Fun and flirty festivities

If you are looking for a sexy festive read then this anthology ticks all the boxes. Four well-written novella's, four swoonworthy loveable men, four lovely ladies and whilst the weather is against them, Cupid certainly isn't...

'Tis the Season to Kiss Santa - Kate Hardy (4 stars)

I want to kiss Santa. And not the rotund cuddly grandfather type chap. No I want the brooding businessman who appears more Scrooge than St. Nick. It's sweet, sexy, touching and humbling and Mitch and Ellie are completely loveable. Fills you with festive warmth.

'Tis the Season to Get Lucky - Heidi Rice (5 stars)

Of the four, this was the one that stole it for me. Sexy, fun, romantic and captivating, it flows well, has wonderful loveable in Kate and Ryder, their festive frolics are fabulous and it has a witty yet completely touching storyline. I was chuffed to bits with it.

'Tis the Season to be Kissed - Amy Andrews (4 stars)

Combine a slightly drunken but sensible kindergarten teacher with a fabulously hot military man, add a snowstorm, a game of strip scrabble, ten tiny dates and you get a far from boring New Years Eve. Light, fun and sexy and both Tamara and Luke are wonderful characters.

'Tis the Season to be Tempted - Aimee Carson (3.5 stars)

With a fun yet totally hot seduction treat, I loved Evie's sass, snip yet vulnerability and Wes' witty and protective streak. I would have liked a bit more to the ending but it was still a great little read.

To summarise, well worth reading and I could have happily read a full length novel containing each couple. I was tempted, got lucky and would happily kiss every one of our hero's.

I'm so happy these four amazing holiday novellas are in one bundle!!

Short, sweet and sexy, each and everyone of these novellas will have you unwinding in little more than an hour. Fantastic holiday reading!

Sofia Lazaridou says

'Tis the Season Bundle is a collection of 4 short stories that happen around Christmas time. My favorite story is 'Tis the Season to Kiss Santa by Kate Hardy. It moved me which is not normal for a novella. I wish we had found out what happened to that little boy. I also feel like it was the best-constructed story of the four.

'Tis the Season to Get Lucky by Heidi Rice. Ryder is a nice person and I liked him. He is a good father to his daughter even if the circumstances are not the best. Kate was a little uptight and I didn't like her as much. This was my least favorite story out of the four, but it wasn't very bad. Getting stuck in a mall is not as exciting as it was in this novel.

For 'Tis the Season to be Tempted by Aimee Carson the only thing that you need to know is that the main characters are great and you will like them.

'Tis the Season to be Kissed by Amy Andrews was the most rushed novella for me. It ended on a happy note on New year's eve, but I would have liked to see more of the characters. Actually, that sentence describes all the stories in this collection. Each time I finished a story I wanted an epilogue to see how all the couples were fairing some amount of time after the evens of each story.

Overall the bundle has good steamy stories that put me in a festive spirit. I would recommend it for a cold December day.

REVIEW

I thought it was time to read a few Christmas themed books so I could review them before Christmas. As I have been reading more of the contemporary genre I decided to go for this Novella anthology.

Each book has its own cover and there are different male torso's featured for each novella to represent the main male characters in the stories, which also suggest that the individual novella's are romance in genre. The bylines on the bundle cover are "Tis The Season For Romance. . ." and "Baby It's Cold Outside" both fit all the novella's within this bundle.

The genre's I have seen listed for this novella collection are Contemporary, Romance, and Holidays, which I totally agree with. The "holiday" featured in each novella is Christmas. The genre and book are certainly the type of feel good slushy read to sit by the fireside reading on the cold dark winter nights.

All the novella's are set within the holiday season of Christmas, and their main theme running through them is romance. Another theme featured within the novella's is "unlikely matches" in that those who find romance are not necessarily two individuals you would put together and expect to work out as a couple.

'Tis the Season to Kiss Santa by Kate Hardy

The main female character is Ellie, who is visiting her Aunt Betty who is in hospital having a hip operation. Ellie takes the place of her Aunt at the children's hospice as Santa's Elf.

