The best book in the series was saved for the last imho. I stretched this series out as long as I could. I was dreading the ending and predicted pouting on my part when I finished this last book. I have to say, this last book didn't disappoint and left me satisfied. I'm sad it's over but I love the way it ended.

Fantastic ending!!!

I love this entire series. The suspense, the tears, and even the moments that I should have put the book down. Wonderfully told story of sacrifice and love.

Full of surprises!

WOW, this book has so many twists and turns. My emotions were taken for a ride. I have come to find out, if the book is by Lisa Olsen, you're going to be ravished. What an adventure. I loved meeting Michael the Arch Angel. There was plenty of action also. This book ran the gamut. There was a fairly steamy sex scene. For a couple of chapters I was pretty P O'd at Lisa Olsen. Why! I raged at the book! Please do yourself a favor and get your copy NOW!. From a true Fan... Pam James.

There is no greater love than that between a parent and a child... and that is truly shown in this book, time and time again. Not just Mercy, but Parker, and Adam they all love Evie and they want what is best. They do not always agree what that is, and sometimes they screw up trying to do what is best, but there is no doubt they love her. My heart shattered for Mercy in this book sooo many times, it just seems that she will never be happy, and never catch a break. I wanted nothing more than for her to have her happily ever after!

I cannot say too much on this one without spoilers because I literally just finished it, but I will say this is a series to re-read, and to enjoy the humor and the little snide comments, and the tender special moments, and "don't you worry your pretty little heads about it" you will enjoy every single one of them....
