Jake Juliette Jones

Jake Wolfe has a dark past and a criminal record. At the age of 27 he thinks it might be time to put all that behind him and make a fresh start. But when a strawberry-blond chef who looks like an angel serves him a slice of her warm apple pie, he notices an unmistakable bruise around her left eye and knows exactly what caused it. Can Jake handle this new obsession and control his lust long enough to save her without destroying her?

Sugar Malone spends every waking moment cooking, baking and working to make her new restaurant among the best in New York City. But when her mother's fifth husband becomes abusive, she runs – literally – straight into the arms of the gorgeous dark-eyed stranger who could turn out to be either the devil or a saint. Is Jake Wolfe the dangerous convict she's read about, or the white knight lover she never expected to find?

JAKE stars some of the same characters as the Billionaire series and Honey Girl but is a *safe*, sweet, sexy standalone. JAKE is an over-the-top alpha male fantasy. It contains insta-lust, insta-love, and a perfect HEA. No cliffhangers, love triangles or cheating :)

Coco.V says

3.5 stars. This story was an enjoyable sexy ride of a romance.

Jake Wolfe is a wealthy business tycoon with a dark past and a criminal record. Now at the age of twenty-seven he wants to put all that behind him and make a fresh start.

But Jake has his hands full these days as he got convicted of insider trading and been served a three-month home detention and fitted with an electronic bracelet. Someone framed him making airtight case against him and now he's hell bent to find out who screwed him over. Women love Jake and in his former life he used to be a player of the worst kind using his good looks and bad-boy persona to his own twisted advantage. After a while, tired to live this life, he just quit and since then he's been living a monk-like workaholic existence. He doesn't date and has been celibate for the last four years...until one day he stumbles across a sight which ignites a wild obsession and an all-consuming lust and love.

Sugar Malone is the proud and fresh owner of a new trendy restaurant in New-York. Her life is dedicated to her work, baking and cooking has always been her passion and her only goal now is working to make her restaurant among the best in the city. Her perseverance and determination paid off and she's about to achieve that dream but she's also in dire need of help to escape her abusive stepfather. Sugar's world is turned upside down when she meets Jake and in a matter of a few days he becomes her white-knight lover, her protector, someone she never expected to find.

Jake Wolfe is all you want in an alpha male with a heart of gold. Jake and Sugar were hot for each other and their chemistry was scorching. For the most part, this was an engaging read and a good escape into La-La Land but I could have done without the constant reminder that he was mister Super-cock-man. It made me roll my eyes every time it was mentioned. Also the little drama with Camille was too easily resolved for my liking. Overall, Jake and Sugar's story was fast, hot, and sugary sweet. The ending tugged at my heart, sweet and swoon worthy. If that's what you're looking for, this will fit the bill perfectly.

Carol [Goodreads Addict] says

Jake is book three in the Billionaire Series by Juliette Jones. This is the second book I have read by Juliette and I have to say I am more and more in love with her characters. Jake made me swoon, sigh and melted me into a puddle of goo. Yep, he was that good!

Jake Wolfe was a successful businessman, a billionaire. He used to be known as a player with a string of one night stands. But he hasn't bothered with women for years. He gave up on trying to feel anything for any of them. He is a broken man. His life is currently a mess. He's been wrongly accused of insider trading and sentenced to three months of house arrest. He vows to find the person that framed him. Until then, he is on a prolonged vacation from work. He and his brother and his brother's fiancée are going out to dinner at a new local restaurant when his life was literally tilted off its axis. As soon as he saw her he knew she was meant for him. But she was like a ray of sunshine and he couldn't shadow her with his own darkness. He had to

stay away.

“I’m completely star-struck. Riveted by her luminous perfection and her golden glow.”

Sugar Malone found at an early age what she was good at, baking pies. It’s been her life long dream to open her own restaurant. Sugar’s has been open for a couple of months and it is flourishing. People come from everywhere to taste her pies. Sugar’s life hasn’t been easy either. Her mother goes from one husband to the next so eventually Sugar ended up with her Grandmother. She was staying with her Mom and her current husband to save money while she opened her restaurant in New York until her step father made an inappropriate advance to her which left her with a black eye. Now she sleeps in her office at the restaurant.

When Jake has finally given up on trying to stay away from Sugar, she literally runs into him on the street. She needs saving and he most definitely wants to save her.

***“I’m not usually the kind of girl who needs rescuing.” I tell him.
“I’m not usually the kind of guy who does the rescuing,” he says.
“But this time it’s different. This time everything’s different.”***

Jake...my oh my, Jake! This man puts a new definition to the term alpha! He knows that Sugar is what he has been waiting for all his life and he will have her! The entire book goes back and forth between Sugar and Jake’s point of view so we are able to get into both of their heads. The book was the perfect combination of super sexy times, sweetness and even a little suspense. Was Jake over the top? Oh yeah, he was and I loved every second of it! I haven’t read the previous book which is his brother, Alexander’s story but now I definitely want to. I could not put this down. I absolutely loved it and I can honestly say that Jake will be in my head for awhile. Juliette Jones has definitely made a fan out of me!

