Master of the Sun Melinda Barron

Calliope Ingalls had it all: a loving Dom who was also her husband, and a great job that took her all over the country. But it all came crashing down when her husband died unexpectedly. Not sure what to do, she retreated inside herself, shutting off everyone as she wished for the impossible. But there was still work to be done.

When Calliope finally agreed to photograph the construction at his new hotel, Silas Hope was thrilled. His attraction to the sub was strong, and he wanted nothing more than to see her bound in his dungeon for both their pleasure.

To do that, though, Silas would have to convince her to open up to him, mind, body and soul. He knew what Calliope liked, because he'd witnessed her submission firsthand. Now all he had to do was get her to let him wrap his ropes around her wrists and put the kiss of his leather on her bottom.

But while the two of them are exploring a new Dom/sub relationship, another force is at work in Augstown, one that shows that some spirits don't like change...especially when they've been around for four hundred years.

I like this book but thought it was too short. Wished that the relationship between Calliope and Silas while not rushed per say was something that I would have liked to seen developed more before they were in their HEA. That doesn't mean that it isn't a good read. It is, I enjoy Melinda Barron's writing, just wished it was a bit longer.

This is the second book I've read from the author and I have to say that I really loved this one (much more than Graceful Submission). The heroine is fully fleshed out and I was able to connect with her immediately. The hero, Silas, is yummy. I have to say that although some of the things he did to Calliope made me squirm (in a NOT yummy way), I'd be hard pressed to say 'no' to him. A very erotic and emotionally satisfying read.

Master of the Sun is an emotionally charged story of love and loss that touched me deeply. I recommend Master of the Sun to anyone who loves romance. It is a tale of the difficult journey back to life after suffering the death of a loved one. Grab a few tissues before reading.

Review done for The Romance Reviews

MASTER OF THE SUN is a story with intense emotion, wonderful characters and paranormal activity all wrapped up in a BDSM romance with a hot Dom, erotic lovin' and happy ending. What more could a girl ask for?

Calliope Ingalls' whole world was gone in an instant. While on a job for another Dom's new hotel project, her husband and Master dies suddenly, and she's left all alone. She retreats to their home and isolates herself from the world. Fifteen months later, she's forced to either take a new job or lose her agent, so she accepts only to find out she's to return to the site of her husband's death.

Silas Hope is ecstatic that Calliope is returning to his hotel to work for him, but he'd be even happier if he could make the sub his own. He knows that she's not quite ready to submit to another Dom yet, but he's willing to push her a bit. As they work on a possible new D/s relationship, there are strange occurrences that are happening around the grounds of the hotel. But when they figure out the nature of their supernatural

problem, Silas hopes that their bond is strong enough to hold Calliope to him forever.

I really enjoyed this book, but I have to say that my favorite aspect of it, hands down, was Silas Hope. Sexy, Dominant, and loving...aka YUMMY! I loved the way he pushed Calliope as if he sensed that she was right on the edge of breaking out of her grief for her husband. Many times in the book, he would tell himself that he wouldn't push her, but then turns around to give her a little nudge as if he just couldn't wait to make her his sub.

Calliope wasn't as strong a heroine as I usually like, but the background and insight we get into her character really helped me understand why she acted the way she did as well as why it was so hard for her to trust again. The story was deeply emotional and there were so many times where I just ached for Calliope as she was dealing with her loss. But once she met up with Silas again, the story took on a much more hopeful theme.

The sex was sensual, at times intense, and always had the D/s element involved. This is a moderate BDSM romance. I say that because there is quite a bit of pain play, but it is not extreme. Also there is still a heavy romantic element surrounding all the scenes in the book. Those who are not familiar with the BDSM sub-genre may find it a bit intense in some areas, but I don't think it's enough that anyone should shy away from the book if they have an interest in BDSM romance.

The plot of the book was very well developed. It had two different paths. It was one part a rediscovery of life for a woman who never thought she'd live again, and then there was another part that had a paranormal flair to it. Calliope and Silas try to figure out what's behind all of the unusual happenings around the grounds of the hotel that began when Calliope came back for the job. There were some great secondary characters in the book as well that gave the story a much more well rounded feel.

A great BDSM romance with a paranormal twist. Deep emotion, intense sex, and a strong BDSM component made this book both gripping and erotic and highly enjoyable read.

Sara says

BDSM with a bit more of a plot than some. Glad to have an experienced Sub; I'm tired of all the clueless newbies. Would love to read more about the minor characters.

[The ghost added to this story made no sense to me. I think the story would have been better for me without it. (hide spoiler)]

Toni (U.A.C.) says

BDSM story with a paranormal ghostly twist: A year and a half after her husband's death, Calliope is still deeply grieving for her husband, but a friend and business associate talks her into accepting a photography

job in hopes that it will pull her out of her shell and start to really live again. With the help of a friend that wants to be more, she learns that it's okay to grieve and that it's okay to love again too.

I liked it a lot.

Flow says

A quick read. Was sad to begin with, but was an alright kind of book.

Had a bit of a ghostly story in it. I liked that.

The characters switched point of view.

An emotional but rewarding read!

Master of the Sun is an emotion filled and powerful story. The author will have you sobbing and crying throughout the tale. It is a story of loss in every sense, and how hard the journey back to life and living is after the death of a loved one.

Melinda Barron engages all your attention with strong BDSM scenes and characters. The women are realistic and have meat on their bones. The men are dominant, loving alphas. This is quite a serious story, but there is some humor and mystery worked in as well.

Calliope's journey back to life was also one of self-discovery. It was interesting to follow as her needs and desires overcame her fear and shame. Silas helped bring out the best in Calliope by learning more about her and pushing her limits. The ending leaves the reader hopeful as Calliope finds joy in life again.

Melinda Barron did a wonderful job with this well written story. I would be interested in other creations by this author.
