The heat is on...

Five bestselling authors have come together to bring you five smoking hot, never before seen novellas that will test the limits of your internal thermostat.

What could be hotter than sizzling firefighters, sultry cowboys, sexy bodyguards and scorching bad boys? Nothing, that's what. It doesn't get much hotter than this!

From the New York Times and USA Today Bestselling Author, Olivia Cunning with **One Starry Night: Sinners on Tour Extras**

In high school, Jake was the bad boy who made Michelle burn with desire, took what he wanted from her body, and broke her heart. In hindsight, Michelle never should have gotten tangled up with the aspiring guitarist in the first place. In high school, Devlin was a sweet, shy geek who'd had a crush on her, but when he'd found the courage to ask her to Prom, she'd turned him down flat. In hindsight, she should have worried more about the quality of the boy than her reputation with the popular crowd. But this isn't high school anymore. At her ten year class reunion, Michelle finds her once popular crowd lacking, but finds both the man who broke her heart and the one she once rejected irresistibly sexy. She wants them. Both of them. And they want her any way—every way—they can have her. Can she resist either man? Does she even want to try?

New York Times bestselling author Nicole Edwards is heating things up with **Boots Optional (Dead Heat Ranch, #0.5)**, a sexy new ménage novella which is the first book in a hot new series called Dead Heat Ranch. Grace Lambert is familiar with hard work, long days, and handsome cowboys. She's been working for her family's dude ranch since she was old enough to ride a horse and she's not afraid to get her hands dirty. What she is afraid of is the heat that's been generating between her and not one, but two sexy cowboys who've set their sights on her. And each other. Grant Kingsley and Lane Miller have both had their eyes on Gracie for years, but the feisty cowgirl has managed to keep them at bay. As far as they are concerned, cowboys don't give up, and neither of them is ready to give up just yet. Not on her and not on the heat that transpires between the two of them. Find out what happens when the sultry Texas nights get as hot as the fierce Texas days.

New York Times bestselling author Cherrie Lynn gets it hot in here with **Shameless**. It's a vacation Meredith Taylor will never forget. A sunny beach, good friends and good times. But when she overhears a couple having a passionate interlude on the balcony above her one night, she can't get the man's sultry voice out of her mind. Especially when she figures out exactly who that man is... Cameron Moore always had an eye on his best friend's little sister but considered her strictly off limits, choosing to satisfy his lust elsewhere. Now Meri seems to want to annihilate every wall Cam's put up against her. The beach is hot, the drinks are cold, Meredith is irresistible, and something has to give. Will it only be the walls between them, or their hearts as well?

New York Times Bestselling Author Kristen Proby brings you **Playing With Fire**, a manage novella. Bailey Whitworth is a charity event organizer and a woman exploring her sexuality. Kevin Welling and Gray

McDermitt are firefighters and best friends who share everything. Bailey always knew her sexual appetites were "different", but she had no idea that she could fall in love with two men at once. What will she do when she has to choose between them? Or will she have to choose at all?

From USA Today bestselling author, Lainey Reese comes **Guarding Nadia** .

When Nadia Dixon walked into the offices of CJ Investigations, the last thing she expected to find were men who looked more like GQ models than bodyguards. It was desperation that brought her to their door however and she prayed that the two sex gods were more than just pretty faces.

Caleb and Jonas had started their security firm together after leaving the Secret Service. They had the lethal skill and training to safeguard anyone, including the gorgeous erotic author. Considering her stunning beauty, alluring sensuality and decadent profession, the only wonder was that she had drawn out just one obsessed fan. After hearing Nadia's story and seeing for themselves the threat that she was under, they knew they could keep her safe from any stalker.

Their only worry...who was going to keep her safe from them?

