Yes I realize this is an early reader but I think it is insulting everyone intelligence. Ken faints when he sees anything as adorable as puppies...Is Barbie really the role model we want our kids reading about,.....If it gets kids to read...sure... I can live with Barbie....is this quality literature of course not...it serves its purpose and that is fine...moving on....

Angela says

Fun read. My kids really like Barbie and this one was pretty funny. Easy to read, easy to follow. Cute story.

Amanda says

Things to like:

Barbie's dog ordered the puppies online, so she isn't promoting backyard breeding of dogs.

Barbie's closet scene - "Weren't you a vet?"

The training scene featuring Barbie's backyard dog agility course, the prioritization of house training, and in general some realistic dog ownership concerns portrayed Barbie style.

Once I get past my personal reactions to the visuals in this webisode-inspired-comic-style easy reader, there are some things to like. Barbie fans will no doubt love it.

Lauri Meyers says

This is the Barbie life in the dream house internet episode just in book form. Good option for redirect from the iPad to reading though.

Some of the art is blurry maybe from the digital to paper transition.

Elizabeth says

Went downhill after the introduction of the cat. Until then, I was (surprisingly) rather entertained.

Leanne says

Publisher should be ashamed!!!

Rebecca says

Hilarious.. and horrifying.

Valleri says

A cute comic reader that teaches children not only how to read, but how to incorporate sarcasm into their reading as well. My daughter loved using different intonations in her voice as she read and giggled through this book.

Amanda says

I normally do not mind these early reader books, but I found this one to be awful. It is set out like a comic, which makes it not fluid. I also found the wording to be silly, too silly for even the Barbie Doll house. If you have seen the show it is very similar to that.