“I want to be her rock and her savior. Her lover and her soul mate. Because it’s happened, just like that: what I thought never would. I’ve fallen. Hard and fast and deeper than I ever thought I could.”

3.5 - 4 Stars!!

This was my first read by this author and to be honest I really didn’t know what to expect. ‘Jake’ is the third installment in Juliette Jones’s series entitled “Billionaire Series”, can be read as a standalone and despite all the instas I quite enjoyed it. Juliette delivered a sweet and sexy tale with an endearing heroine and a sexy, alpha hero that will melt you in a puddle of goo.

Jake Wolfe is a successful business man with a dark past. He has a long list of criminal offenses, mostly minor things he did when he was younger. He used to be a player, mostly having just one-night-stands using women in one way or another. Right now, Jake's life is a mess. He recently got convicted of insider trading and sentenced to three months of home detention, so all he wants is to clear his name and find out who framed him. Sugar knew what she wants to do with her life since she was just a little girl – baking pies and have her own business. Four months ago, she moved to New York with some of her savings and a loan from her grandma, dreaming to open a restaurant. Now, she has a successful restaurant, everyone wanting to taste her pies.

Jake and Sugar meet in Sugar's restaurant, briefly interacting with each other, but they soon meet again when Sugar literally runs into Jake. She needs some saving and Jake is ready to do anything for her, even if she barely knows her.

"I'm a lonely, good-for-nothing sinner who's finally seen God. I'm a love-struck deviant who's finally found a purpose. I'm a hard-headed son of a bitch who finally understands what it means to have something to live for."

The story was interesting, pretty well written with two endearing main characters I really liked reading about. Jake was an awesome hero. He was loyal and caring with his loved ones and with Sugar was simply wonderful – so sweet, thoughtful and protective. He was an awesome alpha-male with a big heart, I really liked as the story progressed, even if at times he was a little OTT. Sugar was a sweet, caring and overall a likeable heroine. I liked the way he accepted Jake exactly how he was and how sweet and considerate she was about his past. Jake and Sugar's story was sexy as hell. I loved all the sexy times between them and also their passion.

What I would have wanted to be different was the little drama with Camille. I would have liked this aspect of the story to be more developed and I wouldn't have minded the story to have a little more angst.

Overall, *'Jake'* was a well done, fast paced story with two endearing main characters and plenty of sweet and sexy moments.

Find me on:

Bev says

3.75 stars

A syrupy sweet insta-love romance that had no angst, and if I'm honest I wish it did have some. Their relationship was just all too easy and convenient. But if you're after a quick read with a couple that are all in from the get-go with no drama then this is definitely one for you.

Gi's Spot Reviews says

IT'S LIVE!!!

Attention: this book is a STANDALONE and 100% safe (like I've said before the prequel isn't safe but since it doesn't exist for me nor portraits the couple, it never existed for me, LOL)

Jake proves to be the most perfect Hero, even more considering his tormented past! Sugar was EVERYTHING to him, and I could feel that love and devotion, as he was discovering all these new and amazing feelings for another being!

Kara says

Really liked this book, and will continue to pretend that there are no other books that will destroy my love for Jake. Because he doesn't exist before this book. Right? RIGHT?!

warhawke says

Genre: Erotica

Type: Standalone Book 3 of Billionaire series

POV: First Person - Dual

Rating:

Sugar Malone was living her dreams in New York. Coming from a small town, she worked hard in making her restaurant Sugar's, to be a successful business venture. Her delicious apple pie became the talk of the town and smitten her customers including one billionaire bad boy.

Jake Wolfe's life was going down the drain. After years of working hard building his career, his name was dragged to the mud when he was falsely convicted for insider trading. When he saw Sugar, he recognized the need to be her protector and determined to make her his, even as his future precariously hanged in a balance.

I adore Jake from the beginning. He was loyal and protective of his loved ones. I like how he took care of Sugar. I could use a Jake in my life haha! I also like his relationship with his brother.

Dark demons haunt me like sticky shadows that never go away, no matter how sunny the day

might be.

Sugar seemed too innocent at times, but she was also badass in her own sweet way. I like how she returned the favor for everything Jake did for her.

I want to be her rock and her savior. Her lover and her soul mate.

The story was interesting with a couple of major issues they had to overcome. I like how it was developed but not how it was resolved - a little too convenient. Oh, I also wish for more hot sex lol!

Jake is a story of a couple brought together in time of their needs and how they helped each other overcoming the adversity. It would appeal to readers looking for a light, sweet read with a more elaborate plot while still being fairly short.

