Prisoner of Poseidon was a great book. I actually ended up liking it a little more than the previous one, Spawn of Medusa (even though that was also a very enjoyable read). So it's official, I'm a fan of this series and I hope another one will be released also.

The main reason for liking this book a tad more than the first book was basically the romance. I wasn't a fan of it in Spawn of Medusa but I loved the relationship between Ursula and Hercules. I was already a fan of Hercules back when I read the first book so I wasn't surprised that I ended up loving him even more.

At first I wasn't so sure about Ursula because in the first book she acted pretty crazy because of her devotion to Poseidon (that rat bastard...) but I quickly came to like her once Poseidon let her go on her quest. She seems to get her spark as well as a spine back once she meets and gets to know Hercules.

The thing that I like so much about these books is how the main characters (both in this book as well as the first one) are very flawed. They're not exactly nice people (though they're good deep inside) from the start. Ursula sets out hunt down and hurt Ambrosia because Poseidon tells her to but eventually she does the right thing. And of course I'm a huge fan of the Greek mythology.

So all in all, Prisoner of Poseidon was a book I thoroughly liked and actually finished in less than a day. I just wanted to know how it was going to end, I enjoyed it that much!

Outstanding! I love all her mythology books but this one might be my favorite - but only because I love anything ocean-themed. Highly recommend!