The main male character is Mitch Carter, he didn't have a great childhood, hence he doesn't have a lot of contact with his family and never goes home for Christmas. Mitch's boss kind of blackmails him into taking his place and being Santa at a local children's hospice siblings party. The party has been given by Mitch's boss and Ellie's Aunt at the Children's hospice for the sibling of the terminally ill children for many years.

Mitch and Ellie don't get off to the best start when Mitch is almost late. Ellie is wholeheartedly into making the party great for the children. Mitch is initially not feeling in any way festive but his mood is changed by the siblings of the children in the hospice and how kind and thoughtful they are. Mitch ends up giving Ellie a lift back to her Aunt's home, going in for a coffee and ends up stranded there because of the snow. . .

I did enjoy reading this novella, it certainly had the spirit of giving with CJ (Mitch's boss) and Betty putting on a party for children that would probably be forgotten about otherwise. The novella definitely had the "feel good" factor and was a good seasonal read. This novella is for an 18+ age group because of it's steamy nature and specific, rather explicit language. I would take a closer look at any other novella's/books by this author.

'Tis the Season to Get Lucky by Heidi Rice

The main female character in this one is Kate Braithwaite who has recently landed a great job in Manhattan, initially she maintained a long distance relationship with her boyfriend. She is looking forward to her Skype call with him later, but when she checks her email she finds out he has dumped her via email! She goes into work deciding she may as well use her time productively. It's whilst she is working that she hears a loud noise. It turns out to be the Bosses son who was in the process of choosing a gift. Kate has heard rumours about the bosses son, that he is arrogant and stuck up too. So when Kate finds he is the cause of the noise and the disarray of the Christmas sales displays she is not impressed. But when they end up having to stay in the department store overnight due weather conditions, Kate gets to see a totally different side to Ryder. They end up having an enjoyable night but is that all it is. . . or could it lead to more.

Oh wow I really loved this novella. The way both Kate and Ryder jump to conclusions about each other, proving first impressions are not always right. Then as they get to know each other better and enjoy living the dream of being locked in a department store and using whatever they need! I really like both characters and it was a shame we didn't get to meet Ryder's daughter. This novella left you wanting to know what happened next too.

'Tis the Season to be Kissed by Amy Andrews

Tamara is 30 years old and is hiding away from the Christmas and New Year's Eve at a friends cabin. Tamara is ready to settle down with Mr Right but all she seems to be attracting is Mr Wrong who wants a fling or a no ties relationship. It's cold at the cabin and she can't find the matches to light the open fire so she is wearing layer upon layer of clothes and drinking eggnog already at 11am in the morning!

A rather drunken Tamara is startled when she hears someone at the door of the cabin trying to get in. Tamara quickly looks around and finds a golf club as a weapon and uses it when a male figure enters the cabin. She finds herself in a tussle on the floor of the cabin with her friend Georgia's brother Luke. It turns out the bad weather means the cabin was the nearest place to home he could get transport to. Luke is 25yrs old though feels older with all he has seen on his tours of duty. He is home from Afghanistan to surprise Georgia for her birthday party. Luke soon gets the open fire going and then the drunken Tamara begins stripping her layers off much to Luke's amusement. It soon becomes apparent that they both find each other attractive, but can Tamara trust the younger male is wanting a relationship and to settle down as she is wanting. . . .Can Tamara get over the fact she is seriously crushing on her best friends younger brother....

Again I really enjoyed this novella and left me wanting to read more, like Georgia's reaction at her party when she realises what has happened between her brother and best friend. I will be checking out other novella's/books by this author.

'Tis the Season to be Tempted by Aimee Carson

In this novella the main female character is Evie Lee Burling and she is on a plane even though she hates flying traveling home with a bunch of "I told you so" comments awaiting her at home. Evie as had an awful year whatever could go wrong quite literally has gone home.

