For centuries, two game masters, a brother and sister, have sat in front of the most intricate game imaginable and watched as the events they set in motion played out. At the forefront of this game are two dynasties of long-lived blood-drinkers: the Kyonshi of Japan, who, like their mortal brethren, strive for independence from China, and the Chiang-shih of China, who wish to maintain control of Japan and the Kyonshi. Will the masters continue to watch the game unfold, or will greed, jealousy, and vengeance bring about an end to this long-running game?

Join the Journey, the sixth in a series of stories revolving around the Dearth Du through the ages!