ARC Given to Blog for Honest Review

3.5 **“Here’s to the Night” “I want it enough” “...it wasn’t even the same fucking sport.” “One shot” “Bruce” Kisses**

You cannot tell me five of the hottest authors I have ever read are putting together an anthology and expect me not to go fangirl crazy. This is like giving my eyeballs an orgasmic dream come true! I have **loved** all of these authors separately but I was just giddy over the prospect of what they could do when the combined their forces of delicious goodness...they’re like the Smut Superhero Avengers...here to make us swoon and drool. Mission accomplished ladies...mission very well accomplished.

One Starry Night

There are two things I have come to expect from Olivia Cunning...amazing characters that I instantly fall in love with...and hot-mind-blowing-melt-your-brain-with-amazingness sex. *One Starry Night* did not disappoint on all fronts. I **loved** more than anything in the world the Sinners connection, because...it wouldn’t be an O.C. book without one...but I loved the premise period.

“I do want you to know that I’m not that scared little girl anymore. If I see something I want, I pursue it and I don’t give a damn about the opinions of others.”

“Do you see anything you want?” he asked, lifting his eyebrows in question.

She grinned and his heart rate tripled at the suggestion in her striking blue eyes.

“I might,” she said, “but I don’t think he’s interested.”

He pulled her against him and swayed with her to the music once again. “I’m pretty sure he is.”

So what happens when you take a former cheerleader who was afraid to go against the popular kids and mix her with her old high school bad boy flame (the one that blew her mind but she kept behind closed doors...or under bleachers, whichever works)...and then add a dash of the former geeky kid that everyone made fun of who grew up into the smoking hot über rich dude that everyone wants to bone? Awesome...that’s what you get...a whole lot of awesome. I liked it...it was different...and it kinda felt like Romy and Michelle’s High School Reunion meets...well...a really awesome porno. Michelle Tanner is given every girls dream...Jake Tremaine **and** Devlin McAllister...and she enjoyed the hell out of both of them!

‘There was nothing in the world but her. It had always been that way for him. It was as if the decade they’d spent apart didn’t exist. He was completely infatuated with this woman.’

At first I was a little conflicted cause...I *really* liked Jake but Devlin was just hitting all my happy places and I didn’t wanna choose, so I sure as shit didn’t want Michelle to have to choose...and thus the greatness of

Olivia comes into play – don't choose, have both! Win-Win and I'm a happy little book worm. **God** bless America, I didn't know you could pack that many orgasms into so few pages...but, she did it, she rocked it and I couldn't get enough of it.

“So much for my attempts to protect you from his libido,” Devlin said and joined them on the bed.

“You should probably be more concerned about protecting me from her libido,” Jake said from between her legs.

“He's right,” Michelle said and sighed when Jake's tongue flicked over her sensitive clit.

“I'm constantly horny. Maybe the two of you could manage to keep up with me if you worked together.”

If anything, that's the one drawback to novellas...I *always* want more period, so like novellas are the thing I love to hate. It's enough to pull me in, hook me and then it's over and I don't wanna get off the party bus. It's quick...it's sexy...maximum hotness, no angst and I was left smiling (and praying for more later).

Boots Optional

Well damn it if Nicole Edwards can't write these spot on amazing Texas men that just blow my mind. I drool every time...I just can't help myself. She continuously creates these incredibly engaging characters that are emotional...sensual...commanding...powerful...sexy – it's a heady and addictive combination. *Boots Optional* is the kick off to The Dead Heat Ranch Series...of course, based in Texas (where all good cowboys come from) and man...this is going to be a good one, I can tell already.

**‘That damn sure wasn't indifference he saw in her blue-green gaze.
That was lust.’**

I **love** that this series is about sisters and while *BO* is focused on Gracie...we get to meet all 5 of the Lambert sisters. Abigail Grace Lambert is...a good girl and a hard worker...but all work and no play makes Gracie a stick in the mud – one that Grant has been trying to cut loose for years. All it took was a little extra effort from Lane to peel away those layers and...*click*...everything just feel into place. Like a perfect puzzle, these three just work...but **damn** it was torture getting there.

