EMT Anne Lundstrom is running from her past. But it's about to catch up. She thought she'd escaped it when she moved out of the city and into the quiet town of Deep Haven. She certainly never expected to get roped into helping Noah Standing Bear run his summer camp for inner-city kids. Yet Noah has a charisma she can't ignore, and romance is in the air. But when the very danger she was trying to escape threatens her peaceful haven—and her life—Anne must find the courage to face her fears and embrace the one man who can help her understand her past.

Wow! What a great follow up to "Happily Ever After" (Book #1 of the Deep Haven series). With a new set of characters (mainly Noah Standing Bear & Anne) Susan May Warren crafted a great new story but kept a few of the characters from the previous book. This book, like the first one, was a real page turner that I could hardly put down. I am looking forward to starting book #3 (The Perfect Match) tomorrow!!

I actually got hooked on this series by Susan May Warren by reading book #5 (The Shadow of Your Smile) first after receiving it free through the Tyndale Rewards program. I really disliked the heroine and the hero wasn't much better. Both really frustrated me with their emotional seesawing, happy one minute and crying the next. It was annoying to read. I wanted some action and dialog, instead I got to read how they felt all the time. Finally closer to the end some stuff happened, but this little bit just couldn't save the story for me. So many of the relationship issues could have been avoided by simple honesty. The message focuses on facing your greatest fears and learning to trust God to lead and protect you. The point of the story is a message we all need to hear, I just didn't feel like the story, characters and plot wasn't as likeable as other stories I've read.

i enjoyed the story, and wanted to keep turning pages, but the basis was the same exact thing from the first one. Also, too often I found myself wanting to hit the main characters over the head with the book they were in. smh

yes, i still enjoyed it and am not sad i read it, but I'm stepping away from the series now.

I decided to read another Susan May Warren book and I tried to understand this book.

Let me see if I can sort out my thoughts.

Anne was just awful. I know I'm saying this but I live in a place you wouldn't even believe. I am a African living in another African country that isn't all that pleasant so I can relate with living somewhere you don't want to but I have to ask why is she so uppity? Even before her gunshot wound she hated the inner city kids couldn't she see that they're 11, 12 and 13 year old. My brother is 13 if he's even in the company of people

like Anne I'd remove him immediately. It's not easy to live in hot button places but she acted like a petulant child. Does that mean that she never saw any decent person on the streets? Or does she have a special right to be rude just because she wasn't part of the decision to leave? And after the gunshot oh I had sympathy for her I wanted her to rest and have peace but she was just determined not to like Noah. You know the scene that really struck me as funny was when she said he was using her to make money. She's an intern assigned somewhere to finish her masters. She's getting paid he's not. Whenever he mentions how grateful he is for her help with the program she gets sad that he doesn't want her there for him. It's so silly. She later realised that Christian life isn't supposed to be a bed of roses just that you have to trust God hence the three stars.

I actually can't get through this book. I loathe the main character. I realize that at some point she will have a turning point, but I can't keep reading until I get to that. I really liked the first Deep Haven book and I am so disappointed that I can't stand this one. Where to begin...Anne is blaming her behavior on the shooting, but she wasn't a very nice person before that. She was full of prejudice and disgust for the people of inner city Minneapolis. I was put off by her attitude then. After she is shot, she is full on hateful to Noah simply because he is Native American. This makes no sense when she knows her "savior" from the shooting was Native American and that Noah has his same eyes. Her whole condescending attitude can't be chalked up to just fear or PTSD. I was absolutely in shock when she hauled off and slapped Noah after all he did was fix her car and offer her a ride home. The most unbelievable part is that he seems to like her and even says he doesn't blame her for her actions. What?!? I read the author's note that she suffered a traumatic attack in Russia, but this character goes beyond that to just plain rude and hateful. I am sorry that I know she will end up with Noah because I don't think she deserves him.

I enjoyed Susan May Warren's writing when I had snagged one of her novels. So when I encountered several others at the library I couldn't pass up the opportunity for more magic. Tying the Knot did not disappoint. This is not a new novel. It was published ten years ago. The fact that it is an earlier work can be seen in the style of her writing. It's still Susan's voice, but it is not as layered as more recent offerings by this author and in some places a bit redundant. In spite of that, it was a delight to read.

Anne Lundstrom is running from her past as a former EMT as well as a pastor's kid living in the inner city of Minneapolis. Having suffered a near-fatal gunshot wound a year before she has purposefully taken an internship as a community nurse in a small northern town, Deep Haven (future Warren novels take place here).

