Dark Treasures Sergio Gomez

Don't be afraid of the dark. Sometimes there's treasure in it.

A shunned clown with a murderous plot fueled by jealousy, a hungry creature living in the sewers of a small town, a haunted board game that pits friends against each other in a game of life and death, a grim spin on a childhood tale, and four other stories that will grip you and won't let go until the last page.

Maria Coro Arruti says

Let's say that I was expecting more Dark and less Treasures. I'm not much of a fan of short stories and this book is an example of why not. But it is not a bad book, just very simple.

Kay Oliver says

What a collection, truly something for everyone. Could use a thorough edit, but otherwise very enjoyable.

Nikki says

This was a perfect read for me when I didn't have time to get involved in a full novel since it has about 8 short stories. I found that every single one of them did not disappoint at all. You just never know where the author's mind is going to go with his writing which makes each and every one of these tales a mysterious and unpredictable delight. I found some scenes were brutally cringe-worthy to read. I was having to pull my eyes away from the pages just the same as I would pull my eyes away from an intensely bloody or gory scene in a movie. And no one is off limits for this author which keeps you on your toes. You never know exactly which way the stories are going to go.

I enjoyed each and every one of the stories, but I did enjoy some of them more than others, which of course is expected. I think the Red Riding Hood retelling was my favorite, but I do love a good fairy tale retelling, especially darker ones. The Board of Doom was another of my favorites which felt like Jumanji but set in medieval times. My other favorite was Pills which left me begging for more!

These unique and intriguing dark stories will be sure to stick with you. Be prepared for some of the tensest cliffhanger endings that leave you breathless as you realize that there is no more, shocking you to your very core.

Crystal says

Received this book from the author awhile ago. Thank you. This was just an okay read for me. I will say that with it being 8 different stories, there is something for everybody, esp. if you are a horror fan.

Ashley Sartorius says

I really enjoyed this book. Quick read with 8 different stories. All very creepy and amazing. Each story has a different awe in them. If your looking for a book that's a quick read and you like horror. This is the book to grab.

Michele says

Creepy

This book is very creepy. I think Sergio Gomez is my new go to writer. I haven't been this creeped out by a book in a long time.

Annette Jordan says

A dark and disturbing collection with a little something for everyone. Whatever gives you goosebumps or causes the hairs on the back of your neck to stand up, chances are you will find it here. From killer clowns to armies of rodents, mysterious sewer monsters to demonic board games , anything can be disturbing in the right hands, and here the author uses talent and skill to create a collection that is worthy of its title. Personal favorites were Big Bad, an unusual take on the story of Little Red Riding Hood, and Pills, a chilling but compelling story of desperation and addiction.