“Understand what?” she asked, the words little more than a croak.

“We want you,” he answered.

“Me?” Gracie cleared her throat. And her mind. This was bullshit is what this was.

“Me?” she asked again adding another dose of incredulity for good measure. “From the looks of it, y'all want each other. Not me.”

“Gorgeous, things aren't always as black and white as you want them to be,” Lane offered.’

Nicole likes to angst me, I'll give her that – but I've always like her specific angsty torture...she knows how

to squeeze the heart just right but *man*, the sweet sexy goodness I was rewarded with once the torment was over - **H.O.T.N.E.S.S!** Boots on or off, I don't give a hoot – any way you slice it, the sex was fabulous. I need to look into making a trip to a dude ranch...pronto!

Shameless

Cherrie Cherrie Cherrie...now **that's** how you write a novella. *Damn!* It started off with a little intrigue, pulled me in with emotion and angst, *more* than satisfied me with some sinfully delicious sex and then finished me off with a wonderful HEA. I **loved** it. It had everything I look for in a full length novel, just condensed...and it totally worked for me.

“Are you sure?” he whispered in her ear, and she knew he wasn't asking about Alyssa's absence.

Meri slipped her hands up his chest and into his thick, dark hair, staring up into his eyes.

“Absolutely. Completely.”

Meredith Taylor and Cameron Moore...the little sister and the brothers best friend – it's a story that has been told before but I could listen to it time and time again. I love the tension, the withholding of feelings, the fear of rejection, wondering if he'll ever stop seeing her as a 'kid'...there isn't a whole lot about it that I don't love...and Cherrie Lynn wrote Meri and Cam *brilliantly*. I loved them both...even with the way it starts off and what brings them together – usually that's not my style, but...for whatever reason, I liked it.

“What I'm saying, Meredith, is that if I get inside you, don't ever plan on getting me out.”

I really can't get over how much I loved this novella...I think it had a lot to do with Meri because I did connect a lot with her. The story is told from both Cam and Meredith's POV's, alternating chapters, but it was good...it worked. Of course I adored every delicious inch of Cam...and I couldn't get over his feelings for Meredith...**sigh**...it just made him that much more perfect. And Good **God** the two of them were blissfully sexy...addictively passionate...mouthwateringly sensual...I was in lust with the two of them. All that pent up time and longing did them good IMO...they set the pages on fire! (and I **loved** it!)

“Fuck, do you know what you're doing to me right now, kid?”

She laughed. Yeah, she could feel exactly what she was doing to him. “I have an idea. And I thought we had gotten past the 'kid.'”

“I like teasing you.”

“I think boys only tease girls when they have a crush on them.”

“Then expect me to keep doing it for a long, long time. Kid.”

Shameless was hot, sexy and packed a punch – a quick little story to set your kindle on fire, melt your heart (and your panties) and leave a satisfied little book worm in its wake. **Perfect!**

Playing With Fire

How??? How does she do it *every* mother loving time??? I don't get it...I don't know if I want to get it...I just want Kristen Proby to keep doing it! She successfully renders me into this pile of loving mush and I can't get enough of it. The characters...the sexiness...the magical way I just fall into their world...it's like a blissful little bit of paradise.

'I'd be stupid to say no.

And I may be a lot of things, but stupid isn't one of them.'

Alright...so one hot and sexy firefighter is enough to get me to surrender all my wits, but **two** equally delicious, yet equally different firefighters...and I just gave into the awesomeness. Gray McDermitt and Kevin Welling...Bailey Whitworth never stood a chance. She tried to put up a fight...and her logic is sound – the decision to choose is too tough...but why pick one over the other when you don't have to? Hello...where's the fun in that! **God**, Kristen knows how to write these insanely sexy alpha men to a fuckin T! They're brilliant...passionate...charismatic...kind...sensual...just – perfect!

“Do I mind?” He laughs and tucks a strand of my hair behind my ear. “Baby, that’s like asking me if I mind if you breathe. You can do any damn thing you want to me and I’ll fucking love it.”

