Wizard's Heir

Daniel Hood

Wizard's Heir Daniel Hood

When the magic artifacts of sleuthing sorcerer Liam Rhenford's late master are stolen and used to commit murder, Liam seeks the guidance of his dragon familiar, Fanuilh. Together they follow the trail of evidence to a mad ghost, a mythical grey griffin, and the revelation that some secrets are best left unexplained.

Lydia says

I think I enjoyed this book even more than the Warrior's Heir. This trilogy has a wonderful style. Each book is opening with a brief synopsis of the central character and lets the story line unfold to show, through action and beautifully written narrative, the relationships between each of the heirs.

The second book helps establish how the three heirs of the various magical guilds are interrelated, although I anticipate there is a relationship I will still get to understand in know in the 3rd of the series. As soon as I finished this book, I started on the third, "The Dragon's Heir" simply because I had to.

I completely admire Cinda williams Chima's ability to weave a coherent and sufficiently complex tale. The writing is clean and well-constructed. When I get to teach YA in librarianship, I have to figure out a way to include this series in the syllabus.

Barbara ★ says

In this adventure, Liam is searching for the person who entered his house and stole three magical items. Of course, it's never that simple. His new buddy, constable Aedile Coeccias is involved in many ongoing investigations which invariably will cross with Liam's search. Let's see we have a ghost running around, an aborted robbery at a temple, a bunch of sailors that skipped town without paying their bills and a guild of thieves living it up.

I like this series but it is wordy and hard to decipher as the people speak some kind of broken English that (most times) takes a second glance to figure out what is actually being said. And this particular installment has an over-abundance of typos which slows the reading down farther. Overall enjoyable and I will be reading the next one.

Coyora Dokusho says

Waaaaaay back in the day I read this because I didn't realize it was the second book in the series. I think I eventually read the first book too... hmmm... maybe I should read these again...

Matthew says

good sequel.

Sharon says

I was waaaaaay quicker on the uptake for certain points of the plot, but didn't figure out most of it and once again enjoyed a fun read!

Jen526 says

A solid follow-up to the first book, continuing in the "cozy mystery" style that I liked about the first book, but adding more complexity to give the mystery more nooks and crannies to misdirect and add questions that don't have easy answers.

I enjoyed spending more time in this one little city, seeing the gradual growth in Liam's relationships with Fanuilh and the Aedile and others that is not a major focus, but slotted in between the mystery investigation action. Liam is a refreshing character. He's already well-traveled and with lots of experience, but by his own admission, he's something of a jack-of-all-trades/master-of-none, so watching him chaff at how everyone assumes him to be an expert in everything is a lot of fun.

Dustins Scruggs says

I like this book because it is about magic

Fatbaldguy60 says

Good book.