Also on the same plane is her brother Dan's best friend Wes. Wes didn't have a great family life as a child, in fact he spent much more time round at his friend Dan's house where he was made to feel like part of the family. Most people distanced themselves and were downright rude to Wes when his father was found guilty and imprisoned for embezzling money. Dan and his family never turned their back on Wes which he still appreciates even though he has become a successful business man in his own right now. So when Wes hears

Evie voicing her fears and concerns about the possibility of a plane crash he feels duty bound to try to calm her down before she gets herself thrown off the plane. Wes ends up having little choice but to sit next to Evie on the plane and ends up taking care of her when she is drunk after drinking alcohol to calm her nerves about flying.

One thing leads to another . . . Evie had sworn off men after just being dumped, but Wes is a friend. . . .she can trust Wes can't she, and its fun to wind him up as he is such a "prim & proper" male. They end up being stranded because of a weather storm too, sharing a room, but will what they have be a one night only?, or could Wes be the guy to tame the rebellious Evie?

Another great novella read that leaves you wondering how things worked out for Wes and Evie. I would have liked to read even more about these two characters.

My immediate thoughts upon finishing the novella bundle were great set of novella's to get you into that slushy Christmas mood. Certainly discovered a new Author or two to read more of.

So to finish up my thoughts after reading the whole novella bundle was that they make a great read, if you are wanting to get into the Christmas spirit. These novella's are perfect to read with a hot drink snuggled up and warm by the fire and all have a "feel good factor" within them. This bundle is a great way to discover some new contemporary genre authors too. The novella's can be read individually during your "wind down to sleep" time.

'Tis the Season to Kiss Santa by Kate Hardy (3 Stars)

This was a nice little story. Unfortunately, for whatever reason, I felt disconnected from the characters. However, I was still able to enjoy the book.

Because of Mitch's upbringing, he isn't a fan of Christmas. In fact he's been called Ebenezer. It's not that Mitch is a bad guy, because he isn't. His past just doesn't hold the memories of what great Christmases are all about. When his boss questions if he has a heart, Mitch puts on a Santa suit for one hour to prove that he does.

Ellie loves Christmas. After getting divorced and losing her business, she is in the U.S. to help her Godmother who is recovering from hip surgery and find out what she wants to do next with her life.

An unexpected blizzard traps these two together on Christmas Eve and together they find a love of Christmas and discover that sometimes it's okay to take risks.

'Tis the Season to Get Lucky by Heidi Rice (4 Stars)

I loved this story. 'Tis the Season to Get Lucky was so much more than I was expecting. This is definitely a Christmas romance NOT to be missed. Appearances are not always as they seem and this story is a perfect example of that. 'Tis the Season to Get Lucky made me laugh, smile, and fall in love with Ryder and Kate.

Ryder Sinclair is the heir apparent to the Sinclair department store. He doesn't make a lot of appearances at the store but he pulls down a pretty nice paycheck. Ryder is seen as a jet setting playboy without a care in the

world. Kate Braithwaite is spending her first Christmas in America. Her new job as a PR manager for Sinclair's is very important to her and she loves it. She loves it so much so....she's willing to go to work on Christmas Day, without being asked to.

Ryder happens to be in the store on Christmas Day looking for a present. He doesn't expect anyone to be there and is surprised to find Kate there. With a large snow storm approaching, the two end up being trapped in the store, waiting for the storm to pass and the lights to come back on. But in the midst of everything, these two discover that they made rash judgements about each other and this Christmas they are going to receive one of the best presents ever...a love like no other.

'Tis the Season to be Kissed by Amy Andrews (4 Stars)

It's New Year's Eve and Tamara, a Kindergarten teacher, has decided not to go to New York City with her friend, Georgia, to watch the ball drop. Instead, she's spending New Year's Eve alone at a cabin owned by Georgia's parents.

Sergeant Luke Jackson wants to surprise his older sister, Georgia for her birthday. He spends thirty-six hours traveling from Afghanistan to the U.S. Due to a horrible snowstorm, he ends up going to his family's cabin in Vermont. After walking two miles through a blizzard, Luke is greeted by an unexpected golf club wielding guest.

