Blackie

My name is Blackie, I'm the vice president of the Satan's Knights MC and I'm an addict.

I've been trading one addiction for another for as long as I can remember.

I make no apologies for my addictions, nor do I try to hide them.

Until my latest addiction threatens to destroy not just me but her.

For the first time I want to fight the need and not gravitate towards it. I try to deny it and not succumb to it but I'm a prisoner to her purity.

I'm Satan's soldier, a demon dressed in leather.

She's an angel, innocent and full of light, she's my lace.

Leather.

Lace.

Me.

Her.

A temptation so lethal neither of us may survive but, every demon craves an angel.

Guide me to the light.

Take me from the dark.

Give me back my life.

Let me share yours.

They are the selfish words of an addict and they are my truth.

Lacey Parrish

My name is Lacey Parrish and I have a secret, one I've tried to deny for a long time, one I've tried to spare the world from.

I am a manic-depressive.

Just like my dad.

Some days I'm high on life.

Most days I try to escape it.

People think they know me, they think they see me but the truth is no one knows who I really am. No one sees the real me... a broken girl with a mind that betrays her.

Except Blackie.

He's my savior, the man who silences my maker.

He's my knight in shining armor, the man who puts my life before his.

He's my leather and I'm his lace.

Two broken souls that have the power to heal one another.

This is our story, an unapologetic tale full of temptations.

A love story called Leather and Lace.

"You can plan your whole f***ing life, but it just takes one thing to change the course you're on...and sometimes you think it's the end, but the end of something is the beginning of something else."

Lethal Temptations is book five In the Tempted Series by Janine Infante Bosco. it is an MC romance and can be read as a standalone.

"That was the night I claimed her. In my dark world of self-destruction and mayhem, I selfishly took Lacey, branded her mind, and I continued to brand her and mark her with my actions and my words."

Blackie and Lacy have had a brewing and forbidden romance for some time. They are both flames easily ignited, and when they come together they burn down anything in their path. Both of them have so much to gain and lose in one another, fighting to find themselves and keep out the dark.

"This world needs you in it Lacey, you make it beautiful. You're the light that makes a man want to crawl out of the darkness he worships."

I have absolutely LOVED this MC series by Author Janine Infante Bosco. I knew from seeing Blackie in previous books that his story was likely to cut me deep. However, I never imagined that the deepest gash on my heart would be a result of Lacey's secrets and inner demons. Her fight was constant and without reprieve; I had no idea. Her struggle intensified in reds, grays, and blacks, fading out the light of her own existence. It was overwhelmingly intense. Just as profound was the struggle that Blackie had as he wrestled his past, trying desperately to find hope for the future. In the midst of a bruised but beautiful love story, Author Janine Infante Bosco gave a parent's perspective on watching as your child grows up and comes into their own. It was a side of Jack Parrish I had not fully seen and showed his love and vulnerability for his daughter. This ride with Satan's Knights was emotionally propelled, but gave the sweetest victory and a great escape into their MC world.

Sammy- Just Let Me Read says

Janine Infante Bosco completely blew me away with Lethal Temptations, book 5 of the Tempted series. This book absolutely tore me into pieces before putting me back together again. Bosco weaved a truly heartbreaking and emotional tale with Blackie and Lacey's story, one that will stay with me for a long time. She tells a story of struggle, redemption, forbidden love, and best of all, hope. This wasn't your typical story of two people fighting against the odds. There is forbidden love, and then there is Blackie and Lacey. These two had everything stacked against them, and the journey they took together was tumultuous, yet heartbreakingly beautiful.

"They say everyone has a soulmate. And his broken soul belongs to mine."

This author always does such an amazing job with character development. She doesn't just tell you about her characters, she makes you feel for them, laugh with them, and cry with them. Blackie and Lacey both had personal struggles that they battled in their own way, and I felt for both of them as they tried to push through them. We were given glimpses of Blackie and Lacey in the prior books, but I had no idea how deep both of their inner turmoil ran until I began reading their story. Blackie was a man with a tragic past, someone who struggled immensely and still continues to struggle. His entire existence is consumed with guilt, and he feels

that the last thing he deserves is someone as pure and innocent as Lacey. He tries to distance himself from her, believing that he would only taint her goodness by being near her. He punishes himself with the lifestyle he leads, and finds himself disintegrating further with each passing day. Reading about his past and what brought him to the point he is at now was so heart-wrenching. Through all his pain, Lacey was his only source of light.

