How sweet! Splat is a fun cat, and how wonderful that the whole book is about how to say thank you to someone who does so much for you. Especially when that someone is feeling sick. Sweet, sweet, sweet.

Another great hit w/ the kiddos at school & myself. Splat is a cool cat!

We love the Splat series in our house! This one is really fun because Splat makes a Thank You book for Seymour the mouse, his best friend, who is sick. The book covers things that Seymour helped Splat with in other books in the series, so we get to revisit some of those fun stories! Darling artwork and little extras in the pictures in the book. Just a fun kids book, teaching how important it is to say thank you and the value of friendship.

Splat's best friend Seymour isn't feeling well. This is very hard for him because they do everything together. Splat comes up with a marvelous idea to cheer his best friend up that will also let him know how much he is appreciate as well. To find out what Splat does please read this book.

Picture Book
Audience: K-3
Grade Level: 2nd grade

Activity: Discuss the friendship between Splat & Seymour. What do you predict will happen to Seymour & Splat's friendship? Will they be BFf4l (Best Friends for life)? Ask students if they agree with using manners and saying thank you, if so then why? Students can use their sentence writing skills to make a story and a picture about a time with their best friend.

Splat is still adorably fuzzy.

I liked this one because of the message. The story itself is more of a retread of Splat and Seymour's other adventures through the previous books in the series, so it's not really anything new in that regard. If you're already familiar with this particular kids series, you'll recognize a lot of the books referenced. Still, I liked the ideas of friendship and saying thank you and appreciating others in your life. Splat really is very sweet, trying to make Seymour smile again (even if he doesn't realize that his friend is sick). It's a nice message to pass along to kids.

Could be used on a bunch of different storytime themes, though cats, friendship, and gratitude would top my list.

Splat says thank you is about splat the cat and how his friend mouse (Seymour) is sick. Splat just wants to make Seymour feel better so he brings Seymour a book about their friendship and how thankful he is to have him as a friend and all the good memories they had together. In the end of the book it tells Seymour thank you for simply being my friend. This is a good book to read in my first or second grade class because it says a lot about friendships, friendships come and friendships go but while you have a strong friendship you should show them how much you care by telling them and making them feel better when they are sick or down. Sometimes it's good to surprise friends and let them know how much you mean in their life. I would have the students make a short book about their friend and give it to them.

This is a thank you card within the pages of a picture book. Splat wants to thank his friend and does so page after page of being there for him, by being there himself. While this is out at thanksgiving time it is not a themed festive book but can be used at any time of year.

Seymour is sick and having a tough time smiling, so Splat gets to work and tries to make him smile by showing him a book that captures some of Seymour's top gestures, all of them followed by a big thank you. This is a great homage to Splat's best friend. The smallest, yet the biggest.

My favorite part was when Splat broke his mom's favorite ornament and Seymour 'fixed' it with tape and glue. Splat was still surprised that his mom somehow found out.

Borrowed it from the library.

What a wonderful way to remind little ones (and their caregivers) how important the friends in our lives are to us and that we should thank them for all they do!

Little Seymour is feeling poorly and; Splat tries to get him to smile, by reading him a very special book! It is all about the ways, Seymour has been such a great friend, to Splat.

The accounts of their adventures together are both humorous and poignant.

I need to remember to thank my special friends; for all the wonderful things they have done for me!

I've never been a huge fan of Splat the Cat, but our girls love these books. The cat is fuzzy and adorable and the stories have some innocent charm, but I was frustrated by the seemingly vapid churning out of books in order to capitalize on a popular character. There have been eight books published in the last year or so and many of them weren't even written by Rob Scotton. I was not impressed.

But then we borrowed Secret Agent Splat! from our library and I was pleasantly surprised to see Mr. Scotton as the actual author. I was even more pleasantly surprised to see an entertaining, engaging story, accompanied by the too-cute illustrations I've come to expect from this series.

So when I saw this book at our local library, I had high hopes. I was not disappointed. It's a story about giving thanks to a friend, trying to cheer him up when he's feeling sick. Our girls really liked this story, and so did I.

Based on my experience with this series, I will probably avoid the recently published books *'based on the creation of Rob Scotton,'* like Splat the Cat: The Rain Is a Pain and Splat the Cat: The Name of the Game. I have a feeling they would just irritate me.
