Sleep Tight

C.M. Steele

Sleep Tight C.M. Steele

When Erin's party plans hit a snag, she has to ask her stepbrother Pearce to PLEASE let her have the sleepover at his house. A group of females in his place was a nightmare he wasn't prepared for. He agreed against better judgement, but what happened led to the best decision he ever made.

Pearce Kraven was working on his twelfth novel when his world tilted on its axis for the second time in his life. Both times changed the man he had become, but this time it was for the best.

Lynne Davies had no idea her best friend was keeping the biggest secret she could imagine. Pearce Kraven was her brother. What a b*tch! How could she do that to her? Lynne fashioned herself a super fan of Mr. Kraven's work and meeting him would be a dream come true. Why would her best friend keep her from meeting him?

5+ SWEET SEXY STARS

This book by CM Steele is one of my favorite and I have read them all.

It features not one but two virgins!

The story is about two writers, the hero is more established (he is mid twenties here) with his career and has loads of books published and numerous followers and fans.

The heroine is 19 and a newbie writer. She is just starting out but is a big fan of the hero's work, totally crushing here.

They meet by chance at a sleepover party of all things. (Crazy awesome right?!)

Their eyes meet and bingo, they are in **love**.

And not the neat and clean kind of love. I am talking the down and dirty type of love!

I know you guys feel me here!

The story had loads of twists and turns with a gun shy hero hiding from a crazed stalkers fangirl who has tried to kill him in the past.

They get together very fast and they stay together. With other stories thrown into the mix that you just know and seriously hope here that CM Steele will be making them into another book?....PLEASE!

I won't stalk her writer's page too much here... just can't wait for her next book. And I would love it...

If this is a sign of things to come from this author, I am totally IN!

I know for certain I will be enjoying this one again and again!

I ADORE THIS BOOK!

I feel like I just won the lottery here.

YOU SHOULD READ THIS ONE!

It's totally safe and worth it with a sweet epilogue that tells you their passion and love have not changed!

Mary Moore says

This has got to be one of my favorite books by CM Steele. When I started reading it I had a totally different plot line pop into my head and that's one of the reasons why I love CM's books so much - I never know what to expect and I love how she makes it work each and every time. The other huge plus for me was- I tend to

steer away from the virgin virgin books. I find them a bit too unbelievable depending on circumstances but there was a reason for Pearce being one. And it made him out to be more realistic about his first time too. His thought process was what I'd assume every guys first time was- I've seen this done/I hope this feels good etc and I loved that realistic touch. Then you have the feelings of his family involved.....I just found it to be such a gripping plot and so well done that honestly I'm gonna have to go and read it again right now.

S. Horne says

This book is a really great quick read. the passion the author portrays about the characters being authors really reflect on how she feels about writing. It was one of the first things that jumped out at me. The story line is something that is believable and the characters are really well thought out. I like how she wrote the male character being a virgin yet he wasn't a sex God from the start like other authors right them to be. I'm a big fan of this authors work but I'm noticing her style is slowly changing... for good reasons. She is growing and I'm super excited now to see what more she has in store for us ♥

Becca B says

All I can say is you can never go wrong with a C.M. Steele book if you want a safe, OTT, instalove, sexy book. I loved Pearce and Lynne's short story. It was so sweet and hott!!! Not much else to say about this one other than I always wish her books were longer but you will get no other complaints from me. ;)

Denna👉 says

Loved this!!! I'm always very excited when a CM Steele book comes out and I always stop everything I'm doing to read it! This was an AWEOSME read both virgins and steamy as hell! Can't wait for more.

Talltree says

3.5 stars!

Mashewna Koonce says

Love it!!

God knows I love C.M. Steele. She has saved me from boredom many of times. Stop reading this review and buy the book. Trust me, you won't be disappointed. Happy reading folks.

Deborah says

Enjoyable romance

This is a cute little insta-love romance about a reclusive author who opens his house up to let his eighteen year old step-sister have a sleepover.

Firstly the author in question Pearce Kraven has good reason to be reclusive a stalker nearly killed him six years earlier and so he carefully guards his identity and his life, he makes no public appearances at all spending most of his time alone with just his dog Dexter.

Ok, so it's far-fetched because seriously there's no way someone as reclusive as this would open his house up to ten strange females regardless of how much he loves his sister, but he does and the second he sees Lynne he's gone. It's love/obsession at first sight and Pearce goes into instant caveman mode.