It's fifteen hours until midnight and Tamara is already drunk on eggnog. Because she knows that kissing leads to other things, she has a ten date rule, before she will kiss a guy. But when the sexy soldier shows up, she starts to question her own ten date rule. Tamara is definitely attracted to Luke, but he's off limits, since he's her friend's brother. Luke desperately wants to be Tamara's New Year's Eve kiss. Over the course of twelve hours, Luke manages to pull off ten non-traditional, yet fun and sometimes romantic dates with Tamara. Once the kiss is granted it could be the start of something permanent and forever for both of them.

'Tis the Season to be Kissed is more of a happy for now story, than a happily ever after story.

'Tis the Season to be Tempted by Aimee Carson (4.5 Stars)

I want MORE of this story!!!!

Wes Campbell and Evie Lee Burling have known each other since they were kids. In fact, Evie's older brother, Dan, is Wes' best friend.

The romantic affair between Wes and Evie starts on New Year's Day on an airplane that's about to depart from Minneapolis to Boston. Evie is afraid of flying and has had a little too much to drink just to get on the plane in the first place. Being the good, responsible guy that he is, Wes looks out for her once again.

When weather conditions make it unsafe to travel, Wes grabs them one of the last remaining hotel rooms near the airport. Who knew that undressing using only kitchen utensils could lead two people to something they've each wanted their whole lives.

Now, in a possible spoiler... I didn't give the book 5 stars because I wanted more. I wanted to see a happy ever after and not just a happy for the next ten minutes or so.

'Tis the Season to Kiss Santa by Kate Hardy - 3 stars

Mitch is not a fan of Christmas, but he is determined to impress his boss to be considered for a promotion. So off he heads to dress up as Santa to hand out presents to kids. Once there he meets Ellie the woman temporary in charge of the event. Ellie is in the States to away from her family and start a new life. Her first impression of Santa is not the best, but fate has another plan in mind for these two. Having to spend some time alone while a storm passes through Mitch and Ellie get to know each other better while their attraction builds in the background.

Although I liked this story, I have to admit that I did not feel connected to either character. Their stories were interesting but I can't help but think that there was much more that could have been revealed about them. I enjoyed their conversions and the author did a great job of bringing their attraction to the page. Their connection felt a little underdeveloped, but not enough for me to not want to see where their time together would lead.

All in all, a sweet, romantic story with emotional overtones.

'Tis the Season to Get Lucky by Heidi Rice - 4 stars

Ryder Sinclair is back in town to visit his daughter for Christmas and is visiting his father's store for a present. In walks Kate, the new PR manager for the store. She knows of Ryder and what she knows does not impress her. Having to spend an evening locked up in the store waiting out a storm is not what she had planned, especially in the company of the playboy-heir of the company.

This was such a fun story. I enjoyed watching as Kate's assumptions about Ryder were put to rest and in its place an irresistible attraction to the man developed. Ryder was sweet, caring and flirtatious. His first impression of Kate thrown out the window as soon as put down her walls and let herself enjoy the moment. I loved Kate's flustered state and her hesitation to give in to her attraction to Ryder.

I liked that Heidi Rice brought some emotions to the mix and revealed a significant amount of Ryder and Kate's story. I felt connected to them, which helped me accept and thoroughly enjoy the moments these two spend together and the final outcome.

All in all, a romantic and hot story with interesting characters who I would love to read more about.

'Tis the Season to be Kissed by Amy Andrews - 5 stars

Tamara is staying at her best friends' parents' cottage in the woods for New year's Eve. She made a resolution the year before that she was going to stay away from meaningless encounters with men and she just doesn't want to be kissing another dead end. What she was not counting on was to be sharing the cottage with Georgia's brother, Luke.

Luke just returned from a tour in Afghanistan and just wants to sleep his weariness away. But having to share the space with the attractive woman poses a challenge. One he is gladly to accept.

Through flirtatious banter and humorous dialogue, Amy Andrews delivered a wonderful story of new beginnings. There were emotions thrown into the mix along with a heap of explosive chemistry. These two just lighted up the room anytime their eyes met. I loved the tension their mutual attraction brought and I

wouldn't have wanted it any other way.