"When she smiled at me, when she laughed with me, I felt like fighting instead of quitting, living instead of dying."

Lacey completely stole my heart from the first time she was introduced in this series. She had her own demons to fight against, and unlike Blackie, who wore his pain on the surface for the world to see, she hid hers beneath a bright smile and cheerful demeanor. She felt a connection to Blackie that was undeniable, as he was the one person who saw the real her.

"He's the only one in this world who has the power to see me and accept me. He'll take me any way I am. Imperfections and all."

I can't remember the last time I rooted so hard for a couple to make it. The tension between the two of them was so palpable that as the reader, I could feel it. They shared a connection that their circumstances could not break. The two of them were so different, yet so alike, two fractured souls who needed something to make them whole again. The author did a great job in creating a strong bond between Blackie and Lacey, a connection that went beyond the physical into something deeper, more intense. Between that and their scorching hot chemistry, the intimacy between them was absolutely explosive.

"Leather. Lace. Me. Her. A love story no one saw coming but one that was perfect."

Bosco tackled the extremely difficult subjects of addiction and mental illness with accuracy and believability, a feat that is hard for many to accomplish. Through stellar storytelling, she wrote about two people who fought not only for each other but for themselves as individuals. There were so many heartbreaking moments in the story, but there was always the hope that the light would overtake the darkness.

As with the other books in this series, the author created a storyline in Lethal Temptations that was both suspenseful and emotionally captivating. I love the way she balances the action and romance, giving you just enough of each to create the perfect story. The writing was fantastic, leaving me hanging on to every word and wanting more even after reading the final words. This series is an absolute must-read, and I will miss all of these characters so much.

Review

It goes without saying that right from the moment he first made an appearance in this series, I was looking forward to Blackie's story. Knowing right from the get that there was one there. A heavy one no less, just based on the tidbits we were given throughout each individual story.

What I wasn't entirely sure about, was who the woman would be that would change him. Bring the man so drenched in darkness, back from the brink and more than that, back into the light where god love him, he deserved to be. At least, I didn't know at first.

If you've read any of the last three books, you'll figure it out real quick just who it is and just how much shit it's inevitably going to cause. How forbidden it is even if it just plain works. If it makes sense. Forget about ages, forget about who Lacey Parrish is, or even who Blackie himself is. Put all of that away and just look at these two incredibly resilient yet bruised and damaged people and you see very quickly just how right they are for one another.

At least that's how it was for me.

This series, it's incredibly moving and there are a lot of heavy and darker aspects to it that just pull at you emotionally, but this book, well, I'm pretty sure this one takes the cake. I've been privileged enough to see the author incorporate and bring to light serious real life issues in previous books, but no one does it quite like this one.

Not only are we staring down the very real face of addiction (in its many different forms), but we're also thrown straight into the mind of someone dealing with mental illness. But where that has already been touched on before with Jack, you're seeing it manifest itself this time in Lacey. In a different way with a much younger person.

I had to take many breaks reading this story, which up until now, wasn't an issue I faced with the others and here's why. Lacey, especially in the beginning, but even more so the deeper you go into the story and the events that take place...it was heartbreaking. You see instances in a very young version of herself where the illness (her maker) takes over. Where it's born and you see the result of it and every single time the focus was brought around to the guilt she feels, the tremendous pressure she put on herself for a situation that at such a young age she had no real control over, well, it broke my heart. It made me cry and I needed a break, multiple breaks because it was just that raw and real.

As someone that has been diagnosed with a mental illness, and has also known many people in my life that are also living with it on a day to day, this spoke to me so much and the author earned my respect for dealing with such a sensitive issue in such a real way.

Which brings me to the other real issue she handled and earned my respect with. Blackie. The fight he has his with demons, with his darkness and the light (in Lacey) that just refuses to stop shining on him. It wasn't pretty and a lot of times, it made you sick before it made you better, but that's what I enjoy most about Janine's stories. They aren't all candy colored kisses and rainbow shooting unicorns. You're getting real people, in some very real (albeit out of this world) situations who react in ways that are very organic, even if they aren't the way you think you'd act if in the same situation.

