What first drew me to this series was the romantic historical aspect. I loved how a modern day girl gets pulled back into the past. I don't know what it is about those stories that attract me so much, maybe it is the difficulty for the girl of fitting in and having to rely on the guy so much to be able to get along in the world.

I also really liked the group aspect to this series and the corresponding relationships that affect each of the characters.

I would really recommend this series to fans of Red River, it has a lot of the same concepts.

Shanelle says

I absolutely love Inuyasha and I can remember many years ago, my late night ritual of staying up in order to watch the television show. Reading this ani-manga brings back those memories, especially since all the images are taken from the television show itself.

I honestly can't say anything bad about Inuyasha, except that I'm sad to see that they do not print the ani-manga volumes anymore.
