## **Cry Of The Wolf** Karen Whiddon

Her ability to shape-shift into a wolf. On the run now from the dangerous mobster who destroyed her special gift, Jewel faces even deadlier stakes. For she will die if she doesn't change into a wolf soon.

Arriving in west Texas, Jewel strives to complete her transformation. But as she lies naked in a grassy area and the animal in her is crying out for release, a handsome stranger intrudes. Brooding Colton Reynolds appears to be a man who knows a good deal about secrets...and the power of keeping them to himself.

A man equally unable to trust. As her urge to shift awakens burning carnal desires, Jewel must put everything on the line. For if she gives her body to Colton, can she truly free her soul?

## From Reader Review Cry Of The Wolf for online ebook

### Janet says

NCT #7

---

### Erotic Horizon says

The Pack: Cry Of The Wolf (Book 6) (Silhouette Nocturne) by Karen Whiddon (2007)

---

### Rachel says

The story was ok. Good premise, fairly well written.

---

### Unapologetic\_Bookaholic says

Jewel is a woman with a mysterious past. She doesn't want to share it with the inhabitants of the town she has moved to. She is a wolf shifter that can't shift and thinks it has to do with her abusive ex-husband.

Colton finds Jewel naked and shivering on the bank of the lake he was to fish. Because of his own past, he thinks her condition is from drugs. He questions her but is struck silent by her immediate and hungry lips covering his. Who is she?

This was another great addition to the Pack series. The characters are a treat to read about and the plot was suspenseful enough to carry you through to the end.

Jewel's problems shifting, her worries about her ex finding out about her, and her keeping Colton at a distance all played into a well written paranormal romantic suspense. A solid 3 rating. I liked this enough to want to continue the series and I also thought it over and genuinely liked the characters to want to say a little about why I liked them. I bit better than your average "sweet" paranormal-lite romance.

### Myst says

Bleh, Soul of the wolf (The Pack #3) had better storyline than this. All fluff that's full of holes. Nothing about what happens after, what about Reba? She's pretty much portrayed as a sex addict during her episodes. Disgusting, one of the few titles I'll actually give a star rating cause it was so bad. #coyer

---

## Alicia Gordon says

2 1/2 stars.

---

## Christina (SteepedinBooks) says

My biggest objection - other than the amateurish writing - was the way female shifters were portrayed as mindless, sex-craved slaves to their inner wolf/instincts. More on that in a bit.

There were so many characters introduced, it got confusing. I was barely interested in the main characters and here are a dozen more secondary ones marching through the place. By the time I got to the confrontations at the end, I thought they were more silly than suspenseful and some of the characters' reasons for doing things were 2-dimensional and flat, if not just childish.

I didn't buy the love story at all. The first time the hero and heroine have sex is off-putting - both for the reasons it happens and for the mind set the heroine was in prior to it happening.

The only thing I really liked was when the heroine is confronted with a character who has accused the hero of physically abusing her. The heroine, though torn and not wanting to believe he could have done it, actually urges the woman to call the police, to get help, even to stay away from the hero.

She herself tries to stay away from him as well, but ends up jumping into bed with him instead. But we're not supposed to think about the ew factor of that happening after she's found out he could be an abusive bastard because it wasn't really her, it was her inner wolf who was craving sex and she couldn't control herself. Even more ew! There are issues with consent that just bother me here, not just because of that scene, but because of the way female shifters are portrayed as a whole.

Not the book for me.

## Jacqueline says

This book was okay but nothing special. The writing was fairly amaturish. I know this woman has several books published but I still thought the writing was not so good. The premise had promise but the book was so short that the characterization was severely lacking. It seemed like people ran in a out of the story like cars on a busy highway. Don't blink or you'd miss them. The book needed a lot more detail and development. I know this was a category romance but I've seen books this short done much better.
