A terrific action adventure ... a fallen war hero and a little girl searching for peace and family, find far more than they needed ... or wanted ...

Norstalos stands on the brink of destruction. But the three invading armies are probably the least of Queen Merren's problems. Her people despise their would-be saviours, the army of goblins she has won to her side, while the dragons want Martil and the fabled Dragon Sword for themselves. Now Merren must make the most painful choice of her life ... marry Count Sendric for the good of the Royal House or the man who loves her, the troubled Champion, Martil. praise for Duncan Lay: 'Hugely enjoyable' Daily telegraph 'For fans of David Gemmell' Bookseller+Publisher

### Shane Harris says

I honestly did not care for the series at all.

---

### Dave Brassington says

In the words of famous Liverpoolians the world over, this book left me Gobsmacked.

---

### Rick says

it was okay but Im worried about Barrett... what will happen. I m kind of sick of Martil and would like to see him fail and Barret kick his ass!! Boo down with Martil!

---

### Ashleigh says

I loved this book and the entire series. The world Duncan created was brilliant and I love the connection Karia and Martil have.

---

### Damian Papworth says

I kind of enjoyed the plot and story line of this series.

The characters were terrible though. I found them super annoying and off putting. It was like every single character in the book had the emotional maturity of an 8 year old (minus Karin who acted her age at 4 years or so)

Just found it quite distracting and frustrating from the story

---

### Daniel says

Good lead into another series.

---

### Andrew says

I couldn't wait to read this book after The Risen Queen, and delighted in the action and characters through the first half of the book. It was completely living up to my expectations, with characters getting killed off

---

just as you start to get to know them and twisting turning plot development. Then it took a sudden turn. It wasn't the plot that turned me off, it was the change in Martil's character. I recognise the significant impact on his mental health that events had caused, but I felt the shift in the character was too extreme. Everything else about this book I enjoyed, a shame to have that enjoyment slightly tarnished, but still a satisfying conclusion to the trilogy.

3.5 stars

Merren annoyed the life out of me too much. I don't think she is queenly at all and it just irritated me.