Lynne is a huge fan of Pearce Kraven's books but she'd no idea at all the famous author was actually her best friends brother.

This is a nice easy read but while I enjoyed it and read it in one sitting I felt something was missing, it just didn't seem to flow, the writing seemed a little jumpy at times and the dialogue felt off. Now I'm a picky reader I really wish I wasn't but I am, I can't help it and I'm definitely in the minority here since this book has nearly all 5* reviews.

Don't get me wrong this isn't a bad book 3* for me isn't a negative, it's a nice quick easy read and I loved that they were both totally inexperienced.

?Tonya? says

[hero had been misinformed about the heroine and a guy who liked her. She did not date the other guy! (hide spoiler)]

Emily says

Writer and recluse Pearce Kraven is used to being alone, sure he has his family but no one has really interested him before. When he agrees to let his stepsister have her sleepover, last hoorah before college, at his house he knows there is one person he does not want to meet, Lynne Davies. He has heard about the troublemaker and frankly wishes his sister would drop her.

Lynne is fuming with her best friend when she finds out her stepbrother is one of her favorite authors. She feels like she has been lied to and then there is the attraction she feels for Pearce. Pearce though quickly realizes his impression of Lynne is all wrong and his sister had misled them about her. He wants her, he will have her, now it is time convince Lynne she is all his.

I thought there was one area in the story that needed to be resolved between Erin the sister and Lynne. I liked this quite a bit, Pearce is unusual because he is so young and been through so much, his reason for being a recluse was unexpected.

Jennifer Finn says

This is the third book in the Best Friend series and I loved it. Pearce Kraven is 24 years old, a successful, brilliant author who writes crime/thrillers. When he was 18 years old his Father married a woman with a 12 year old daughter named Erin, it's also when he published his first book. About a year into his writing career he began being stalked by a fan who came into his bedroom and stabbed him in the chest while he was sleeping. After he recovered he became a recluse, while he was still writing books he refused to do interviews, book signings, or make public appearances. He has no girlfriend, no friends and the only people he socializes with are his family. His stepsister, Erin is now 18 years old and will be starting college when the summer is over. Erin wants to have a sleepover for all her friends before they all leave for college but her Mother will be out of town so she begs Pearce to let her have it at his house. Pearce doesn't like having strangers in his house but he loves Erin so he lets her have the sleepover at his house. Lynne is 18 years old and very mature for her age, she is Erin's best friend. Lynne is a huge fan of Pearce Kraven, having read all his books but she has no idea he is Erin's stepbrother. When Pearce first sees Lynne he is stunned by her beauty and knows immediately she will be his wife. Lynne is angry and hurt when she realizes her best friend kept such a big secret from her until Pearce explains why he likes so much privacy. I really liked this book it was very sweet and once again we have both main characters being virgins. Normally I can't stand when the male is a virgin because it's usually such bullshit but Pearce I could actually see how and why he would still be a virgin so it didn't really bother me.

ARC Received in exchange for an honest review

This book was a quick Hot Sexy Read

Pearce Kraven is an author and busy writing his next book, when his sister's party plans hit a snag! So he offers his own house as party central. Even though he doesn't entertain people and has become a sort of recluse. He had an incident a few years back and doesn't do interviews or any public appearances. And lives just between his house, his parents and walking his dog.

So when he meets Lynne one of Erin's friends he thinks that he is finally ready to live his life.

This was a quick easy read with lots of twists and lots of chemistry and dirty talk. Definitely another winner.

Erika says

Didn't really work for me. The writing style just felt so off in my brain. Not going to rate since it might have been my mood. I really appreciate a virgin hero matched with a virgin heroine though, so I wish it had worked better for me.

M.K. says

Sleep Tight is the story of Lynne and Pearce. Lynne is Pearce's stepsisters best friend. Pearce is a famous author who is a recluse due to a crazy stalker. Lynne is barely legal and Pearce's biggest fan. All the instalove and yummy alpha-ness I love C.M. Steele for! Must Read!

Nono says

First of all I didn't even finish this book, secondly the girl in the book cover kind of creeps me out.... This said, the premise that both the h and H were both virgins and the H was a possessive alpha male sounded good but once I started to read the
