Shelby's Saviors Becca Van

Shelby Richmond has recently witnessed the murder of her family and, due to suffering PTSD, is on the run from herself.

Cord and Brandt Alcott are drawn to Shelby, and when she suffers a flashback in the Slick Rock diner, they help her through it and keep prying eyes off of her. When she asks about a job, they offer her a position as a receptionist for their security company and also a room for rent in their house. The two men slowly court Shelby into their beds, but she can't let go of the past, and they don't know if the love they have for her will be enough to keep her by their sides.

Evil follows Shelby to the small Colorado town, and her life is in danger. Will Shelby have the courage to hold on to love? Or will the evil take her choices away?

An enjoyable threesome read. Cord and Brandt and all you could want in a couple of men trying to show love and protection to a woman (Shelby) who is damaged by her past. A bit of fun and god when you're in the mood for it.

I always get reeled into these books. They have such a great description and plots. I just wish they lived up to the hype. They are well done they just fall off somewhere for me. The major plot takes a back burner to the sex. I like the steam but I want story to match it. All that aside I still read each new book as it comes out.

2.5 star rating didn't like this one as much as the others.....but will keep reading the others...

Ruth Hambley says

Although it is part of a series it can be read on its own. Well written. If you enjoy reading menage then you will love this series. However I do think that this series could have been more of a book as the story line was excellent.

Francie says

O I so loved this book! Can't wait for the next one! So I guess it's time to reread them all again!

This book did have a lot more interaction between the female characters. I found the smut parts better written with different words used, Van likes to use the words pelvic floor muscle in her descriptions in the smut parts really lost the sexy and hot feeling having a characters climax described that way. Lol. And for some reason the only injuries every female character got was head/knee/ankle in almost every book. Even with all the down points I do like the gentlemanly and sweet way the guys come across in each book.
