Francis J Mallalieu says

Editing is the absolute pits!!!

I love the stories. Each situation is unique and yet familiar. I like the additional characters that are being introduced on a continuing basis. It adds depth and a fresh dimension to the ongoing storyline.

HOWEVER! The editing has to be done better! At present it is the pits! With the atrocious grammar and pathetic editing, at times it is almost impossible to read and understand what is happening. Use Grammerly if you have to. Anything to bring the editing up to scratch, please!

Norman James Bennett says

Keeps you wanting more

Four stars because it does get slow and repetitive at times. Looking forward to seeing how the author digs his way out of the current hole.

Voyne says

Over and over again.

Same old same old just different chapters meaning still interesting and hoping continued reading is worth it.

Shhhhh Ahhhhh says

The way we're seeing the battle meld pan out is interesting. I'd be interested to see how the trail blazers stack up against modern human equivalents in the dino empire.

Also, surprised no one has questioned the original planet their species came from yet.

Also, waiting for some interesting developments from the preservations for species that are no longer being used for meat.

Boring battle sequences except for the fact that we see more Star Force losses than we have before. Guess that author is trying to dig us in deep emotionally for a hammer blow of some saving tech in the next

installment.