Note: I think the book over emphasized the size of his cock with constant mentions of it being huge/monstrous/gargantuan/humongous/etc. lol!

4.5 stars

Yeah...I stayed up late after the kids went to bed to read this one.

This book starts back in his brother's book where Jake first meets Sugar and then goes on from there. It's been several months between that first dinner and when Sugar runs into him again. Sugar is running from someone nasty, and Jake steps up to protect her. Sugar is a virgin, and Jake's been celibate for years, but he has no problem remembering how to use a bed...a desk...a wall...a bathtub... On top of Sugar running from a nasty, there's trying to figure out who framed him and a crazy girl that needs to get a hint. Lots of his brother Alexander and new wife Lila. Beautiful epilogue.

Story Rating ~ 5 STARS!

Hero Rating ~ 5 STARS!

Heroine Rating ~ 5 STARS!

Heat Level ~ 4.5 SCORCHING STARS!

Ending ~ 5 STARS!

Overall Rating ~ 5 SEXY STARS!

I've been waiting a while to find out just what make's Jake Wolfe the man he is and I finally got all my questions answered. I first met and fell in love with Jake in the book *Taming Jake Wolfe*. I knew something deep and dark had happened to him to make him do and act the way he did. Juliette Jones did a SPECTACULAR job with *Jake!* I fell even HARDER in love with him! After all who would not fall in love with a SEXY WELL HUNG BILLIONAIRE with a dark past and a heart of gold?

Jake is SO tired of woman falling at his feet. He is tired of being stalked by woman who say they love him when they have NO idea who he really is. So he's cut off all his sexual behavior and has stayed away from all women for 2 years.

Sugar Melone has just moved to New York City. She has opened a restaurant where she serves up delicious

meals and her signature homemade apple pie. She has been saving herself for true love which she has not been able to find.

One day Jake along with his brother and his brother's fiancée decide to try the new restaurant out. All's it takes is one look between them and sparks fly.

It's a while before they meet up again and Jake appears just when Sugar needs him the most. Once again my love for Jake grows even deeper for him. He IS the perfect hero and he proves himself over and over as the story moves along.

While I felt Jake was the PERFECT hero, I also LOVED Sugar! By the end of the book, she too was a hero with her caring and gentle ways that she has. Just as Jake was there for her, she too was there for him.

The heat level and sex/love scenes were orgasmic! Juliette Jones sure knows how to pen some VERY SENSUOUS SCENES! I definitely felt them deep down in my core and LOVED every moment these two were together.

There was also a really good story-line added in that kept me glued to the pages, I just had to keep reading to find out how everything would turn out.

In the end there was a wonderful epilogue that concluded Jake's and Sugar's story in the BEST of WAY'S!

**Thank you Juliette Jones for gifting me an ARC of Jake to read and review! I LOVED EVERY WORD!*

Chantal ♥? says

4.5 HAPPILY EVER AFTER STARS

Before I begin my review of this book I will freely admit that I have NOT read the previous book with this hero in it. And if you have not done so, I would suggest not reading it. It may influence your feelings about this book or so I have been told. Also, you don't have to read it in order to enjoy this book as it is completely standalone.

This book I LOVED IT!

It's the story of a reformed man whose name is Jake. He is 27 years old and an investment stock exchange broker that has been wrongly convicted of insider trading. He enters a restaurant to meet his brother and his new wife but instead he falls hard for Sugar an innocent pie maker/restaurant owner.

For him, Sugar is an angel and far too good and pure for him! He thinks he is too broken and unworthy of her. Therefore, he tries to stay away!

And for a few weeks he was able to do this but his feelings ran too deep and honestly after 4 years of abstaining he wanted to get himself a piece of her pie!

Yes, He had a slice and now he wants the whole pie complete with pie maker.

Now we come to the heroine our sweet Sugar who is 23 years old red head, who loves to bake and wants to make the world a sweet place. She was raised by mostly her grandmother who lived near a peach orchard and showed her how to bake.

She comes to live with her mother and her new husband in New York. She is trying to make enough money to help her grandma renovate her home.

Also, to assert her independence and start on her own life as a baker/restaurant owner.

She was not prepared to meet Mr "HOT" gypsy or a roughed-up Ralph Lauren model who'd partied too hard, with his brooding looks and killer body."

She has her own issues with her new step daddy trying to get her into his bed by any means fair or foul!

He is just not above anything, including rape and/or blackmail.

Lucky for Sugar she knows how to defend herself and finds herself running straight into Jake's arms.

He wastes no time taking control of the situation and helping her with a place to stay.

She tells him:

"I'm not usually the kind of girl who needs rescuing," and he says

"I'm not usually the kind of guy who does the rescuing, But this time it's different. This time everything's different."

The connection they feel for each other is real and frightening to them both.

