Carl

My family believes they're gifted by gypsies to find their soulmate, but I always thought it was bullshit. I don't think it's a gift. I believe we're cursed. I'm forty five and still haven't found my mate, and my nephews use me as an example to prove my theory that we're cursed. After watching my brothers and two of my nephews find their soulmates, I've given up hope. Now I'm known as the cranky reclusive uncle. I don't care what my family thinks as long as they leave me in peace.

Not only am I from one of the most powerful family's, the Silverman's, I'm one of the best doctors in Australia. I devote my days to bettering my skills and don't care how others see me. Everything changes though when I find out the curse is in fact real, and meet my soulmate Annabelle. There's a problem though, she doesn't seem very impressed by me.

Annabelle

My life changed in a moment when Carl Silverman, pompous know-it-all, kidnapped me from the hospital where I was visiting my mother. He's convinced I—quiet, plain, little old librarian —am his soulmate. I feel a strange pull towards him and I can't deny our attraction, but I don't know if I'm ready for a relationship with someone like Carl.

Carl thought he would never find his mate, his family has been cursed by gypsies and it leaves the men waiting to find their mates or never finding love. When Carl sees Annabelle he knows, he kidnaps her, and quickly goes about trying to show her she is his mate.

Annabelle thinks Carl is a nut job. He is a perfect specimen of male man though and the more Annabelle gets to know Carl, the more she wants his crazy idea of a relationship to work.

Very fun, Carl is pure caveman. I liked that to everyone else he is a rich jerk but with Annabelle he is sweet and slightly crazy. Had some really funny moments. Can't wait for more in this series.

If you want to read something vibrant, hot and hilariously funny erotic, this is it. I truly enjoyed it and intend to go on with the rest of the series. The writing style is similar to Shelly Laurenston's who is one of my favourite authors.

After reading Richard (book 2 in the series) I wasn't sure I'd like Carl any better. I actually enjoyed reading Carl and Annabelle's crazy whirlwind courtship.

Carl is completely OTT alpha when it comes to his soulmate. He won't be put off because of a little thing like kidnapping. When it comes to making Annabelle fall in love with him, he'll do whatever necessary to keep her.

Annabelle can't seem to figure out why she's so attracted to her crazy kidnapper. But she really can't deny the pull she feels to him, especially when he says sweet things to her.

New guilty pleasure series with alpha males!
Highly recommend if you like these kind of books. Now that I am in my exam period I find myself reading fluffier and lighter books to change my mind a bit. Highly enjoyed!

The third book in the Caveman series by Hazel Gower. This time the curse/gift is presented to Carl when he spies his mate across the hospital employee parking lot where Annabelle is talking to her best friend on the phone after her mother gets out of surgery. Carl, of course, kidnaps Annabelle and takes her to his cabin. Annabelle is a quiet, shy librarian for a high school and is usually a pushover except when she meets Carl then she turns into a sassy heroine who also feels the pull of attraction to Carl but is trying to fight it.

There is mention of the first two couple in the previous books along with some other family members. It's been a while since I've read those books and now I think I wanna re-read them to remember these crazy Silverman relatives.

There are some short stories in the end that tells the how the characters in the previous books are doing now along with the hint of the next Silverman that will be hit with the curse...umm, I mean 'gift'.

I love this series and I love OTT men so this one was a hit for me. It did get slow midway but I still enjoyed it :)

I love the over the topness of these novels. They are just perfect for a quick break.

I love this series but this one lacked serious chemistry. The h went from being annoyed and giving the H attitude to falling in love. I also did not like the h's mother, she seemed like a ridiculous character. In addition, I was disappointed that the h was given a cliché gay BF who was of course telling the h how he was attracted to the H. The glimpse into Ryder's story was good and hopefully it will come out soon.

Eve Recinella (Between The Bookends) says

This book was SO OTT. It cracked me up a lot. I loved Carl and Belle, both were likable. It's BIG TIME insta-love, and the sex was hot. Alas, it fizzled out for me about halfway through. Nothing really happened, and every other word was "honey this or honey that"...

Love this series!

I really liked Annabelle, she was a pretty quirky and fun character. It was nice to read about a more mature couple. Carl was swoon worthy hero. He was caveman to the max. Super possessive and persistent.

"Mine. My soulmate. Only me. No one touches you. You're mine."

This gif pretty much depicts Carl this whole book...

I really enjoyed the epilogue and bonus short stories. Can't wait for the next book <3

This was so crazily insane- I LOVED IT!

Waited a long time for the next book in my fav caveman series and this did live up to the expectations I loved how amazingly obsessed Carl was- maybe because he waited 45 years for his soulmate- but his OTT gestures were just adorable.

Anabelle reacted exactly how any 31 year old sane lady would when kidnapped- but soon love took its claim and all became sexy and wonderful!

"Mrs. Clarkson, your daughter isn't telling tales. These are the guards I assigned to her. My name is Dr. Carl Silverman, and your daughter is mine."

Also loved the surprises in the end :)

Loads of MEOW moments! Safe read!

I love the premise of this series. Who doesn't love a hot cave man alpha, right? It was over the top and I liked it. I consider it in the paranormal family since it has to do with an ancient curse so I give it some leeway with how far fetched it is. The story basically revolved around them getting to know each other. I liked that Richard/Bailey and Stephen /Jade were mentioned. I would love more story on these couples since there wasn't epilogues in their stories either. I look forward to the next story (Ryder) in this series.

no cheating

no ow/om whatsoever

ott alpha

no epilogue