But through all that darkness (and the freaking Bones references I lived and cried through again...thanks for

that by the way author lady), I pulled something else from this story. I experienced hope. I experienced what happiness looks like when you make it out of the war of your body and mind, and I experienced love. Lacey and Blackie, even though their journey was not an easy one by any stretch of the imagination gave me that.

And it's those things that I will take with me most now that the story is done. It is what will stick with me long after the final page is turned. You're never truly stuck in the darkness. Sometimes, just sometimes, all you need to do is turn on the light. I'm so glad I got to be a part of Lacey and Blackie doing just that.

My thanks to the author and all others involved in letting me read an ARC of this beautiful story before its official release. This is one that will stick with me always.

ARC provided by the fabulous author in exchange for my honest review. Thank you, Janine!!

I remember stumbling upon the first book of Janine's that I read, *Pieces*. It was then that I immediately fell head over heels in love with her writing...her characters...her series. I laughed, I cried (I mean, I BAWLED my damn eyes out), I got angry, I fell in love.

Then, Janine went and decided to give me (well, us as readers) more. She introduced us to *Illicit Temptations*, the first book of *The Tempted Series*. Not only did I fangirl, I was so ecstatic to feel such a crazy connection with the book. This was real. This series developed, giving me MORE characters to fall in love with, more sitting-at-the-edge-of-my-seat, more in need for a tall glass of water to cool down after reading some of the hot ass scenes that I just finished reading.

Then it continued. Book after book of the series, I just kept being amazed and in awe of what was going down. Each character (from our misunderstood bad boy H's and our take-shit-from-no-one h's) pulled out your heartstrings. Each story captivated and devastated your heart. You got major feels and the emotions that swirl through you sometime made you take a seat back for a reality check.

I am an avid reader. I know the difference between real and not. I know when an author is feeding us farce romance and when they make our minds work for it.

This.
This is what Janine does.
She makes you question every chapter in her books. She makes you second-guess your support of a developing relationship (do it...don't do it...wait, f**k it, JUST DO IT!!).
I mean, I have been through it all throughout both series!!

Michael & Nikki...
Anthony & Adrianna...
Jack & Reina...
Riggs & Lauren...(yes, I play favorites and these two were my heart).

I was ready, then not ready for the next two...Leather & Lace...Blackie & Lacey...

Their story tap-danced on my heart. At one point, I felt my heart physically ache for them.
I wish I could put my arms through my e-reader and physically hug Blackie.
I wish I could physically be there to help Lacey see that everything she felt and saw was not all in her head.

This story was so beautifully woven together, carefully crafted and delivered with love. Chockfull of curses, realistic illnesses and addictions, conquerors of true love...I mean, there is no way in HELL you won't find yourself engrossed from page 1.

I want to quote so hard right now in the review, because there were so MUCH material provided that made you say "damn"! But, I'll save them for after the release date. ?

And my heart kind of hurt a little when I started to think...is this it? Am I not getting more the Pastore's & Satan's Knights MC???!

But, it's always crucial to read a book from the first to last page – always.
Because there is a **BANGER** coming our way (for those that have been on the up-and-up of this series)!!!!

It's not over just yet.

This is an amazing series and I suggest that you read the initial book (Illicit Temptation) for a limpid vision of this author plot(s). She have maneuver each story to intertwine with subtle precision where two lost, damaged, restless soul seeking an outlet from past pain(demons). Dominic "Blackie" Petra is the vice-president of the Satan's Knight MC lost his wife (Christine) to an overdose of drugs and took her death as his responsibility due to his addiction. Lacey Parrish is the daughter of Jack " Bulldog" Parrish, president to the Satan's Knight MC and his past was presented in the previous book of his dilapidated mind set and due to his action, Blackie was the baby-sitter of Lacey. She always has a crush on Blackie and was forbidden fruit to the MC group but line was crossed and emotions was high. However, as in any relationship blooming amidst the fictional biker lifestyle, there's always that fear that the biker can not be tamed... and the female counterpart will end up emotionally shattered especially since she is fighting her own demons (her brother death). And I love that. I love that angst, that uncertainty, the potential for pain. Janine delivers everything I love in this story, and hits it home even harder than she has previously. The story is utterly unpredictable, which made for a reading journey the likes of which we've not seen before in this series. I will not ruin your reading pleasure with telling the dangerous and intensified part but know that when the ending came I thought it was well played out and written well. Overall, it's an amazing story!!!! Pick up this book! It is a quick and easy read, but I guarantee it will be well worth your time and effort.

