

This book is one of Stanley's older books - I got a set of several books in paperback that he had grouped together as "summer reading". It really is a great set and I've been enjoying each of them. I give the book an A!

David Keith says

With obedience comes blessing(s). Having God solve your problems, with your help (obedience) all can be solved. Nothing is too minute or difficult for the Lord, all that is required is that you obey. Adversity, and valley experiences are all too common. When adversity strikes it's an indication that the Lord wants a closer relationship with you. Depending on the Lord is obeying the Lord. No one goes it alone, that is through the "walk of faith". Greater blessings await you. purification is necessary. winnowed with fire is a requisite to this higher level of ground, the Lord drawing you closer to Himself. Charles F. Stanley explains quite exceptionally the downturns and heartaches we go through, as to experience God on a deeper level with blessings unimaginable ready for us on the other side. One must go through the bitter to reach the sweet. We love you Dr. Stanley

I love the way Charles Stanley teaches and writes. Always encouraging and always an easy read, he keeps these very important things straightforward and simple. I'm big on highlighting and note taking. But, there are some books I get partway through and realize, I need to stop. Lol...if I continued, most of the book would be highlighted! This is one of those books. It's all good and I'm sure I will return to it again and again.

Louis Barbier says

This a great book for those who want to ask God to solve their lives problems. The book outlines 12 keys to find clear guidance in life's trials. God our creator and savior wants to help us but we have to make the first move; in doing so we adjust our priorities. If we surrender our life and its problems to God then we will see how we can avoid unwise choices in life. If we make Our Lord God the center of our lives we will be able to

see clearly how God works in our lives; yes, if we only let him be part of our lives. God wants to help us and He has not forgotten the promises he will give to those who believe and have complete faith in God. This does not mean that everything will be sunshine and roses or those we will not have to wait for God's answer to obtain the perfect solution to our problems. God has a divine plan for each one of us but we must listen to God and obey his commandments. Now if during the process we are having difficulties; tell God about it. God knows how it will all end but while we wait we should obey and pray to God. Sometimes people are in a big hurry and they get so tired of waiting that they wear themselves out and get sick in the process. God does not want that to happen but there is a reason for everything. If you read Holy Scripture, which is God talking to us; you will see, many holy people who had to wait and also some who did not believe what God was telling them to do. With this turmoil of unbelief, listening to others, or even trying to do it your way; you can make a real mess of your life. So when you feel frustrated talk to God. God already knows how it is going and but when you tell him he just might speed things up but keep in mind that everything happens on God's time. The waiting helps us to build strong character, perseverance and strength and you will also realize once it all comes to pass how much the waiting served as a lesson learned and getting closer to God. Now this is important; after you have received the gift or blessing from God; please remember to thank him for your deliverance. May God bless all hear.

I love the practical no-nonsense teaching/preaching of Charles Stanley. His words in this book were timely for me. It is not a "life-changer," but it is worth reading several times and pondering. I especially like how Dr. Stanley always emphasizes thinking with an eternal mindset.
