Ghost Walk Cassandra Gannon

Grace Rivera just wants to be normal. She's the only member of her spell-casting, fortune-telling family who isn't hunting unicorns or trying to discover the lost recipe for Troll Powder. Trained as a crime scene investigator, she believes in science and cold, hard facts. And right now, the cold, hard facts are telling Grace that she's lost her mind. It started last July, when she "hallucinated" that she traveled back in time to relive a crime before it had even happened. Her resulting breakdown cost Grace her forensics job, so now she's stuck working as a tour guide in her Revolutionary War themed hometown. After a year of rebuilding her life, she's finally convincing herself that she might just have a chance to be normal, again. ...Until a handsome, sarcastic, and really real seeming ghost shows up on her Ghost Walk, anyway.

Captain James Riordan was unjustly hanged for murder on July 4th 1789. Ever since then, he's been haunting the streets on Harrisonburg, Virginia, trying to find some way to clear his name. Unfortunately, it's impossible to prove his innocence as an incorporeal ghost, so mostly he whiles away his un-life watching teen soaps on TV and tagging along on Harrisonburg's nightly Ghost Walk. The tour is supposed to tell visitors spooky stories about the historic town. On this particular night, though, there's a new tour guide leading the group. She's terrible at waving scary tales. She looks like a Sunday school teacher. She's spreading slanderous lies about him. ...And she's the first person in centuries that can actually see him.

Now Grace and Jamie are working together to solve a two hundred year old crime. From the eighteenth century and back again, the two of them are determined to clear Jamie's name and set history right. Even if it means some time-traveling forensics work. Even if it means Grace has to listen to Jamie lament his lost pirate's treasure (a lot) and Jamie is frustrated because he can't physically touch the one person in the world he's sure is his. Even if it means dealing with Grace's stalking ex-boyfriend, her crazy relatives, and the Rivera's lost recipe for Troll Powder. ...And especially if it means a scoundrel of a ghost and girl who just wants to be normal somehow fall in love along the way.

I always expect the best from C.G.
and she never disappoints.

Boring tour guide Grace with a not-so-boring background gets harassed by a tourist on one of her "Ghost Walk"s (sightseeing tour). She tries to ignore him, and is up for a surprise when she finally talks to him. Pirate Jamie was lynched 200-something years ago for murders he did not commit. It rails him that history makes him out as the bad guy.

Grace and Jamie try to solve the crime that was committed more than 200 years ago.

I enjoyed the story line, even if the repetition ("I have to be normal" / "I am a ruthless pirate") wasn't necessary to fill up the book. I started to feel quite patronized by the author if she assumed that I did not get the point.

Nevertheless the dialogs were witty and the romance convincing.

As typical for Cassandra Gannon's eBooks: nobody seems to proofread those, there are words left out in the sentence structure on almost every page.

Unique paranormal romance!

I really enjoyed this book! I just wish the ending was a little more dramatic... I had a general idea of what was going to happen from about midway through the book but I could have imagined up a different ending involving reincarnation... Which would have been tragic but equally as romantic I think.

this story is more entertaining than Cassandra Gannon's last story that I read. You can meet time travel's story and hilarious love story.

this attraction vibe's between Grace and Jamie is the same with . Jamie knew for the first time he met, Grace is the woman who will become his wife. but, how can he convince Grace that she belong to him, while he was a ghost ?

fortunately, Grace has time-travel ability in specific circumstances. how they interaction, especially when Jamie show his possessive side.

I really enjoyed this, the characters are great and the writing is so funny.

This book had pretty much everything I could want in a book. Definitely is going in my favorites. Her humor, as always, is on point. I just hate waiting for her releases. If she could cut off all her friends and relatives, and become a writing hermit- that releases something every week, I might be satisfied. But alas, my husband tells me that that is unreasonable.

Elaine says

Nice, easy read. Nothing special in a good or bad way.

How does Cassandra come up with these story lines?

As always Cassandra wrote a very creative book. Things that you would never think about. Many laugh out loud moments. A very enjoyable read and of course, full of adventure !

With all her books that I have read, the author makes the unrealistic still super fun to read and into a great story. She even makes the instalove work when I normally hate it. Not sure how she does it, maybe with such great characters and dialogue and quiriness. A little bit cheesier than the other stuff I read of hers, but great concept! Love the idea of such a magically quirky Rivera family!
