How do you rate a school book? Very informative? This book did have some helpful sections that I could use now and in the future. I need to take two classes in order to promote in my department. So one down, one to go.

Kelli-ann says

For a textbook, I really like this book. It had a lot of information that was useful beyond the subject matter, including paralegal profiles in every industry discussed, ethical issues, a skills to know sections, websites, and much more. I think this is a text I might keep to use a future reference.

The writing was very clear and concise. It did not deviate with "however" and exceptions. It was easy to understand and follow the subject matter.