4.5 Stars

All of us would love a rewrite on certain aspects of our lives.
Have a do over.
Change a regret.

Some of us have that chance but many do not. But there is always a lesson learned.

Blackie and Lacey are striving for that rewrite. Two damaged souls, in different ways, who just want to be together.

Blackish is the VP of his MC and has had so much blood on his hands but the one he regrets the most is one that was close to him, his deceased wife. As any member of a kick ass biker club, he has seen his fair share of the life, a life that lead him to darkness. His escape, drugs and drink. His one light, his angel, Lacey. Someone whom he wants but feels undeserving.

Leather and Lace.

Lacey. The President's daughter. The one not to be touched. A soul who is fighting her maker from the darkness and her light is Blackie. What started out as a simple crush that turned into love.

Him and her.

A special song bonds them in a way neither thought imaginable. Giving them a glimpse of what makes them. Drives them. Makes them love. Brings them home. Home is not always a building but a heartbeat. You can hear their heartbeats so loud.

Of course there is some club drama, rival gangs stepping in their way. Causing chaos through this hidden affair. The main goal is to keep her safe. Whatever that may take. And it truly pushes Blackie to his limits. Go above and beyond. The only true person standing in his way is Bulldog, Lacey's father. Of course there are fillers I'm not filling you in on. Naturally!

This book ties in with the others and we get to see a forbidden love blossom in an unconventional way.

I'm a sucker for MC books and I like when there is a rugged man who oozes pure man (their dirty talk is seeing worthy) and then falling for a lady that makes their world spin off course and the realization of what they have.

Enjoy this gritty, rugged, rewrite of a ride!

"Two imperfect people. Perfectly suited for each other."

I really enjoyed this installment of the Satan's Knights saga. Blackie and Lacey's journey was certainly something to behold. They struggled against so many odds, I wasn't sure if *I* would make it out alive, let alone them.

Their forbidden romance was edgy and raw, just like the characters themselves. Both Blackie and Lacey had to fight their inner demons in order to really give the relationship a chance. There were moments I really

believed it wouldn't happen. I worried for both of their health - mental and physical - as they battled against everything and everyone that threatened them.

These two characters are so freaking deep, it cuts me. Their inner turmoil is downright depressing at times, but don't worry, while Janine drags you down into depths unknown, she always gives you a breath of fresh air to keep you going. If you could see the roller-coaster track for this book, I'm pretty sure some of the track is underground, it's so deep. However, the highs, lordy those highs are amazing. Actually, the lows are too - a testament to Janine's talent.

I'm gonna say, there were a few scenes I skimmed. It was the third time for a couple of them, and other than wanting an idea of how this particular character felt during the moment, I'm not the type of reader that finds re-visiting things easy. And the theme was repeated more than once, and that distracts me from the story. I'm an ADD reader, so this probably won't really apply to most of you.

When it comes down to it, Lethal Temptations is a beautifully written, deeply moving journey of two broken people that just need each other to heal.

Sybil aka Lala says

This isn't my first rodeo with Ms Bosco and her rugged men so I've met Blackie and I've met Lacey and I just KNEW that Lethal Temptations was going to be an intense and emotional journey. I knew it was going to be harsh and violent and shocking. I knew I was going to fall hopelessly for the broken Blackie and Lacey with all her secret pain. I knew that the two of them were going to be SO impossibly beautiful together. I knew this book was going to kill me. But I was wrong. This book didn't just kill me. I got motherfucking slayed!