That's what got me...of course I loved Bailey, I always love Kristen's heroines, but Kevin and Gray are just divineness wrapped in sex and dipped in lust – and I couldn't help but adore them. I loved how different they were...Kevin is fun and playful and doesn't hold back while Gray is calm and serious and more reserved. There is no way to choose between the two, it's impossible, but that's the brilliance of this book...you get the best of both worlds.

“What’s different about me?” she asks with a frown.

“Everything,” we reply in unison.'

They doubled my pleasure and my fun (and Bailey's too) – I also loved the With Me In Seattle series reference...that was a nice touch, very subtle but I appreciated it. I enjoyed the alternating POV's...it was nice and changed up the pace – definitely kept you wondering whose head you might be in next, but it was never confusing...just fun. The angst was limited, mostly just down to the good stuff...lots of hot-n-sexy good stuff. Of course my favorite part was the ending...sweet, endearing and fabulous ending to Bailey, Gray and Kevin. Love! <3

Guarding Nadia

Way to end with a bang! *Guarding Nadia* had something that none of the other books had...something that set it apart – suspense! And considering the word count, Lainey packed as much as she could into it without sparing the steam I have come to expect from her writing. It was intense...it was seductive...and good lord

have mercy it was sexy as fuck.

‘Someday, somehow she would find Mr. Right. Someday. Until then, she would just make do with writing about him.’

Two Dom’s plus One Erotica Writer = a freaking amazing idea! Nadia was a perfect blend of sensual and submissive while still having a sweet and kind personality...she was easy to connect with. Plus, the fact that she was a writer made her that much closer to my heart. Caleb and Jonas...oh my delicious and sexy alpha Doms...they do make the world go round. While Caleb and Jonas have a lot in common...the striking differences of what set them apart are what I liked most. Caleb is ‘Mr. Serious’...all business and usually with the calmer head while Jonas is more casual and leads with his heart.

**“Behave.” He admonished. “Or you’ll get a spanking when we get there.”
“If that was supposed to scare me, *sir*, it missed its mark,” she taunted.**

Was the relationship that formed between these three fast? Yes...it was – but it was a whirlwind of perfect timing, high emotions and intense sexual chemistry and for all the right reasons, I got it. I would have liked a little bit more BDSM...but the BDSM we are given is creative and a little bit of change of pace from the norm – so points for Ms. Reese on that. Everything about Nadia, Caleb and Jonas was electric and powerful...and that especially came through in their sex scenes...oh-em-gee and be ready for the amazing sex scenes. Just...yum!

‘Nadia was startled, but far from scared, even as she looked up into what she was sure was Jonas’ most forbidding expression. They were her guardians, her protectors, and now, also her lovers. Fear was the last thing she felt for them.’

So just when you think the ending is going to be safe and sound after all that tension...Lainey gets ya. I really thought she was going to leave me hanging...which made me a little sad, but I should know better by now. Fabulous ending to a delicious sensual novella.

Definitely HOT reading. There were some hot sex scenes. The stories are quick and keep your attention.

Some of the stories are just too short and would like to read more of them.

Lyndy Ann ? says

Five sizzling hot short stories which I enjoyed.

My favourite of course was Playing With Fire by Kristen Proby (she is the reason I bought this) loved Bailey, Gray and Kevin a fire fighter sandwich yummy (My first threesome).

Jewel says

?Two of these five authors are on my auto-buy list (Olivia Cunning and Nicole Edwards) and I've also read and enjoyed some of Lainey Reese's novels, so buying this anthology really was a no brainer. It is a fantastic collection of stories and I am glad to have spent time in their respective worlds.?

