Intrigue Grace Cavendish , Jan Burchett , Patricia Finney , Sara Vogler

A new play: Intrigue, is just about to open in Whitehall. The play includes a very clever, convincing death scene, and the Queen is desperate to see it before the rest of her country. But when the Queen goes to watch, the death scene is far too convincing - in fact, it's real! Richard Fitzgrey has just been murdered in front of the Queen. Grace finds as many opportunities as possible to investigate this dramatic death. She discovers that the motives for Richard's murder are more complicated than she first thought. Can Grace, Masou and Ellie solve the crime before an innocent man is punished.

Lady Entropy says

Still having fun with this series for when I need to turn my brain off and just throw myself into historical england but I am heartbroken as the adorable tiny HC books are no more (only large softcovers) and I am slowly running out of them. The books seem to end around volume 12 or 13 and no new ones have come out for a while.

Come on! It's a long road to Z!

Russell Hall says

a very exciting and adventurous story. Good Show Lady Grace

Zoe says

Same sort of thing as ever really. This book was a bit more annoying than the others except for the one where nobody died.

Rebecca says

Intrigue is the ninth novel in the Lady Grace Mysteries, a series written in the form of the diary of Lady Grace Cavendish, a teenage Maid of Honor to Queen Elizabeth I who solves mysteries at court.

It's August of 1570, and a new play, called "Intrigue," is opening in London. It is a unique play in that it features a mystery for the audience to solve. Queen Elizabeth is eager to see it, and so a special showing for the Queen is arranged, which Lady Grace attends with other members of the Queen's court. But the play's death scene turns out to be all too real when it is discovered that the leading star, popular actor Richard Fitzgrey, has been murdered on the stage. Grace is determined to find out who the murderer is, but the case is very puzzling and even worse, an innocent man may be executed for a crime he didn't commit if she doesn't find out the identity of the real killer in time.

This book was an enjoyable read and I'd recommend it to other readers who enjoyed the previous books in the series. As always, the author includes many interesting details about life in Elizabethan times while telling an exciting story, and I look forward to reading of Grace's future adventures.