I adore this series. It is without a doubt one of, if not THE best MC Romance series I have ever read and yet I want to go back and give all the other books in this series three stars (OK maybe not Reckless Temptations because Riggs is my man) because I need some way of showing everyone that Janine Infante Bosco has outdone herself with this gorgeous story of two people in pain finding their way to each other and creating something beautiful out of all the wreckage around them. Leather and Lace. GAH!

Blackie, dear god in heaven, Blackie. Who knew a junkie could make you swoon? He is so unbelievably sad and carrying so much guilt and watching him wage a battle everyday just to get out of bed had my heart shattering on the floor. The love he has for those he calls his family and the desperate need he has for Lacey made me want to hug him close and tell him that everything was going to be OK. His filthy mouth made me want to hug him close for entirely different reasons however.

I don't want to give too much of this book away but just know that it is a difficult journey for them and there will be violence and there will be blood. There will be moments that shock you and there will be moments

you'll want to rage against it but there are also moments that are so beautifully heartbreaking that you won't be able to put this book down. Don't worry though, because there is still plenty of humour and things that will give you the warm fuzzies all over. I just need everyone to meet Blackie and Lacey. I cannot recommend this book, and this entire series enough!

2.5 Stars.

Wasn't as sad as I was anticipating.

I didn't fall in love with either character.

I felt for them but I wasn't invested.

There was a little too much club stuff and not enough of them together.

Cute epilogue.

I absolutely LOVED this book! Janine Infante Bosco is AMAZING! Her work is absolutely incredible. This story deals with drug addiction, alcoholism and manic depression. Blackie and Lacey. Leather and Lace. He's the VP of the Satan's Knight's and she's the president's daughter. They aren't supposed to be together. They aren't supposed to fall in love. This story is just incredible. The character development is amazing. You can't help but feel their pain. This book will tear you apart, but it will put you back together again too. 5 Phenomenal Star's

I was looking forward to this book so hard from book 4, I felt for Blackie in that book he just seemed like the tortured soul in need of tender loving care.

This book deals with some really heavy issues, drug addiction, alcoholism and mental illness.

Being as I am familiar with depression, it was hard reading about how hard these character deal with their own demons. But it's such a beautiful story you can't help but want them to pull through all the hard anguish.

This book also connects with the others but if you don't read them that's ok because they truly can be read as standalones but I myself am so glad I choose to read them all and got caught up.

Blackie is not only battling his drug addiction, his alcoholism. But he is battling his head but his heart to for the girl he knows he can't have. But just might be the only person who can help him be the man he has always wanted to be for her. But he has so much grief and guilt; he his head won't let him be free.

"She is my savior and my assassin." - Blackie

'Fight

For Her

Stay in the game fight for her.'

Lacey oh how I love this girl, she knew from an early age who she wanted, even if she didn't know what "it" was. At 10 years old his smile captivated her. At 15 years old his sadness called to her.

She herself is fighting two battles one with her head and one with him. She also tries to get him to see her as more than just his President's daughter.

Her demons try and break her; her guilt tries to break her. This book broke me! But don't fear it put me back together too.

It's a push and pull of their hearts and their souls; it's as if they are one half of each other's souls. They are bound to end up together for better or worse. And sometimes you have to get through the worst before you can have the better.

"Wake up and I'll be yours." - Lacey

"I am silent. Because in silence there is hope." - Lacey

I truly have no words to express how much this book has affected me in so many good ways. I want to shout from the roof, READ THIS BOOK. This is one of those books that is going to stay with me for a long time.

I was originally going to wait and write this review tomorrow after I had time to process but this story has been nonstop spinning since I finished.

Lethal Temptations follows the forbidden love story of Blackie, VP of Satans Knights MC and Lacey Parrish, daughter of Satan's Knights MC president and MC Princess. This story is so emotional. We finally learn why Blackie is the dark broken soul he is and how he finds his angel in Lacey.

Leather And Lace

While Lacey struggles with issues of her own, she unconditionally loves Blackie while trying to pull him back from the brink of death.

Very well written touching of sensitive subjects such as substance abuse and mental illness, 5 LETHAL STARS to Janine Infante Bosco for giving me Blackie and his scarred soul

Leather & Lace... Temptations... Addictions... Forbidden Love... Lethal Temptations is the 5th book in the Tempted series by Janine Infante Bosco. Set over the timeline of the past two novels in the series and going beyond, Lethal can be read as a standalone but it would be better enjoyed if read in series order.