***One Starry Night*, by Olivia Cunning -- 5 Stars**

I LOVE Olivia Cunning's Sinners on Tour series, so I was thrilled to find that Jake's story was in this anthology. HOT HOT HOT!!! Jake secretly dated Michelle in high school. Devlin not so secretly wanted Michelle in high school. They all meet up at their 10 year reunion and sparks fly. Devlin is no longer the awkward, geeky boy, but a very successful and gorgeous man and Jake is a roadie for Sinners. Michelle is very hot for both of them, and as it turns out, they are both hot for her and each other. What transpires is a night of incendiary sex and off the charts chemistry. I needed to turn down the thermostat while reading!

***Boots Optional* , by Nicole Edwards-- 5 Stars**

If this novella is a taste of what we can expect from the new Dead Heat Ranch series, sign me up! Mmm mmm delicious! The starting scene with Grant and Lane set the mood just right. I'm looking forward to reading more about them and Grace.

Two hot & sexy cowboys that are as much into each other as they are Grace? Oh, yeah. I approve. ?

***Shameless*, by Cherrie Lynn -- 3.5 Stars**

A friends to lovers story. I think my favorite scene was when Meredith eavesdropped on Cam and his one night stand on his balcony. Does that make me a perve?

***Playing with Fire*, by Kristen Proby --? 3.5 Stars????**

? Volunteer to undress sweaty fire fighters? Where do I sign up?! Hell I'd pay for that privilege.

?I liked this story, but the timeline went a bit too quickly for me to be able to suspend my disbelief. Going from acquaintances to ?living together and dropping the L word over the space of two days? I don't buy that.

The story was hot, though.

***Guarding Nadia*, by Lainey Reese -- ?4 Stars**

Though a novella, it didn't really have the novella feel to it. Nadia is a BDSM romance writer who has picked up a stalker. With the police not really being as helpful as they probably should be, she needs protection. Caleb and Jonas are not only security professionals, they are also Doms and they both ?have taking rather a liking to Nadia, who is a submissive, even though she doesn't know it. An enjoyable story.

From the blog of Olivia Cunning:

May 5, 2014

Though it seems as if I've fallen off the face of the Earth, I've been working on a super secret writing project (while discovering the joys of mowing a three-acre hilly yard, putting furniture together and installing a ceiling fan all by myself)!

Remember Jake Tremaine from the Sinners series? The roadie that drove Myrna's Thunderbird from Des Moines so she could spend the night on the bus with Brian and she threatened to murder Jake for squealing her tires? Remember that guy? Well, I wrote a little story about him and it's hot! So if you like it hot—some do—check out this amazing anthology by four of the hottest authors in the genre—Nicole muthafucking Edwards, Cherrie muthafucking Lynn, Kristen muthafucking Proby, and Lainey muthafucking Reese. I just guessed their middle names. I apologize if I got them wrong. Oh and me. I'm in there too.

Kim Bailey says

Happy to say that this book totally lived up to its cover! Scorching hot. Although I would have liked a bit more variety in the stories. My favorite was Olivia Cunning's, but Nicole Edwards was a very close second :)

Pre Read

Just one-clicked this bad boy! If the stories inside are half as hot as that cover ... I'm in for a treat!

Tabatha says

Some like it hot? Well...I think a few of the stories in this anthology brought hot to a whole new level. So hot in fact, that I'm finding it really hard to express my feelings on this collection of stories. One thing I do have to say, is to be prepared because you are going to definitely want your significant other near by when you read this one guys!

Olivia Cunning One Starry Night ★★★★★

By far the best out of all of the books in this anthology, so it opened with a quite the bang. I think that Olivia tried really hard to set my e-reader on fire! I'm telling you that these three were *scorching* hot, and I absolutely loved every minute of this story. It might seem a bit fast paced as far as her jumping into bed with two old high school friends, but something about this story just really worked for me. You can't tell me that any woman in her right mind would pass up on the opportunity that was presented to be part of a Jake and Devlin sandwich!

Nicole Edwards Boots Optional ★★★★★

This was an introduction into a new series for Nicole, and it looks to be just as great as her other series I've read by her. This will follow the Lambert sisters, and I'm definitely eager to see where this story goes from here with the subsequent books because this left me wanting more.

