Just in Time (Lovers in Time Series, Book 2) Marilyn Campbell

A young 1950s war-widow time travels to 2016 to save a stranger's life at the risk of her own in Marilyn Campbell's "skillfully blended" [The Time Machine] time-travel romance, *JUST IN TIME*

When Beverly Newcastle, a young 1950s war-widow, encounters a gypsy fortune teller with a magic potion, she's tossed 5 decades into the future and lands in the arms of Josh Colby, a half-Mohawk, Harley-riding bouncer.

Desperate to clear his imprisoned grandfather of a murder he did not commit, Josh learns that Beverly holds the key.

To turn that key, Beverly must travel back to her own time. But by the time he and Beverly figure out how to send her back, Beverly also holds the key to his heart.

Bernadette Long says

I enjoyed this time travel romance very much! I could relate to the time in history that Beverly was familiar with and she didn't have nearly as much trouble relating to her new time as I would have expected. Josh was a dreamy hunk and deserved a better life than he had in the present.

I will be looking for more stories by this author.

Cheesecake says

I started this one thinking it was going to be about someone from the present sent into the future, and so was a bit disappointed. Then I got bored with all the time spent on her friends that she had in the 50's. Then to top it all off, it was one of those books where love is finally returned just before the book ends under overly contrived circumstances. I felt Irked.

Patricia Baxes says

This is actually quite a good book for one published a decade ago. I'm sure its been updated but the storyline is still pertinent. Characters needed s bit of an update, but they still worked well. You need to read this book with a bit of magic and a lot of hope in your heart...it could happen to you, too. ♥? (I voluntarily reviewed a copy of this book provided by eBook Discovery. I enjoyed it!)

Joanne Moynihan says

lovely story of time travel with a different twist. I loved the idea that Bevvie had to "save" someone and had to find who to save. Also she is to meet someone to open her heart. After only 2 days of marriage when her husband is killed in war, she rather retreats from life

M.M. Strawberry Reviews says

Having read this just last year after receiving this from my co-worker, I found it cheesy and a bit dated, but the premise certainly is fun. I found the gypsy to be cliched, and wished the author could have gone for something more original. The second half wasn't quite as good as the first because the guy has changed and is not as tough anymore, but at least Beverly gets to do some good with the knowledge she has gained in the future to help her friends in the past, so kudos to her and the author for a decent read.

Juliet says

I liked this book. It was different and an easy read. I also liked how concise the author was. She had a nice easy readable style.

Laura says

I found in this in an old box of books and wondered why I'd kept this book. The cover is horrendous. Then I started reading. It's a time traveling book. Sure, the premise stinks (gypsy powers = time traveling) so it's not a true sci-fi time traveling book but the hero and heroine are fun.

On the other hand, I just finished reading an article about evaluating books for cultural appropriate factors. One of the factors on determining if a book was culturally appropriate asked if the minority character required rescuing by a white character. This started a debate within me.

On the one hand, we have a white woman "rescuing" a half-Native American man from his tortured soul/past. On the other hand we have a woman rescuing a man from his tortured soul/past. Is the emphasis on her whiteness and his heritage or is the emphasis on her strength as a woman and his weakness due to his past? I was uncomfortable with her traditional values (value of virginity, innocence, etc.) giving her the strength necessary to rescue him to make him a better man.

However, once I step away from literary analysis, it was just a fun story. I'm keeping this book, despite the cover!

Phyllis C Surface says

Three stars

Good story line. I enjoyed this author's writing style and the angle she took on the time travel aspect of the story.

Wati says

This was my first romance book! I loved the story! OMG, I couldn't believe I found it here! I read it I think around 15 years ago! Unfortunately I lost the book after our move a few years back. Would love to read it again!
