This was a sort Novella that packed a punch. Tim was to wishy washy for me. He is the coach of a hockey team, yet he wasn't man enough to stand up for what he wanted. Almost let it go a few times. Yet it had a good story to it. For that reason i gave it a 3 star.

Very nice telling us how Tim and Madeline got together you never saw much of Madeline in the earlier Books nice to get to know her

This one is going to hit you in the feels. For those getting it somewhere near the beginning of the series might not have the same impact as the ones who have read further along and went back for this.

Liz says

how could you not love the start of a great series.

Colleen says

I loved this book. I loved that we got to actually see a bit about Tim and his wife, Madeline. Theirs was an interesting relationship and I loved how Madeline was with the team. I wish we could hear more of these two.

I have devoured every single book in this series and had no idea this even existed until a few days ago. I'm so glad I found it. Tim is a beloved character in the series and I really enjoyed learning how he and Madeline met. What a fantastic story!!!!

Received as an ARC for an honest opinion (part of the Bound to Lust box set).

Nope. Not in to it. Sorry. It doesn't encourage me to read any of Bianca Sommerland's other stories. As I was reading it, knowing it was only 66 pages long, I felt like it was introducing characters to bring back later in another book or series and yep, when I finished, it had a website for "The Dartmouth Cobras", a series about an ice hockey team.

As a stand alone book, it just didn't fly with me. The main male character, Tim, was just too pussy for me. I liked the main female, Madelaine, but I'm not sure what she saw in Tim considering her BDSM lifestyle. The sex was even awkward. (Their first time together was in front of a warehouse club full of other people - might want to work your way up to that.) I just skimmed that and the last 5 or so pages. Sorry, not a fan all all.

4 Stars!!

Wouldn't be the book for everyone, though I was pleasantly surprised. I will be reading more of the Dartmouth Cobras.