Cherrie Lynn SHAMELESS ★★★

I've always loved the type of story of the girl falling for her brother's best friend, and Cherrie delivered in the best way! Both Cameron and Meredith have always had feelings for each other, but Meredith is finally pushed into action after over hearing Cam with another woman while on vacation. The only thing that niggled me a bit was the aspect of her overhearing him with another woman. Yeah it was sexy when she didn't know who they were, but I think I would have had issue with that personally and been too gutted to make my move. Overall though, this was still one sexy read and I enjoyed it.

Kristen Proby Playing With Fire ★

This was my first read of Proby, and it will certainly be my last. I hate to say that, but everything about this story annoyed the crap out of me. From the alternating first person point of view between the three characters, to how everything played out...I just didn't enjoy it at all. I think her style of writing isn't for me.

Lainey Reese Guarding Nadia ★★★★★

I enjoyed this suspenseful little short story even if it was a tad on the predictable side for me for who the stalker was. The heat and chemistry between the three characters really worked for me, and it was an overall great and kinky short story.

Lisa says

This book was a ride and half! I loved it and disliked it...in a good way!!! The love was for the author's and the novella's, the dislike was they ended far too soon and I needed MORE!!!

Olivia Cunning...One Starry Night...

Michelle, Jake the bad boy who broke her heart and add the geek all grown up, Devlin! Fun, lots of fun, tats, piercings, fun and a millionaire's mansion....did I mention fun??? It was a fab short read, but really wanted to know how their relationship works out with pressures of their outside lives encroaching in on their bubble.....I felt teased!! More...I needed more....

Nicole Edwards...Boots Optional

Another one I just needed more of....the saving grace is it's the first book in a new series called Dead Heat Ranch (thank you book fairy!!!!) Grace, Grant and Lance....after desperately trying to avoid them, Grace eventually succumbs to the cowboy sandwich and steamy nights!!! Some funny moments with Grace's feisty sisters...who I am guessing are the stars of the new series...hopefully with more of this trio too!!

Cherrie Lynn....SHAMELESS.

This was the middle novella in the book...the only m/f...it was a light breath. Meri is the little sister who has a crush on big brothers best friend....and she doesn't know the feeling is mutual. Nice read, HEA.

Kristen Proby.....PLAYING WITH FIRE

The 4th ménage novella, unlike the first two novella's...this does not include m/m attraction...strictly m/f/m and m/f. Bailey, Kevin and Gray come together for a weekend of fun and they end up making it a permanent relationship...the ending was very sweet....but again...was so needing more of their future together!!!
Enjoyable read.

Lainey Reese....Guarding Nadia.

This was the first time I had read Lainey Reese and enjoyed it. A little suspense/stalker issue and some light BDSM - Nadia, Caleb and Jonas. Again, no m/m attraction, just m/f/m. Nice read to end off the book.

Altogether a great read...fab book for holibobs beach/pool read...but make sure you have a COLD drink, some shades and 6ft 3" studly man mountain on hand to help turn the page :D

4.5

Blimey that was scorching.

Although each story was short, they didn't skimp on strong, sexy characters and there was a plot of sorts in between all the bumping and grinding that kept me reading avidly.

All but one of these are menage stories, and mmf menage at that. Is that what everyone's doing now? How did I miss out? What's more, the guys in this tidied, cleaned, cooked and didn't suffer from morning breath. After reading that I feel a little short-changed with just the one hub...

Not for the faint hearted reader, this was really explicit and deliciously rude. No complaints here of course but you have been warned.

Flavs is Mrs David Gandy♥~♥' says

Okay I don't actually have words to describe how good this was.

Like I think so many said before me who has read this...

Read in Private! And be prepared for some hot/steamy and definitely rememberable moments. :-)

I would read this over and over again. One of those books you will want to save forever!

Enjoy!
