Parksy says

Summary of a bunch of his published work from various sources... Good but not great. Probably suffers from the fact that it is limited to articles about music, and doesn't have his meandering pop culture filtered non-sequitur thoughts on life/culture.

Good but my least favourite of his works.

Ray Charbonneau says

Repackaged stuff I've read before, but I still likes it when I'm in a lazy re-readin' mood.

Rachel C. says

Reading "Love is a Mix Tape" made me want to listen to a bunch of music, which in turn made me want to read another music book. So I dug this one out. It's not as cohesive (obviously) or generally applicable, but Klosterman has a great voice - it's sort of like Bourdain's.

Note to self: Need to bone up on Led Zeppelin.

Cody says

An entertaining collection of Klosterman commentaries, lists, interviews, and musings of rock music history.

Subu says

not spectacularly eye opening but a decent read...
liked the write ups on the cover bands..specially the guns n roses one

Jonathan Burt says

Although I don't share Klosterman's love of hair metal bands, I do love his essays.
