## **Abomination** E.E. Borton

They were built as unstoppable warriors. They became unstoppable monsters. Four decorated U.S. Marines with spotless service records are wanted for the brutal rapes and murders of over a dozen women within four months. Their hunting grounds stretch from New York to Georgia. When Ryan Pearson and his team of FBI agents close in on the first killer, the cornered Marine nearly defeats three heavily armed assault teams with nothing but unbridled violence and grossly deformed hands.

### **Adelina Amelco says**

#### **Wow dang**

Hold on tight. High octane reading. Can't put down . Just finished book at 2:18 am. This story us a roller-coaster ride that leaves you hanging on the edge of your seat. Another good book by EE Borton

### **Tom STANFILL says**

ABOMINATION is one of those novels that you can't put down. I find myself getting lost in the very anticipation of what is on the next page! A true must read!

### **William G. Schultz, O.D. says**

#### **Great read**

Flows beautifully, yet unpredictably. Great character development as well. looking forward to further books from this author. Who knows, even this could become a serial.

---

### **Robin Stein says**

Great book. Kept my attention from the very first page. Very impressive writing ability by this new author. Can't wait to read more of his books. Definitely a favorite!!!

---

### **Crystal Wizner says**

This book grabs your attention with the first couple of sentences and keeps it through out the entire book. I couldn't put it down. You won't be disappointed in this investment. It's great enough that you will want to read it again and again.

### **Peggy says**

Although this is a suspense novel, it is not the type I usually go for. But it was a kindle freebie with all five star reviews, so I thought - what the heck. I'm so glad I downloaded it! This was one of the most original story lines I have read in a long while. Four decorated U.S. Marines with spotless service records volunteer for a top secret project with the goal of creating the ultimate warrior. But something has gone amiss and they are now wanted for the brutal rapes and murders of over a dozen women. The pursuit of the now monstrous marines by the FBI team assigned to the case is a thrill ride filled with unimaginable twists and turns.

### **Terry T says**

Abomination is anything but. It's a tight, gripping, edge-of-the-seat nonstop super-adventure, made especially effective by the endlessly entertaining language and phrasing styles of its surprisingly well developed characters. It's a remarkably impressive fictional outing by E.E. Borton.

### **Tracy Bell says**

I liked it a lot, it kept me wanting more. Waiting for the sequel.

### **Dan Barbier says**

Let me start by saying that if you check my goodreads page, you'll see i've got over 170 books waiting to be read. I'm not a patient reader. When I got this novel as a free promotion on Amazon, i was sure it could be an easy delete, just try it and dismiss it in the same day. The damn thing abducted me for 3 days. I could not stop reading, let alone delete it, it's a keeper. I hope other Agent Pearson stories are in the works. Suspenseful and action packed.

### **Tracy Hipp says**

This book takes off from the first page and keeps you interested right to the last. I liked the premise but was slightly disappointed with the cause of the marines illness. Short, quick page turner, and a good read otherwise.

---

### **Greg says**

Frightening in its plausibility--the desire by the powers that be to craft the ultimate warrior combined with the all-too human tendency to fail to fully realize all the possible ramifications of our actions. Just because we can manipulate DNA doesn't mean we should....

### **Gordon Wulff says**

A fantastically fast-paced thriller which offers picturesque action and plenty of twists and turns . First of 3 novels from a brand new best selling Author .

I'm not usually one for reading Suspense/Thrillers, because I'm a bit of a sissy. But once I started reading "Abomination," I couldn't put it down! You'll love this book....unless you live by yourself:) The first chapter is an eye-opener for all those who put their every move on FB. Get this book!

**Paula Golden says**

I thoroughly enjoyed this book. I know this book is the author's first, and that he has a second one currently in the works. I can't wait to see what he does next.

**Art says**

"Abomination" has all the ingredients for a great thriller. Burton's characters are very believable. Lots of twists. A must read for any mystery/military enthusiast. look out Vince Flynn, E.E. Burton is coming!
