The Goblin Between Her Thighs

Aimélie Aames

The Goblin Between Her Thighs Aimélie Aames

An army captain with a mysterious scar is torn from the battle front and from his lover in this story of espionage, body thieves and devious eroticism.

The legendary Goblin War rages while Alexandre's own identity slips away from him in his struggle between his forgotten past and the woman who loves him. Action, intrigue, and intense sexuality...all this and more awaits between these pages.

This is an erotic stand-alone story of 11,000 words, but also a prequel to the events recounted in the ongoing series, The Marechal Chronicles by Aimélie Aames.

The Goblin Between her Thighs

This was an alright read, I think in some ways with a little more work it could have been so much more as the story line was an interesting one. I feel it was too simple and ended way too quickly for my tastes but hey, it's great for a short lunch break if you are into short reads this might be good for you.

carol says

An interesting title that will attract and repel readers in equal measure I suspect. However, it is paranormal erotica as evidenced by said title. Aimelie Aames has written this as a prequel, setting the story line and introducing characters for her Marechal Chronicles Vol 1, 2 & 3. This short story is an accomplished and descriptive piece of writing with good use of language and well edited. It introduces a main character, Captain No One, whose past is unknown, yet his terrible scarring suggests events of significance. From a bloody battle against paranormal Goblin creatures, so clearly and hideously described at locations within the story, it begins with an erotic even romantic interlude with an older female, General Sandrine Grise. Before further battles commence the Captain is withdrawn and sent on a counter espionage mission to identify Goblins masquerading as humans. By the end of these first encounters with Goblins, which includes one of lust and non consent, but extremely well written to provoke a combination of disgust and arousal in the reader; it becomes obvious that the Captain is being used and manipulated by his Generals to take on a mission to seek out Goblins, within the human community in his new promotion role of Marechal, which I take to be a law and order role as well. So the stage is set for the main Marechal Chronicles. I find it difficult with the limited context of short stories deciding on star ratings. My justification for border 3/4 is it's well written, sets the scene for the main novels clearly, as opposed to plot development which comes in the follow on stories; as it does with the introduction of the Marechal and how he came to the role, whilst still keeping the mystery of his past unclear as intended. Initial graphic details of Goblins characters, physically and their capabilities is also clearly set...therefore I give this prequel 4 stars as it does as intended. Yes I have bought the next instalment of Volume 1 of the Marechal Chronicles and look forward to reading it.

Kelly says

As a prequel, this worked nicely because now I'm very curious about Alexandre and his mysterious past. Bonus, the goblins are pretty gross and they don't pull any punches when they see something they want to get their hands on.

Double bonus, skin suits. Gross.

Beyond the gross goblins, Alexandre is so... well, let's just say I don't know what to think about what was done to him at the end. Basically, this short story hooked me. It's mysterious with some sexy times, some not-so-sexy times, and one mysterious soldier who's destined for greater things.

The Halloween Monster Sex Gangbang continues...

******4.5" RUN Bitch, RUN!!!" Stars******

The war against the Goblin horde has amassed unforeseen death tolls. The General believes that he has a Goblin Spy in his camp. A high ranking spy that is privy to plans and strategy.

"Once before when goblins waged war on humanity, there was mention of someone, or something, that taught them how to wear the skins of men. A way to take the place of those they killed and become undetectable spies."

The General decides to set a trap, by sending a few suspected generals and captains home on leave, only to have his own spy, Alexandre to observe and kill any goblin spies in human form.

"I remember the tales my nan would tell me and I no higher than her knees at the time. Stories that told of women being bewitched by goblin magic, waking the next morning to a monster in their beds. I thought them but tales for children."

Our handsome scarred hero finds himself at a castle...

And the events that take place are Horrific and Wickedly Seductive!

This was Goblin Monster Sex at it Best because this was no fairy tale. It was Darkly Erotic and there were moments when I was truly afraid for the heroine, with my heart in my throat, wanting to yell at her to RUN!!!! I love this author's writing style. It is so rich and descriptive, as if I am watching a movie!!!

This Halloween Monster Sex Gangbang Challenge continues with The Summoner and the Satyr

Heather says

This book has one erotic scene in it.

twelvejan [Alexandria] says

4 gruesome stars!

Each time I pick up a book that are not suitable for the general masses, I will tell myself, "*This is just a fantasy, it's not real. This is just a fantasy.*" Only then will I be able to stomach the crazies the author heaped upon their tales.

Be warned, if you decide to pick up The Marechal Chronicles. The first book contained a pretty gross dub-con between the handmaiden and two grisly goblins. If you can wrap your head around that, then I think you might enjoy this. That didn't come out right. I'm not implying that I'm some pervert who loves reading about a goblin gang bang. But for a shoddy title and cheap-looking cover, this book was very well-written. I wish it was marketed as a fantasy book instead of an erotica. So much potential!

The plot is good, the characters are enigmatic, and heck, even the gross goblin gang bang was tastefully written! I'm looking forward to continuing the series. Just not now. For a short story, I'm not willing to pay so much.

Conclusion: Who would have thought.

Flora Smith says

This book is definitely not for everyone, but I loved it. The title itself makes you step back and ask yourself if you really want to read this or not.

This short story is a prequel to the Marechel Chronicles. I wish I had read this one first as its a great introduction to the series. This is a world full of magic and mystery and a lot of hot sex scenes. However, I will warn you that one scene in particular some may find disturbing.

For a short story this read contained a lot of elements. It draws you in quickly and holds your attention til the end. I hated to see the story end and am glad it continues in the chronicles. This is a world that I want to see more of.

Overall, a great read although not for everyone. For those over 18 that like something a bit different.

Sónia Tigol says

It was a nice short story.

Andita says

Interesting...

story with some intrigue and somewhat confusing characters. I'm not sure if that is what the author wants or not. I'm not sure if I will try more or not. It's not bad but it just might not be for me.

Mark says

This book was so sexy and hot! I actually read this in an hour because of how intrigued the author got me into the plot. This is a prequel to The Marechal Chronicles, so this is one that you will want to read. I would recommend this book, it's worth the download!