Luke was sweet, caring and completely in lust with Tamara. I enjoyed his way of thinking and the way the author went about him finally getting together with Tamara. Their coupling was flirty and fun with an abundance of passion. I loved it!

All in all, an amazing sexy read with fun and interesting characters that will heat up your holidays!

'Tis the Season to be Tempted by Aimee Carson - 5 stars

Wes and Evie have know each other since they were kids. It has always been Wes' role to protect Evie against anything and this time is no different. Although it has been a while since they have spoken, when they meet again in an airplane they pick up their banter as if no time has passed.

Evie has always found Wes attractive and perfect. Perfect job, perfect life, always doing the right thing. Now that she has returned home and with a little liquid courage in her system she is determined to see him loose some of his precious control.

OMG, I loved, LOVED this story!!! Aimee Carson did an amazing job in drawing me into the story by making Wes and Evie's chance meeting one that was packed-full of humor and flirtatious banter. I loved Evie from the moment she opened her mouth and she just made it impossible for me not to like her as the story progressed. Wes too was a wonderful character to get to know. Man, he was so conflicted over his feelings for Evie. And to see him lose complete control when confronted with his attraction for her was a fantastic sight to see.

All in all, a hot little romance with fun characters that I would love to know more about.

Title: Tis the Season to Kiss Santa

Author: Kate Hardy

Rating: 4 stars

When a business man who is proud of his Scrooge like reputation is asked to fill in as Santa at a local children's hospice, he meets a very sexy head elf helper. When a blizzard strands them in her house she gets to show him what the holiday can really mean. A bit of a traditional storyline with a very cute twist, this was a great way to start getting in the holiday season and in the mood for Christmas.

Title: Tis the Season to Get Lucky

Author: Heidi Rice

Rating: 4 stars

Entangled has been doing well this season with their Christmas novellas. Tis the Season to Get Lucky puts

Kate, a PR manager snowed into a department store with Ryder, the son of store's owner. I wish I had a chance like this - it would be so much fun raiding the different departments for "survival supplies". Ryder jumps at the opportunity to get closer (and fulfil his dream of raiding the store as well) to the uptight Kate, and Kate decides to let her guard down and enjoy herself for just one night.

Of course things get interesting and just maybe this could be more than just one night. But they have a few issues to get over before that could ever be a possibility. Two people from two different worlds may just have what it takes to make the most of the situation. Both characters had some really amazing moments and had such great personalities I fell in love them right away and was cheering for them to get together the whole way through.

Title: Tis the Season to be Kissed
Author: Amy Andrews
Rating: 5 stars (favorite of the bunch)

I'm not even sure where to get started with this book. It was so very amazing that I think I will go back and read it every holiday season - maybe closer to New Years next time. Tamara was beyond perfect for a character. It can be difficult to really delve deep into a personality with a novella, but within the first few pages Tamara was coming to life beautifully as she goes on a drunken rambling to her best friend's little brother. The "little" brother, Luke, is on a surprise trip home and stumbles upon Tamara using the spiked egg nog to keep warm in the family's cabin. Luke's personality was just as big and he was everything I could ever want in a hero.

The story is full of humor, as both characters are very intelligent and can use their words to make some very interesting conversation. The scrabble game was amazing - won't say more or I'll ruin it. You must go read this book the holiday season. I don't think I would change a single word. I need to make a bonfire image because five flames just isn't enough.

Title: Tis the Season to be Tempted
Author: Aimee Carson
Rating: 2 stars (least favorite)

Evie and Wes are complete opposites. Evie is the wildchild that never follows directions and Wes had followed the perfect path and does everything right. Wes isn't thrilled to find Evie causing a scene on the plane, but something is different about her now - or maybe it's him that's different. It sounds like an intriguing storyline, but I had a hard time connecting to either character. It seemed just a little too one-night-standish to me.

Overall I would have to give the bundle a good 4 stars. It's pretty good when three out of four of the stories are really good.