The last thing she anticipated was that the man who sang a hymn to her in her darkest hour would be the tool that God uses to help her face her fears. Noah Standing Bear was there that fateful day and felt like he had failed that EMT as well as the boy who shot her. As a youth pastor struggling to reach young kids before the gangs did in the inner city, he has come to Deep Haven to run a camp that could help bring those kids to Christ. Unfortunately the one thing he needs to get his funding, is a nurse, and Anne has been assigned the job.

Misunderstandings, fears and attraction all complicate things in the woods as Anne and Noah flirt with the potential of a relationship. As truths become revealed, however, could they actually form a partnership. Can Anne accept God's gift of the same man who would in more ways than one, rescue her from her past?

2.5 star. I keep hoping her earlier books will love up to the level of her more recent and I've yet to find that to be the case. Interesting setting. She addresses some tough topics, but I had a difficult time appreciating the hero and heroine they really had a lot to work through to get to the point they needed to be. It was just not as smooth and they weren't quite as likable as later plots/hero heroines. I didn't hate it - it was just meh - ok.

This book was absolutely amazing! It spoke to my heart on such a deep spiritual level. Not because it was preachy but because it showed how God is with you during the really difficult times. The challenges the hero and heroine had encountered in their past and present were heart breaking. I loved how the author showed their growth as people and in their relationship to God. The hero was absolutely swoon-worthy...sigh. Noah (hero) was a previous gang banger and excon. He had surrendered his life to God, and had become a true warrior for Christ. And oh my was he a hottie ;). Anne (heroine) was wounded and guarded because of tragic events from her past. I loved watching her spiritual reawakening. Noah and Anne's love story was one of the best I have ever read. I read this book slowly because I truly savored every page. A great book I very highly recommend!! One if my favorite reads ever!

Lovely story. I started reading the Deep Haven series after discovering Susan May Warren's Christiansen Family Series. I'm enjoying the Deep Haven stories and background.

Beyond a romance, this book deals with redemption, grace, trust in God, hope, fear, and getting to the point of knowing all is well with your soul. As Anne and Noah grapple with these issues, the reader is invited to examine themselves as well. It made me want to read the other Deep Haven novels.

Jena says

Gosh...this book was hard to get through. The main thing I disliked about this book was the female protagonist, Anne. She was annoying and hateful. I found it hard to care about any of her issues. She just

went around assuming and couldn't get off her butt to ask the important questions and then she would get angry. Her emotions went from one end to another. It was almost like she had physiological issues, which should have been dealt with in counseling through her previous job. Her shooting did not excuse her behavior with Noah. She should have suck it up and done the nurse job for the kids. It's not like this job was not advancing her career.

At the end of the day, I would rather that Noah have gotten with someone else. To me they don't have the right stuff (together) to make the relationship work in fiction and in real life. If another major personal issue hits them as a couple and they would fall apart. The Darrin station does not count.

Ky says

I kind of wish there was a three and a half star option because that's what I'd give this book. There was a good premise to the story, but I ended up not liking it as well as the first Deep Haven book. I felt like the middle could have been shortened a lot because it kept repeating the turmoil of the main character, Anne, over and over and over. The fact that she was having inner angst could have been described in a much shorter way - I definitely got it without all of the crying episodes. It seemed like Anne pitched a crying fit every other chapter. For a man who seemed so tough, Noah (the hero) was immediately besotted with Anne. He even seemed to enjoy her emotional fits of extreme happiness and extreme anger. It just felt strange because in my opinion, if a woman does nothing but cry and throw fits, the man will decide to stop pursuing her and run for the hills... but that could just be me. Overall, the book was a fun, light read, but I could have done without all the crazy drama in the middle and skipped right to the interesting part at the end.

A great story of triumph over tragedy, with some romance thrown in.

Tying the Knot is books 2 in the Deep Haven series, written by Susan May Warren.

Noah Standing Bear is a youth minister from Minneapolis, MN, trying to build a youth camp near Deep Haven, MN. The only way he can get church backing is by having a camp nurse.

Anne Lundstrom was shot while answering an EMT call in Minneapolis . She is moving to Deep Haven, near her aunt, to start a new life and further her nursing career in Deep Haven.

Against Anne's wishes, she is assigned to be the camp nurse. Noah and Anne develop a friendship and manage to work together, until a youth is injured. The youth is hospitalized, Anne is taken hostage and Noah is shot.

I really like this series. The story enforce the fact that God is in control of our lives, not us.
