Must say my 3 year old daughter has learnt all the colors in sequence of rainbow by heart...after I read this story to her.

Mariah says

This book explains about rainbows in any easy to understand way. Many kids like Minnie so this book would keep them interested. My favorite part about this book is that there is a Mylar mirror in the back of the book that kids can make their own rainbow with.

Upstatemamma says

We found this book in the bookstore because I am trying to get my daughter really into ALL of the Disney characters before we travel to Disney World in August. But this is so cute!! It does a great job of telling colors and is a great little story. Plus it comes with instructions on how to make a rainbow with a mirror (that they give you - Mickey ears mirror), a flash light and a bottle of water.

Skylar Burris says

Not bad perhaps for teaching the colors of the rainbow, but the meter leaves something to be desired.

Darcy says

Another of the most crapily edited Disney kindle books

Don't waste your money on this terribly edited book. On each page, the child is supposed to find something that the stupid editors made sure to cut off the page, thereby making it impossible to find. Do not waste your money. You will be sorry.

Matthew Ridley says

I read it myself. I'm getting to know how to read.