4.5 - **"It's certainly going to be a Christmas to remember."** Stars!

Four likeable couples, four great stories, by four awesome authors, all centred on and around the Christmas season.

What's not to love! This little collection is perfect for the reader with a busy few weeks who still wants to indulge in a little festive reading in between the madness and mayhem. Each novella, is no longer than around the hours reading mark, and every one offers up a sexy-sweet interlude for you to escape into for a little while.

I enjoyed all four, but Amy Andrews' offering; *'Tis the Season to be Kissed* just pipped her co-authors as my favorite, but you really cannot go wrong with sticking this box set on your Kindle for Christmas.

Gloria Herrera for As You Wish Reviews says

"tis the season ... these are 4 delightful stories for your Christmas and New Year's Eve. Our characters are all caught in a blizzard and in very unique circumstances in each of these stories. These stories are very amusing and witty. A perfect present for friends who enjoy lighthearted novellas with a twist. Glad I read them!

Fiona Marsden says

Don't you just love a Christmas story? You get Santa, Three wise men, a protective male, a virgin, a baby, good will to all men. Sorry to get your hopes up but this is not that book. You do get Santa, but he's not your every day jolly old fellow. Actually skip Santa. Really it's just about the suit. And the Chief Elf. Two Chief Elfs? A lap dancing Elf? Actually just the outfit. This is really not fitting, just like the Elf costume which was way too small. There is a cute kid. Lost yet?

I was. Lost in a world of a Blizzard that traps four couples in unlikely places. Yes there are in fact four men but none of them are particularly wise, in matters of love anyway, to start with. The protective male, actually yeah there's a bit of that going around. Yes Ma'am! And considering the temperature outside it's just as well they are all particularly hot. The sort of hot that makes you wanna break all those New Years Resolutions.

I'd been anticipating this Anthology for days, because the authors are all favourites of mine. When I started, I couldn't stop. I just thought I'd read one. Get a taster. I finally dragged myself to bed at dawn after three out of four and the fourth I finished over breakfast. This is a great selection of short romances with a common theme but varied in style and story line.

I often worry about Anthologies because you get a theme and by the time you read them all they start to blend with the same old same old stuff. Or it's like that album you bought because you really loved the single and maybe you like a couple of others but the rest are Meh! Neither of those scenarios fit here. Each story sparkles with it's own unique voice and characters. Any disappointments? Well, there wasn't a virgin.

I read this anthology when it was released earlier under the title *Baby, It's Cold Outside*.

Elaine says

What a fabulous festive treat this proved to be! There are four novellas written by highly talented authors,

each story featuring a different couple and set during a snowstorm in the festive season . The stories are all quick reads, great for getting readers in the festive spirit, I enjoyed reading them all!

'Tis the Season to Kiss Santa by Kate Hardy has the office Christmas Grinch 'encouraged' to play Santa to the siblings of terminally ill patients at the behest of his soon-to-retire boss, to prove he has heart and community spirit as well as business acumen. When he meets to pastry chef who is playing Santa's elf, this is a festive recipe with great ingredients to create a heart-warming, tasty seasonal romance!

'Tis the Season to Get Lucky by Heidi Rice has lonely, workaholic marketing manager going in to work on Christmas Day. Whilst there she discovers the son of her boss ruining displays and inadvertently causing mayhem. When a sudden, severe snowstorm leaves them trapped in the store, discovering more about each other, exploring possibilities and having fun make this a fun, festive escapade!

'Tis the Season to be Kissed by Amy Andrews has a kindergarten teacher escaping to the cabin owned by her friend's parents. She's had no luck with love and has decided not to join Georgia in New York, mixing with all the happy couples. Instead she's supping the pitcher of egg nog that Georgia has made for her when, unexpectedly, Georgia's handsome, attractive, brother turns up. He's spent 36 hours returning from duty in Afghanistan and had a horrendous journey . . . and certainly didn't expect to be greeted by a golf club wielding incumbent when he enters what he'd thought would be the deserted cabin. As the attraction between the two grows the snow traps them in but the atmosphere heats up as midnight and the New Year approach . . .

