SEAL the Deal Jack Silkstone

Navy SEAL Mike Saunders and his canine sidekick Axe are back in the second installment of the SEAL series. When his SEAL squad embark on an epic bachelor party they manage to find trouble in the backwoods of Oregon. In the face of overwhelming odds it's an unlikely hero that finds love and steps up to save the day.

SEAL the Deal is romance meets action in a light-hearted love story with a twist. It is dedicated to the Military Working Dogs who have served, loyal and steadfast, alongside their handlers in the world's deadliest conflict zones. A percentage of the sale of this book will be donated to a foundation that trains dogs to help servicemen and women who suffer from post-traumatic stress disorder.

Jack Silkstone's background includes a career in military intelligence and special operations, working alongside some of the world's most elite units. It's this unique background that has allowed him to create both the SEAL and PRIMAL series.

Nancy says

I hope there is book 3,4,5,....

Linda Satterfield says

Axe steals the show again.

This seal family goes through harrowing adventures. Rick and Axe with assistance from a feisty park ranger save the day.

Barbara says

Great read! Full of suspense and great characters! Makes you feel like you're there.

suzanne menees says

Action packed!

This book was even more exciting than the first. Who knew that a bachelor party could turn into a major drug bust? All the characters were back, along with a new one, Jenny. It's a quick read because you just keep turning pages to find out what happens next.

Jodi L Goldermann says

I stumbled upon this writer, wow love the series please need more...

Great storyline love that the women are badass too . Need to read this series. Need more have to know if they get....

Bunjluna says

I enjoyed the first one in this series. This one, not so much. Again with the interfering friends/relatives. Sigh...

Beverly says

This is not a stand-alone short story. All the characters from the first short story in the series are in this story plus a few more. I liked the action and the romance. I will wait for the next in the series.

Jennifer Howard says

Really enjoyed the second book in the series, but agree with another reviewer that the story was lighter than the first one. There was less fleshing out of characters and it was a fast read. But once again, the plot was pretty believable and the team members for real, not these amazing superheroes that so many romance writers make them out to be. As Jack put it, this falls more in the romance-ish category because the interaction between Jenny and Rick was not as front and center as the romance between Mike and Ali. And once again, the best part of the story, Axe saves the day! I'm looking forward to the third book in the trilogy. And now I will definitely check out the Primal series.

S. R. Lewis says

Loved it!

I loved this book. It was easy to read and so entertaining! I love all the characters including the warrior dog. The suspense and action and romance were all great. This is the 2nd book in the series and I can't wait for the 3rd one.

Eileen Belanger says

Great book

I loved reading the series I just couldn't put it down. I like the military facts and the fun the guys have together as brothers in arms. I making my sister read it as I loved Axe and she will too. Not all women as sissies Jack did a great job on conveying that.

Judy Robinson says

Wow

I love reading books about military men, dogs, and the women who love them. This is a great read! It keeps you on the edge of you seat at times. I recommend this book to everyone! Can't wait for the next one!

Kim says

Can't wait for #3

Loved the first two books. This one like the last is filled with action adventure humor and romance. What else could a girl ask for? Keep going Jack, the series is great.

Cari Whitmire says

Action and romance

I really enjoyed this book. It was just as good as the first. Jack has created interesting characters that you come to care about. The storyline holds your interest with great action and romance.

Randy Troyer says

Love Mike, Ali, and Axe

2nd book in what I understand to be a trilogy was very hard to put down. Enjoyable read and the genre is expanding to now include romance(ish) stories of the beloved SEAL team.

I felt the first in the series "SEAL of Approval" was a little more intense as well as funny. I love Jack's work and will normally give high ratings because of his talent. This book, albeit enjoyable, could have been fleshed out a bit more with the story more developed and characters becoming more rounded. That being said I still recommend.

Elizabeth Ondo says

Fun read

Fun characters, a hero dog, strong women characters, a crazy bunch of SEAL team buddies, smart writing. I have enjoyed both books in the series