Jake was looking for his HEA and she had given up on ever finding it.

How will they find a way to make it work!?

Jake finally takes a chance and tells her:

"Aphrodite Calliope Diana Penelope Malone, I've known you for exactly twenty-seven days. I've spent fifty-two hours with you. And I'm in love with you. I'm a fucked-up mess, but I've never felt as good as I feel when I'm with you. I'll do anything to keep you."

I totally enjoyed this book and would recommend it to anyone looking for a sweet fairy tale type story complete with the *"and they lived happily ever after"* at the end and an EPIC EPILOGUE!

I LOVED THIS WHOLE BOOK!

It was the perfect combination of sweet with heat!

AMAZING!

Safety: this whole story is complete safe from cheating, some OW/OM drama but that was not happening for either the hero or heroine, condoms discussed but not used. POSSIBLE TRIGGER WARNING

(view spoiler)

Also, I want to thank my Goodreads friends who told me about this book and the author JJ for giving me an ARC for me to enjoy and review.

THANK YOU!

Deborah says

3.5 to 4*

Wow I loved most of this book and while I'm not really a fan of insta-love here it worked and fit right in. Jake is twenty-seven years old and he's had a tough life, he has a juvenile record and looks like a bad boy but he's reformed, he's pulled himself up with the help of his brother Alexander and while he may have had to buy his way into Harvard he graduated top of his class. He's worth millions and he's a man women want desperately, a reformed manwhore who's lonely, he hasn't been with a woman in four years and he wants the type of relationship his brother has but doesn't believe he'll get or deserve that.

Sugar's life is going well, she's opened her own restaurant in New York City and it's doing really well in fact she's struggling to keep up with demand and she should be so happy and she is or would be if she wasn't sleeping in her office under her desk everynight because she too afraid to go home after being attacked by her abusive stepfather.

So both Jake and Sugar need love and then they meet and it's amazing, it's instant and Jake especially feels like a whole new world has opened up.

I loved the whole first half of the book so much. Yes it's sweet, maybe a little too much but I loved it, sometimes sweet is all you need.

So why not 5*?

I'm being picky but I have to be fair and since I complain about stupid in other books so I have to do the same here. Both characters have a stupid moment plus the whole Camille thing was ridiculous but I didn't mind that much because by that point I was so in love with Jake and Sugar it didn't really matter but in the interests of an honest review I have to mention it.

After finishing this book I went to check Alexander's with the intention of reading that only to discover I'd already read it back in February 2014 and I hadn't been particularly impressed but it consisted of seven short books and I'm not a fan of these serialised short reads since each book seems to be little more than a taster for the next one.

I'm so glad the author wrote 'Jake' as a complete book.

Eve Recinella (Between The Bookends) says

Jake hasn't always been a good guy. Demons from his past and a slew of bad decisions left him with scars and a criminal record. At the age of 27, he has been working hard to move on and leave all that behind.

"I'm a lonely, good-for-nothing sinner who's finally seen God. I'm a love-struck deviant who's finally found a purpose. I'm a hard-headed son of a bitch who finally understands what it means to have something to live for."

Sugar Malone is working her tail off to make her restaurant *SUGAR* a success. She left Georgia and her Grandma behind in the hopes of one day being able to pay her back and fix up their family home. When her mother's latest husband attacks her, it sends her running right into the arms of one *smokin hot* Jake Wolfe.

This book was *SWEET*. Oh SO sweet. And that was A-OK with me. Sometimes I like a little (OK A LOT) of syrupy goodness in a book. To be honest, though, it probably would have got an extra .5 star had there been even a *little* angst. They pretty much meet and it was all SMOOTH SAILING from there. Like I said, though, I still enjoyed the heck out of it.

I found it to be well written. The plot flowed nicely and I never felt like skimming. The two main characters were likable. The sex scenes were hot. The stalking plotline was wrapped up a *little* too easily IMO, but again, that was just a minor issue. And we even get a nice little look into the future epilogue.

Overall, a solid 4 star read that gets two thumbs up from yours truly.

*** Arc received by author for honest review***

Okay so I just want to start by saying this is the first book I have read by this author and it won't be my last! I thought this was amazing, i really loved everything about it I also really loved both the hero and h. Jake was an amazing hero he was sweet and sexy and crazy in love with the h. Now I believe Jake has another book and in it I believe he is a total manwhore. In this book he is a perfect hero, he is sweet, loving, protective and immediately smitten with the h, for him it's love at first sight. He has been celibate for 4 years which I loved considering his manwhore history. Okay now for Sugar, she was a great h and she was just as smitten with Jake as he was her. I loved that there wasn't any push and pull. Jake is all in from the beginning and

Sugar never pushes him away! So I thought this was a awesome book, very hot and hero obsessed and crazy in love, it's also completely safe!
