Buckle Up: Episode 7 Karen Botha

Fast cars, testosterone and money. What can go wrong?

It's race day and life changes. Will their love survive the rocky road ahead?

Follow Elliott and Kyle as their romance hots up at racing speed, but is there a blind bend ahead?

With passion, testosterone and way more grease than is proper, all mixed with a healthy dose of fast cars and racetracks, you'd better buckle your seat belts for the ride of your life.

Karen Botha is also the author of the Naked Series of erotic romances. Buckle Up is her second series, a set of sexy love stories which are written and launched in short form. If you enjoy Ella Frank, then you'll be sure to love Buckle Up, plus, it's free on Kindle Unlimited.

A note from the author:

My readers were asking me to write way quicker than a girl has the fingers for and so I thought I'd try something new. This is a series of shorts, which I release as I write. You can download all individually, or if you prefer to wait, then I'll bundle them all together into a novel once they're complete. Hopefully this will help satiate the appetite of every reader.
