Aquamancer

Don Callander

Aquamancer Don Callander

The author of Pyromancer offers its spellbinding sequel. Douglas Brigtglade, Journeyman Pyromancer, travels far into unknown lands to investigate rumors of an evil coven--and is taken prisoner by power-mad witches. The rules state that a Master cannot aid a Journeyman--under any circumstances. So it's up to Douglas' wife-to-be, an Apprentice Aquamancer, to save him.

Jade says

As a teen, I found this at the local library and was drawn to the pretty cover art. Foolish me, I thought this was a serious fantasy, but even teen-me recognised it was a bit of fluff while I was reading it.

Amusing enough that I still remember picking it up and finishing it, but I never went back to it once I set it down.

Nate says

Better than the first book.

This series is cute and silly, but this book holds together better than the first entry in the series. The kindle version has a lot of typos, unfortunately.

Pkelsay says

Overall series review: <https://www.goodreads.com/review/show...>

Anne Taylor says

I find a few aspects to be formulaic, but Myrn is an excellent character and the introduction of Marbleheart is a lot of fun. I look forward to more of him in the coming books.

Lincoln Wert says

Second in the 'Mancer series, involves more Myrn and we meet Douglas' new familiar Marbleheart the otter.

Fun entry, flowery language, nice adventure.

I admit, I am annoyed that no one seems to have proofread these books before printing them, it looks as though someone scanned the physical mass-market release book, ran it through an OCR program and just printed what came out without double-checking. Very annoying.

Not annoying enough to make me lower the rating.