Dominic "Blackie" Petra, vice president of Satan's Knights MC, has demons following him we can only dream of in our worst nightmares. Haunted by the loss of his wife, addictions to numb the pain and tormented by the idea of bringing someone else into his hell hole of pain, Blackie has isolated himself even from his brotherhood. His light, an angel, someone who's always been around and loved him even at his lowest but does he see her? Lacey Parrish, daughter of Satan's Knights president, might be young in age (19) but has felt a lifetime of pain and torment. Fallen in love with a man much older than her, unattainable, and broken now all she can hope is he see's her for who she really is. Darken by her own demons can Lacey hold them at bay to bring them both into the light?

I've been addicted to this series since the start and I've been waiting for this book for what feels like ages. Leather & Lace. Blackie & Lacey's story is heartbreaking, soul searching and emotional ride that I knew would break me. Lethal Temptations not only broke me but also rebuilt me, piece by shattered piece. A knight and an Angel. A tragic love story with light at the end of the road. Janine is amazing at what she does and this felt like a master piece. Thank you for bring us these characters and this story. By far Lethal Temptations one of my favorite books of 2016. 5 Massive Stars...

Blackie is the vice president of the Satan's Knights MC. He has been battling addiction most of his life. After losing his wife, Christine, to an overdose, his life is never the same. Upon her death, he made Christine a promise to kick his drug habit once and for all. So far, he has managed to stay off the drugs, but now his problem is with the bottle. He thinks that if he just gets drunk enough, his pain will go away. Of course, it doesn't. The pain is always waiting for him when he sobers up. For a long time, he didn't have a reason to stay sober. Until Lacey. Lacey is the light in his darkness, but she is fighting her own demons. Can these two overcome their demons together, or will it all be just too much for them?

I really enjoyed this book! It is gritty and raw. It is two broken souls searching for love and peace. I thought that Blackie and Lacey for perfect for one another, and I really wanted them to find their happily ever after. Great book, Janine Infante Bosco!

Deanna (A Novel Glimpse) says

The *Tempted* series had me on the edge again with its newest book, *Lethal Temptations*. In this book, we get Blackie's story.

Blackie is not just any member of the Knights MC family. He's the VP and the President Bulldog's right hand

man. He's had his problems with drugs, but the loss of his wife has kept him clean for years -- all until a business deal gone wrong sends him spiraling back down into a haze of drugs. On his way down, he makes an incredibly bad decision. He sleeps with the one woman who's off-limits to him: Bulldog's daughter. One time with Lacey just isn't enough. She's like the drugs he can't quite quit.

Lacey may still be a virgin, but she's all grown up now. And what she wants more than anything is Blackie. He may be a couple of decades older than her and her dad's best friends, but he's the one who makes her world better. He makes her happy. She's willing to do anything to have him, even if it means hiding her relationship from her father.

Janine Bosco Infante sets up her stories in a very cool way. I always love how she lays out her plot for the reader. Rather than just another biker love story, you get a look into the Knights MC's inner workings. Equal time is spent on both the romance and what's going on with the gang. It makes the story so intense and fun to read.

Blackie was a very interesting character. His demons ran deep and he had a very hard time dealing with them. He also had a ton of guilt he held onto over his dead wife, Bulldog and Lacey. The guilt helped feed his addiction. It made me sad to see how much he let drugs take over his life. Without them, he was such a nice guy. He would have done anything to protect Lacey. I loved reading about him and all of his experiences.

Lacey, on the other hand, wasn't my favorite character. I think it was her self talk. I know it was supposed to help the reader to understand her mental health issues, but it fell a little flat for me. I couldn't stand how she referred to "her maker". I do have to applaud Infante Bosco for doing a great job dealing with depression, drugs and mental illness in her story.

Even though Lacey wasn't my favorite character, I did like her relationship with Blackie. They truly brought out the best in each other. And, dang!, the sex was hot! Their relationship made for a very entertaining plot.

I would recommend *Lethal Temptations* to readers who like a romance with a lot of intensity and don't mind violence.
