### Leah says

It's difficult to rate a travel book before actually visiting the place, so my rating may be adjusted in the future based on my experiences using the book in Barcelona. For now, I'm still in the dreaming / planning stage, and reading this book made me want to visit Barcelona more than ever.

The book itself is concise, but still contains great info on the city's major sights, including walking tours, public transit info, and museum guides. The book's small size and light weight would make it easy to pack and carry on a trip. Because it is a concise city guide, though, the book's focus seems to be on tourists planning a 2-3 visit to Barcelona. For those planning a lengthier stay in the city, you may prefer a beefier, more in-depth guidebook.
