Wonderful ending!

As the third book continues all aspects of the three-some relationship comes to life. The stalker is caught and their standing in the town's social community is worked out. Again, the novel should have not been broken up into parts. It would have benefited all as one book, I believe. Consequences of childhood neglect and lack of stability making focus towards the end. A very good read and an interesting introduction to a darker side of love.

Mainly Stories says

This is part 3 of a serial not a series

I really don't like serials but fortunately I was able to get all 3 parts of this erotic romantic novel. I do like menage stories when there is a story that is strong with interesting people. This could also be classified as a thriller. The primary male characters are associated with the FBI past and or present. Each of the main characters has some kind of traumatic background. The journey is quick-paced with surprises. Certainly 5 Star read.
