Logan Bordeaux. Bear shifter. Bounty hunter with a past he'd rather forget. 33.

The huge bear shifter was thrilled to meet his true mate... six months ago. He was less thrilled at the fact that his delicious little mate won't bond with him or tell her family about him. But, he's determined to be patient and wait as long as it takes.

Mia Blau. Rabbit shifter. Office manager and reluctant daddy's girl. 24.

The little rabbit just has to avoid her father's determined attempts to push her into an arranged marriage and then she's free to be with the bear she loves. He's everything she wants, except... she wishes he wasn't so darn secretive about his past. He really couldn't tell her anything that would make her love him any less, so what the heck is his problem?

But, everything comes to a head when a woman from Logan's past turns up, and the huge bear soon finds himself unable to conceal his less than glorious past from the one person he wanted to protect from it. Now, he has to deal with an ex arrested for armed robbery and the real possibility that he might push his little mate away before he even gets the chance to claim her. Oh, and not forgetting his mate's best friend who has less than honourable intentions, a potential stalker and her overprotective father. Life's never straight forward.

Please note this novella is approximately 55,000 words in length (it's a mini novel!).

But I do advise caution! It does contain swearing (there's a lot of use of the f word!), as well as scenes of a sexual nature with m/f interaction intended for mature readers.

Another good one

I think this is my second favorite in the series so far. This one is filled with action, suspense, steamy sex, and a twist. Can't wait for more in this series!

Bring On The Next Story

I love reading her stories, especially the SEA ones. They are funny, romantic and full of action. Can't wait for the next one.

Susan Otto says

BEARS IN FLIGHT

This is book four of the Supernatural Bounty Hunters series. If you thought the last couple were radical, this couple are a bear shifter and a rabbit shifter. Great book--very dramatic and funny when the bear has trouble telling his mate about his wife.

Really enjoy this series!!

Love E A Price

Love books by E A Price, since I discovered them last year, but this was not my favorite. The Bear and the bunny were a little to tame in personality and were to me just an ok couple. In my opinion the best of the bounty Hunter series so far was the first.

I'm really liking this author and she is getting to be a favorite and "auto-buy"! The stories are always good but still needs a bit more editing! It's not enough to stop the story but I do catch myself stopping and rereading a part. Now don't get me wrong, it will NOT stop me from buying and reading everything she puts out but it would be nice. JMHO

Bubbles The Book Pimp says

Book four in series.

Ever since we first meet Mia and Logan in book one I've been looking forward to their story. Which was great, until just how many secrets Logan was keeping from Mia.... and the fact mia was keeping so so many from him.

But the two sneaky liars managed to sort it out at the end.

At one point I thought I was in the lion cop (wyatts) story... (ekkk when when!!) which did spin me for a little bit then it returned to Mia and Logan.

Great easy to read and light hearted series which I'm continuing with.

Magnificent

I really enjoy this series. The book was well written and holds your attention from beginning to end. I don't think you'll be sorry for starting this series. Just loved it and I am ready for more of the characters to have

their stories told.

A rabbit shifter in love with a bear shifter - yeah, that's weird, but that's this novella. Our bear has a secret he won't tell to his soul mate rabbit shifter. Beware there is sex and cursing. Cute and fun to read. Enjoyable series of four short novellas.

Charlie Torres says

A bunny and a bear

As always I love reading the books in this series. They offer some comedic relief, some intense heartfelt moments and always good characters.

Rachel says

I loved this one. It's probably my favorite in the series. I loved that the bad guy wasn't really a bad guy...if that makes sense. I really enjoyed that they had a long thing going and it had flashbacks to previous moments rather than it all be the here and now. So cute!

Emily says

Bear shifter Logan Bordeaux has made enough mistakes in his life to know not to make them again. Now the Bounty Hunter is thrilled to have found his mate, but six months later they still have not mated.

There is a reason rabbit shifter Mia Blau has been waiting, her overprotective father has his own ideas on who she should mate so for now Logan has to be a secret. As a blast from Logan's past comes back into his life things are getting out of hand and everything that Mia has been keeping quiet is about to implode.

The story had a lot to grasp initially and I found that I had a hard time getting into the story. I liked all the characters I just didn't get into it. Would give it another try at another time, could have been my mood.