'Tis the Season to be Tempted by Aimee Carson is possibly my favourite of the bundle. It involves the rebellious younger sister returning home for the festive season. She's anxious about flying, so has a drink to help her cope - but she's a lightweight and it goes straight to her head. Hearing her making a fuss, Wes Campbell goes to help calm her down. Her brother is his best friend but this doesn't help him turn off the attraction that builds between them - especially when a snowstorm has them stranded, sharing a room! Get ready for fun with kitchen utensils help tempt them both to explore possibilities and give romance a chance!

The stories have many things in common - great characters, a snowstorm and heart-warming romance. Each author puts their own festive take on their story and they are all easy, steamy reads. They also all end somewhat abruptly and I really wish they had epilogues to hint at what comes next - with them, they'd have been a 5* bundle! However, use your imagination and write your own epilogues as these are great festive reads that'll help get you in the festive mood!

I requested and received a copy of this, via NetGalley. This is my honest review after choosing to read it.

I loved each of these novellas. I reviewed them individually in November and was excited to see them bundled together.

'Tis the Season to Kiss Santa was the 1st thing I'd read by Kate Hardy. I thought it was really good, the only downside was I wished it had been longer. Mitch made a good Scrooge like character, and Ellie was the perfect opposite for him. Really sweet short.

'Tis the Season to Get Lucky by Heidi Rice was tied as my favorite out of the bundle. Loved loved loved it. Who hasn't ever had the fantasy of being locked in a department store overnight? And to be stuck with Ryder Sinclair? Now that's a nice Christmas gift.

'Tis the Season to be Kissed by Amy Andrews was the other novella tied as my favorite. While they both had funny moments, this one just felt deeper to me. I would give anything to read a full length about this couple getting together. That's how you know it's a really good novella.

'Tis the Season to be Tempted by Aimee Carson took me a little longer to get into, but once I did I really liked it. I liked the fact that Evie didn't do things because it was easier. I liked that Wes ended up missing that. Cute story of a childhood crush grown up.

Christine says

Kicking off the holidays with a bundle of short but hot stories about people finding love along tinsel, snow and carols. These quick and dirty holiday bits were a refreshing change from the usual sweet and schmaltzy holiday romance fare. No Christmas angels, ghosts, or gimmicks; just people discovering holiday horniness can lead to a holiday happily ever after.

Just like how Christmas is over before you know it, these four short romances are all about insta-lust and insta-love. The hottest, and naturally my favorite, is Amy Andrews' Tis The Season to be Kissed. A kindergarten teacher trapped in a snowbound cabin with her friend's younger brother and too much eggnog - happy holidays to me, thank you very much.

Just a warning that all four stories end with hopeful but nebulous endings, with bright hints for a HEA. These four hot holiday stories are a fun way to definitely get into the (holiday) mood.

Forget the roasting chestnuts and the ghosts of Christmas past. 'Tis the Season to fall in love and it's coming upon us fast. 'Tis the Season is a front row invitation, a celebration of love. Here's to fresh starts, opens hearts, hope for the future and happily ever afters. So order up some extra mistletoe, prepare to dim the lights and cuddle up in front of the fire and head toward paradise. It may be cold outside, but it's getting hot in here!

'Tis the Season to be Tempted - More than the fire is blazing with Amy Andrews and Aimee Carson steering the wheel. New possibilities are on the verge of being revealed.

"Tis the Season humor and heart take center stage. And a hint of seduction, I hear is all the rage. Heidi Rice and Kate Hardy set the roof on fire. Naughty antics prove to be a wickedly good time.

What is better than an anthology with four holiday stories? We have two Christmas novellas and two New Years Eve stories. You'll find sexy heroes and sassy heroines. All they want for Christmas is true love and a HEA. These novellas are sexy, romantic and humorous. They are the perfect stress reliever for this busy time of year. I enjoyed them all. If you want a relaxing read, this bundle is for you. I read each when they came out but I love that Entangled wrapped them up with a (virtual) bow for our reading pleasure.
